### TICKETS GOING OUT FOR SERIES

(Continued From First Page)

cants appeared at the club box offices at Fenway Park. Ticket distribution prior to the last of the opening game will be made from there, although the games will be played at Braves Field, the grounds of the local National League club.

To prevent the congestion which interfered with traffic in the vicinity of Braves Field last year new arrangements by the police and club officials were made to-day. Sale of admission seats at \$1 and 50 cents will be made from offices on the side of the grounds opposite the grandstand entrances, thus obviating the crush which kept many holders of reserved seats from the games last year. These new gates will be opened at 9 o'clock on the morning of the games, purchasers of tickets must move into the grounds at once and the gates will be closed as soon as the 15,000 rush seats are filled, according to the plans.

To make the arrangements at such an early date and to make possible the playing of the opening games here while the Brooklyn club is placed in readiness for its first world series the Boston club has had men at work day and night for more than a week. Secretary Edwin Riley collapsed under the strain and his physician said to-day that he would be unable to see the team in action in the big games.

Assurances that the Red Sox will be cheered on the foreign field by organized local supporters as the local world series contenders have been for years was given to-day by John M. Killen, leader of the royal rooters. He reported that the royal rooters of the Brooklyn club had promised an adequate supply of tickets for the Boston party which will follow the fortunes of the team throughout the series. First indications of the betting odds on the series were available to-day with Brooklyn definitely placed as the National League pennant winner. Wagers were offered here at odds of ten to seven on Boston. As yet, it was said, no Brooklyn money had appeared.

To-day the players who have just won the American League title became further accustomed to the lay of the land at Braves Field. Light batting and fielding practice was the order set by Manager Carrigan.

statement made by Manager John McGraw, of the New York Giants, that his team played listless ball in the game yesterday when Brooklyn easily defeated the Giants and captured the National League championship. President John K. Tener, of the National League, said to-day that the commission would not take any cognizance of McGraw's remarks.

"McGraw was undoubtedly wrought up over the fact that his team could not keep on winning," said President Tener. "The Giants were suffering from the reaction of their long winning streak. I don't doubt that McGraw said harsh things, but every friend of baseball will realize the fiery temper of the man who said them."

McGraw could not be found to-day to amplify his remarks which he made shortly after he left the Giants' bench in anger during the fifth inning of the game yesterday.

Captain Jake Daubert, of the Brooklyn, says that Fletcher told him before the game that while he might like to see him win, the Giants were out to win the game, if possible.

In commenting on McGraw's remarks, President Ban Johnson, of the American League, characterized them as "outrageous" and said that if this situation had arisen in the American League he would have dealt with it in anything but a lenient manner. When asked if the National Commission would take up the matter Johnson said that it was up to the National League to handle it. "If they are not big enough to handle it they should go out of business," he said.

Garry Herrmann, a member of the commission, was reticent regarding the affair. "This is the first I had heard of the incident," he said. "I thought it was a joke. Now I believe it was a fool act."
