

U-BOAT PROBLEM TO BE TAKEN UP FIRST BY WILSON

Back at Desk After Absence; Concerned Over Make-Up of Next House

QUIET ON ELECTION

Plans Rest Before Short Session; McCormick Considered For the Cabinet

Washington, D. C., Nov. 13.—President Wilson was back at his desk in the White House to-day after an absence of two months, prepared to take up important foreign problems which have been held in abeyance pending the election as well as domestic questions.

The President was expected to consider first the submarine situation which is admittedly serious. A summary of recent developments in German submarine warfare, prepared by the State Department, was ready to be laid before him and, in addition he probably soon will confer again with Ambassador Gerard on the situation.

The President has not even considered the question of changes in his cabinet according to administration officials who characterize as premature reports that he has decided on such changes. It is possible, however, that one or two cabinet officers may not remain after March 4.

Although Mr. Wilson was tired out when he returned to the White House last night he was up early to-day and had breakfast before 8 o'clock. Immediately afterward he began reading a huge stack of mail accumulated during his trip to Williamstown, Mass.

Concerned Over House The President asked first for the latest information on the political make-up of the House of Representatives in the Sixty-fifth Congress. He was told indications from present returns were that the Republicans would have 217 members and the Democrats 183.

Nine Drown When Big Automobile Stage Plunges Through Draw in River

Vancouver, B. C., Nov. 13.—Nine persons at least, including two women, were drowned in the Fraser river near Ladner last night when a big automobile stage from Ladner, B. C., plunged through an open draw of the bridge and went to the bottom of the stream. Divers had succeeded last night in recovering eight of the bodies. The survivors were picked up by a lifeboat from a river tug. In the absence of definite information as to the number of passengers carried on the stage it was feared by officials here that the death list might be increased to 12. The driver, George Smith, was among the drowned.

Alderman DeShong Is Mandamus Into Court

Because he has refused to turn over a transcript of the proceedings instituted by W. S. and Arthur Stambaugh against George R. Reese, Alderman James B. DeShong to-day was mandamus into the Dauphin county court to produce a transcript of the records. He must answer within five days.

Attorney Fred Miller who represents the Stambaugh brothers, asked for the mandamus. He said that the alderman has steadfastly declined to deliver a transcript until the costs are paid by the prosecution, who lost the case. Miller said his clients are willing to give security for the costs if an appeal is decided against them but DeShong, according to the attorney, has declined to produce a copy of his records.

General Conditions A disturbance of slight energy is centered over Northern Ohio this morning. It has caused rain in the East, Gulf States and Tennessee and in the Atlantic States, from Florida to Southern New England in the last twenty-four hours, and, in central Ohio, a strong, cold high pressure area in the West, snow and rain in the Lake region and the Middle Mississippi Valley and snow generally in the Plains States and over the central and southern Rocky Mountain districts. The cold wave in the West and Northwest has increased in intensity since Saturday morning, and is moving slowly southward. Temperatures lower than ever recorded so early in the season have occurred in Wyoming, Idaho and Oregon. At Sheridan, Wyoming, the temperature fell to 26 degrees below zero this morning, breaking all records for November. Freezing temperatures reached southward as far as Central Texas.

COLD WAVE FROM NORTHWEST WILL HIT HARRISBURG

Temperatures at Many Places Lower Than Ever Recorded in November

26 BELOW IN WYOMING

To Diminish in Intensity, but City Will Get Taste of Real Winter

Real winter weather including snow and ice is due this week in Harrisburg. According to a dispatch from Washington, a cold wave, which is breaking all records west of the Mississippi river for this time of the year, is moving toward the Atlantic coast.

Local observer, E. R. Demain, corroborated the dispatch from Washington and added: "The city will get something like real winter about tomorrow." The cold spell is expected to last until Saturday or Sunday. Whether it will bring skating at Wildwood can be told more positively tomorrow. One thing is certain, the temperature will go below freezing point.

Cold Winter Ahead? According to an old legend regarding St. Martin's Day, which dawned early Saturday, a severe winter may be expected.

On the other hand, had the day been raw and dismal, many persons would have accepted this as proof positive that the winter is to be mild. For so runs the legend. During the fourth century when St. Martin was a soldier under Constantine at Amiens, France, he cut his cloak in two parts with his sword and gave half of it to a beggar. According to the story, that night he had a dream in which he saw Christ wearing the garment he had given the beggar. He immediately realized that his charity had been extended to Christ himself.

In later years French peasants, who had learned the story, circulated the legend that if the day was cold on the anniversary of St. Martin's death, the winter would be mild. After the young soldier's generous gift they believed that Christ had tempered the weather in order that he might not suffer from the cold.

26 Below in Wyoming The Washington dispatch says: "A cold wave with temperature at various places lower than ever before recorded in November, overspreads the region west of the Mississippi to-day and will move eastward to the Atlantic coast. Sheridan, Wyo., reported the lowest temperature with 26 degrees below zero; Lander, Wyo., 24 degrees below zero; Cheyenne, Wyo., Yellowstone National Park and Havre, Mont., 20 degrees below zero. The intense cold reached southward into the interior of Texas.

Weather Bureau officials to-day said the cold wave perhaps would diminish in intensity as it moved eastward. Its movement and intensity would depend, they pointed out, on the West Indian disturbance which was reported this morning in the Caribbean sea in the vicinity of Swan Island. That storm was apparently increasing in intensity and will move northward, probably attended by strong winds reaching gale force during the next 36 hours over the east portion of the Gulf of Mexico and South Florida.

