

GIRLS! LOTS OF BEAUTIFUL HAIR

25 cent bottle of "Danderine" makes hair thick, glossy and wavy.

Removes all dandruff, stops itching scalp and falling hair.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff, is merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25-cent bottle of Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and luster, and try as you will you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp and never fails to stop falling hair at once.

STOMACH MEDICINES ARE DANGEROUS

DOCTORS NOW ADVISE MAGNESIA Just how dangerous it is to indiscriminately dose the stomach with drugs and medicines is often not realized until too late. It seems so simple to swallow a dose of some special mixture or take tablets of soda, pepsin, bismuth, etc., after meals, and in just a few moments—a delightful surprise awaits everyone who tries this.

Are You Sure It's Only a Cold?

What to Do When a Cough Hangs On. Prevent Grippe, Pneumonia and Lung Trouble

People who take cold easily and whose colds seem to "hang on," settling in the throat, lungs or chest, are apt to neglect themselves as soon as they feel a little better. Such colds often leave the throat or lungs in a greatly weakened state and before he fully realizes the patient is down with grippe, pneumonia or other serious lung trouble. Such ailments are usually preventable where timely action is taken.

MUNICIPALITIES MAKING STRIDES

Expert Says Marked Progress Has Been Made in Economic Preparedness

Springfield, Mass., Nov. 23.—Recent years have shown marked progress in economic preparedness among American municipalities, says Clinton Rogers Woodruff, secretary of the National Municipal League, in his report to the annual meeting of the organization here to-day. He took for his subject "municipal preparedness."

"Greater New York, the premier city of the new world, and possibly, as a result of the great war, now of the whole world, has appropriately assumed a leadership which can be wisely followed by other cities," declared Mr. Woodruff. "In finance and economy, during the several years the fusion administration has been in office, there has been a gradual change from the previously extravagant method of financing, by the issuance of fifty-year bonds, known as corporate stock bonds, to defray the cost of improvements of a temporary character."

Portland Cement Engineer Studies City's Streets

H. M. Sticker, a member of the highway engineering staff of the Portland Cement Association, is in Harrisburg to-day for the purpose of making an examination of the city's streets. One of the most extensive and scientific studies ever made is being conducted by this association of all the concrete roads in the United States. The Portland Cement Association, with offices and engineers scattered throughout the country, will be in position to advise officials and communities building concrete roads as to those methods which have proved most successful.

The significance of this undertaking can be partially appreciated when it is realized that it includes a critical examination of upwards of seventy million square yards of concrete pavement, or nearly 7,000 miles of 18-foot road.

EXPLAINS RED CROSS

Field Headquarters in Mexico, Nov. 23 (Via Radio to Columbus, N. M.)—Before leaving for the border to-day Major General Arthur Murray, retired, in a brief address to officers at field headquarters described preparedness plans of the American Red Cross and what the organization is doing to bring about closer co-operation with the medical corps of the United States army. General Murray, after complimenting the expedition on the excellency in every detail, explained the organization of field columns and base hospitals which the Red Cross is preparing for use in case of war. General Murray is accompanied by General Roger Williams, of the Kentucky National Guard.

MINE WORKERS RESENTED

Philippi, W. Va., Nov. 23.—Four organizers of the United Mine Workers of America were yesterday sentenced by Judge A. G. Dayton in the United States District Court to serve six months in jail for violating an injunction granted during the strike of coal miners at Colliers, W. Va., in 1912. The defendants had already served about three months in jail, from their conviction of the Supreme Court of the United States which in a recent decision upheld Judge Dayton. The defendants are Miss Fannie Selling, Frank Leu-rinko, James Oates and Hiram Stevens.

POLES AGAINST GRANT

London, Nov. 23.—The Poles of Austrian Silesia have declared against a grant of autonomy which, according to a Vienna dispatch to Reuters by way of Amsterdam. The dispatch says the Silesian Poles have issued a declaration declaring that an autonomous Galicia would be a heavy blow to their own national development. They declare they will only agree to the reorganization if they also are guaranteed their political rights both nationally and economically.

PROTEST U. S. LOAN

Peking, Nov. 23.—The British, French, Russian and Japanese bankers of the quintuple group have sent a letter to the minister of finance saying that the loan arranged for with Chicago banks violates Article 17 of the reorganization loan agreement of April 26, 1913. The letter declares the loan is political and not industrial and asks for an explanation.

The Chinese Parliament recently unanimously approved a loan of \$5,000,000 gold made by the Chinese government with the continental and commercial banks of Chicago. The loan was said to be for immediate administrative needs.

TO OPEN GRAIN HEADQUARTERS

Pittsburgh, Pa., Nov. 23.—Preparations are being made to open the local grain standard headquarters to be established here by the United States Department of Agriculture. Laboratories necessary in connection with the work are under construction and will be finished by December 1. The Pittsburgh office will have supervision over more than one hundred agencies in Pennsylvania, Ohio, West Virginia and Maryland.

MISS RANKIN SPENT \$687.70

Helena, Mont., Nov. 23.—Miss Jeanette Rankin of Missouri, who was elected to Congress on the Republican ticket November 7, spent \$687.70 on her campaign according to her expense account on file to-day at the office of Secretary of State.

15 BLUE-EYED BABIES WANTED IN PITTSBURGH

Pittsburgh, Nov. 23.—A carload of blue-eyed babies is wanted by well-to-do and childless Pittsburgh families. But babies are scarce and the Allegheny county auxiliary of the Children's Aid Society of Western Pennsylvania cannot supply the demand. A statement issued contained the information that the society could easily place fifteen "blue-eyed girl babies" each week. It continued: "We are besieged with demands for babies and the applicants invariably

ESCAPES FROM U-BOAT Lisbon, Nov. 23.—The Portuguese steamer Machico, which arrived here to-day from Cape Town, reports that she was attacked by a German submarine during the voyage. Six shots were fired at the steamer, but none of them found their mark. The Machico put on full speed and the submarine abandoned the chase after two hours.

CABINET MEMBERS ON STUMP London, Nov. 23.—The morning papers attach the greatest importance to the program just announced of addresses in the various cities of Great Britain by leading members of the cabinet. It is stated that the addresses are intended to arouse more vigorous prosecution of the war and thus to combat the antiwar propaganda in industrial centers.
