DAY OF ATONEMENT

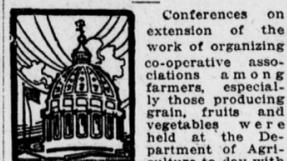

Yom Kippur to be observed by Jews on October 7. The Jewish Day of Atonement—Yom Kippur—will be celebrated in the synagogues of this city on Saturday of this week, October 7, which is the tenth day of the month of Tishri in the Hebrew calendar. This celebration begins the evening before with a special service known as the Nol Nidre—All Vows—so called from the opening words of the introductory prayer. The prayer is noteworthy, among other things, for the profoundly beautiful melody to which it is traditionally chanted. The Day of Atonement itself is the great White Fast, the culmination of the penitential days, inaugurated by the Jewish New Year, and is one of the most important days in the Jewish calendar. The Bible in several passages designates it as the Sabbath of Sabbaths. In ancient days its observance was characterized by elaborate priestly ceremonial and sacrificial rite. One of the most impressive features of Yom Kippur devotion, as it is now observed, continued for the entire day until sunset, is the memorial service for the dead, held usually in the afternoon. The concluding service of the Day of Atonement is called Neilah and the tone of its prayers is holy joy in the consciousness of God's forgiveness and loving favor.

STEELTON NEWS MUCH INTEREST IN BIG CHANGES

Steelton Approves Plans For Real Estate and Company Store Transfers

Statements made at the annual banquet of the Harrisburg Chamber of Commerce last evening by Charles M. Schwab and E. G. Grace of the Bethlehem Steel Corporation have created widespread interest in the borough. Everywhere this morning the speeches of the two great steel makers were being discussed. Of particular interest locally is the statement by President Grace that the Company Store is to be divorced from the steel plant management and that the company will dispose of all of its real estate holdings for other than manufacturing purposes. The company store is one of the oldest institutions in the borough and one of the most important. Under the management of W. E. Abercrombie the business has come to be one of the largest in Central Pennsylvania. It conducts both a retail and wholesale business. While no plans have yet been announced for the proposed change, it is said that the store will be continued but not as a part of the steel company. Just what the statement that all outside real estate would be done away with will mean to the borough is not known. At present the company owns many houses on Cottage Hill, the East End and other parts of the borough. Just how they will be disposed of is not known. Of interest here is the explanation of some of the improvement plans. So many have been the changes the new owners here that the borough would be surprised at any improvements the Schwab interests place here. It has even been suggested that steel cars might be built here.

Police Are Withdrawn From Duty on Underground Trains in N. Y. Trolley Strike

New York, Oct. 3.—Satisfied that there is little further danger of violence in the subway as a result of the street railway strike, the police department to-day withdrew all policemen from strike duty on the underground trains. Since the strike began a policeman has ridden as guard in the first car of virtually every train. The policemen, however, will be kept on station platforms for a few days longer. Only one policeman, instead of two, hereafter will be assigned to each surface car. The battleground of the turbulent element among the strikers has been transferred to Westchester county. The fight there centers in Mount Vernon, where an effort was made to-day to rescind the ordinance which prohibits the transit company from employing carmen who have not had fifteen days' experience as such. The street railway company asserts that this ordinance prevents them from operating their cars. Shortly after announcement was made that police guards were to be removed from the elevated trains as well as the subway three trains were attacked, one of them a Bronx subway express. A bullet, fired at a Third avenue elevated train, clipped a piece from the right ear of a passenger, Melville Wright, 40 years of age, and fell to the floor after penetrating a motorman's booth. The police say the bullet was fired from a .38-caliber revolver.

SAVE YOUR HAIR AND BEAUTIFY IT WITH "DANDERINE"

Spend 25 cents! Dandruff disappears and hair stops coming out. Try this! Hair gets beautiful, wavy and thick in few moments. If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is lustrous and beautiful, Danderine is just what you need. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will see this was the best investment you ever made. We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?