Rain and snow probably will precede the cold wave in the north Atlantic States, Great Lakes region, Ohio Valley and Tennessee. The cold will strike the Ohio Valley, Tennessee and the Gulf States to-night and the Atlantic States, except south Florida, on Tuesday. Cold wave warnings have been issued for Mississippi, Alabama, Tennessee, Kentucky, Indiana and Southwest Ohio.

Arrest Man Wanted For Theft and Manslaughter

Frank Sherman, who is wanted in this city, charged not only with taking an automobile without the owner's permission but also with manslaughter, has been arrested in Montclair, N. J.

About eighteen months ago, Sherman helped himself to a car and in company with several friends went joy riding. While driving at a high rate of speed in Cameron extension near the intersection of the North and Emma streets, he was plinned beneath the wreckage.

The Harrisburg Motor Club offers a \$50 reward for the arrest and conviction of any person stealing a car, and the penalty is a fine of \$100 to \$300 or from one to three years in jail.

PENNSY OBJECTS TO FRYE'S HOTEL IN N. SEVENTH ST.

Report of Railroad Police Is Submitted For Court's Consideration

To the protests of the Dauphin County No-License League and the congregation of Messiah Lutheran Church against the transfer of the Theodore F. Frye hotel from 501 State street to 1912 North Seventh was added to-day the vigorous objection of the Pennsylvania Railroad Company. That there are enough saloons in this section now, that the new stand is too close to the Herr street subway and the railroad shops, that the character of the clientele which Frye will likely serve to increase "unlawfulness" in the neighborhood, and that men and women of both races frequent hotels in that section, are the reasons upon which the railroad company bases its objections.

The company's reasons were set forth in a report on the matter which was submitted to W. B. McCaleb, superintendent of the Philadelphia division of the Pennsylvania railroad by Captain Paul Barclay of the railroad police.

The Pennsy's Protest The letter was presented in court to-day when the application for transfer was heard by President Judge Kunkel and Additional Law Judge McCarrill. W. J. Carter, counsel for Frye objected to the admission of the letter and Judge Kunkel explained that the communication will be filed subject to the objection with the understanding that the court may or may not call for testimony to support any of the allegations.

On the witness stand Frye vigorously denied that white men or women are permitted to drink together in his State street hotel. Frye is compelled to move from his present quarters because the State is about to take over his property for Capitol park extension purposes. At license court last February Frye tried to move into new quarters in North Seventh street, but withdrew the application in the face of vigorous objections.

TWO TO RETIRE FROM CABINET

Burleson and Gregory Plan to Quit When President Reorganizes Body

Washington, D. C., Nov. 13.—Two members of the Wilson Cabinet will retire voluntarily. They are Postmaster General Burleson and Attorney General Gregory. Mr. Burleson desires to return to Texas to qualify as a candidate for the United States Senate and Mr. Gregory, also of Texas, has already arranged to resume his extensive law practice. They are known privately to have expressed an intention of leaving the Cabinet, which will be reorganized next March.

Political gossip is to the effect that Vance C. McCormick of Harrisburg, Pa., Democratic national chairman, is to be taken into the Cabinet as Secretary of War in place of Mr. Baker, whose resignation has been rumored. Mr. McCormick would not confirm the gossip. Indications are that the President will insist that Secretary Daniels remain in the Cabinet for several reasons. (Continued on Page 9)

WANT BRITISH TO TAKE OVER FRENCH GAINS

Call on Great Britain to Take Over More of Western Front and Relieve France

London, Nov. 13.—The Express features an article in to-day's issue by a French military writer, Captain Philippe Millet calling on Great Britain to take over more of the Western front and relieve the French. Captain Millet says it is necessary to speak plainly, that the alliance of Great Britain and France cannot be based on a mere exchange of compliments and that all French men are wondering whether the English fully realize what is happening in France. He says the French recognize gratefully what Great Britain has already done but feels that the time has come for the British army to relieve the French more efficiently.

The writer cites utterances of French deputies to support his claim and remarks that the British are holding only 150 kilometers of the front compared to the French 580 kilometers. He adds: "There is not one village in France where the people do not expect our friends to enable us, after 27 months' hard struggle, to have some rest during the third winter and prepare for the advance next year without having to exhaust ourselves. This is what our people feel. They have put their trust in Great Britain and they all expect the relief of a good bit of the French line to be made soon."

CHEAP FORGER ARRESTED

It was made payable to the Harrisburg Light and Power Co. for the amount of \$8.70. G. Franking Brothers was made the payee. Stakley has served a term in the Huntingdon Reformatory.

No clearance papers have been issued to Captain Koenig yet, it was stated this afternoon.

Weary Being "Merely Sons of Millionaires"

New York, Nov. 13.—Two Chicago millionaires believe their sons are in this city posing as young men without means and looking for jobs "to make their own way in the world." The Chicago millionaires, admiring the spirit of the boys, have decided that they need the youths in their own respective business enterprises. This was the substance of the explanation given by Herman E. Dick, a third prominent Chicago business man and uncle of one of the boys, when he inserted a personal advertisement in a New York newspaper to appear to-morrow. The advertisement follows: "Matthew's Uncle Herman in town at Waldorf—thoroughly approves of what you have done. Have two fine openings for you. Don't be afraid to see. Everything all right. If I am out, wait for me." On Saturday, November 4, Matthew Dick, 20 years old, son of Albert B. Dick, a millionaire manufacturer of Chicago, and Paul Martin, also 20 years old, and the son of William P. Martin, a retired Chicago financier, vanished from Yale University, where they were both freshmen.
