Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any apothecary store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prominent physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. The manufacturers guarantee it to strengthen eyesight 50 per cent. in one week's time in many instances or refund the money. It can be obtained from any good druggist and is one of the very few preparations I feel should be kept on hand for regular use in almost every family." It is sold in Harrisburg by H. C. Kennedy, Croll Ketter and by druggists generally.

Reasons For Unusual Coal Shortage

Three things are responsible for the great shortage of coal.

First: The labor situation is hopelessly beyond control of the operators. If the mines are to produce the quantity of coal demanded now, they must have at least 10 per cent. more men—and more men cannot be had.

Second: The great car shortage. Some mine owners say they are getting only 15 per cent. to 20 per cent. of their actual requirements. That is, when they order 100 cars, the railroad gives them from 15 to 20 cars.

Third: Coal Consumers failed to buy coal in the summer months and for that reason the mines were often closed for want of orders.

A Shortage of coal is a fact, not a theory.

Secure, without delay, enough to last you throughout the winter—otherwise you may regret it.

"McCormick Landslides" Discussed in Editorial

In an editorial headed "Those McCormick Landslides," the Philadelphia Evening Bulletin says: "Chairman V. McCormick, of the Democratic national committee, continues in active business as a cocksure prophet. His latest exhibit is a 'landslide' in which it may be doubtful whether there will be any States left to the Republicans.

"It is just two years ago that the chairman, as a candidate for Governor of Pennsylvania, together with his equally ardent Democratic colleague, Mr. A. Mitchell Palmer, as a candidate for United States senator, was in the same ecstatic frame of mind over the magnificent rainbow outlook of the Democratic party in this State.

On that occasion, a few days in advance of the election, the chairman of the Democratic State committee made the following forecast:

"McCormick will come to the Philadelphia county line with 125,000 majority. Penrose will be third in the senatorial race. Never has the Democracy been more united, more hopeful and more confident than it is today. Election predictions are seldom taken seriously. I ask the voters of the State to cut this out and compare it with the results."

Moreover, Mr. McCormick announced at that time that he was looking forward to what would be his gubernatorial responsibility in meeting the Legislature two months afterward, while Mr. Palmer, in the exuberance of his confidence in the success of the superb rainbow, assured the public that "Penrose will be licked as sure as the sun shines."

"All this, too, was on the eve of an election in which Penrose had 250,000 plurality and in which Vance McCormick, beaten by 130,000 plurality, lost his ward, his city, his county and his State."

FORMER SLAVE 106 YEARS OLD

Mrs. Lydia Harkness, Born on Virginia Plantation, Is Now at Cumberland County Home

Carlisle, Pa., Nov. 2.—With a memory filled with recollections of "before the war" and Civil War times which she never tires of relating, Mrs. Lydia Harkness is one of the most interesting residents of the Cumberland county home here. She is over 106 years old, records in her possession show, and was a slave for many years.

Mrs. Harkness came here about fifteen years ago from Winchester, Va., where she made her home after being freed. She was born on the plantation of Frank Ash, later a captain in the Confederate service, and lived there until the late sixties. She has been at the home but a short time, going there after the death of relatives. Her son was a body servant to Captain Ash during the greater part of the war. She retains possession of her faculties to a remarkable degree for one of her advanced years.

It is understood that between \$8,000,000 and \$10,000,000 will be spent on additions and improvements.
