

Hungry?

Try Sunshine Butter Thins spread with peanut butter and see how good the combination is. These crisp little wafers are made expressly to be eaten with jellies, jams, and other spreads. They're made with real butter and toasted a golden brown. Your dealer has Sunshine Butter Thins—and many other kinds of Sunshine Biscuits. A visit to the Sunshine Rack in his store will repay you.

In each package of Sunshine Tahoma Biscuit is a colored paper doll. Other Sunshine packages contain pretty costumes. See list in Tahoma package.

COUNCIL REDUCES STREET RENTAL

Mechanicsburg Body Cuts Price Fixed For Railway Company's Use of Highway

Mechanicsburg, Pa., Dec. 16.—After years of controversy and heated arguments both by members of the town council and interested taxpayers, the trolley ordinance reducing the annual rental from \$1200 to \$600 for the use of the main street, passed last evening at the regular meeting of council.

The trolley line used a street for a period of ten years at a very nominal rental.

The terms of rental expired about five years ago and the board of directors passed a new ordinance, increasing the annual rental of \$1,200. The trolley people resisted the payment of this amount and the matter went through the courts, the borough being sustained in every court. An effort has been made by the present council to reduce this amount and get a settlement of the matter. Many of the citizens favor the increased rental on the strength of the fact that the town has won every step in the fight.

The new ordinance passed last evening fixes the annual rental at \$600.

The members who voted for the ordinance were Arnold, Beck, Pink, Fish, Fisher, Matthew, Ritter and Karns. Those opposed were Kaley, Kleckner, Rich and Schaub. Three members of the council were absent.

Congressman A. R. Rupley of Carlisle addressed the council, giving a financial statement of the capitalization of the Valley Railway Company, for the purpose of showing that the rate of \$1200 should remain, and that council ought not reduce the rate to \$600.

COLD WAVE WILL FOLLOW SNOWSTORM

[Continued From First Page.]

made it necessary to call out shop employees to clear away the snow and look after the switches. Forces will be kept busy until the storm is over.

On the Reading and Cumberland Valley lines delays were not so numerous. At the Rutherford yards the snow retarded freight movement. Short trains were in order. Through trains to and from New York, Allentown and Reading were reported on time and close. It was said that heavy passenger traffic had more to do with the delays than the snow.

5 BELOW IN WEST
Chicago, Dec. 15.—The thermometer of the Weather Bureau here touched zero to-day for the first time this winter. The minimum of 5 degrees below was recorded at Danville, Ill.

4 INCHES IN PHILADELPHIA
Philadelphia, Dec. 15.—Snow, which began falling here early to-day, had reached a depth of about four inches at 1 p. m. with the prospect, according to the Weather Bureau, that it will continue to fall until tonight.

NEW YORK TRAFFIC CONGESTED
New York, Dec. 15.—This city had its first real task of winter to-day when the storm which started on the Texas coast reached here as snow and precipitated five inches before noon. The movement of shipping was seriously interfered with, a number of big steamships held up outside the Hook. Street traffic soon became congested.

BELOW ZERO IN INDIANA
Indianapolis, Ind., Dec. 15.—Below zero temperature was experienced in Central Indiana to-day, at six o'clock the official temperature being one and one-half degrees below zero. The temperature was rising slowly later.

FIRE THREATENS SLEEPERS
Philadelphia, Dec. 15.—The tower of the main building of the Holy Ghost Apostolic College at Cornwells, Pa., was badly damaged by fire early to-day. Smoke filled the dormitories, but an alarm was sounded before there was any damage to the twelve priests and professors, nine Christian Brothers and one hundred students who were asleep. They formed a fire brigade and aided in preventing the flames spreading to the main parts of the building.

EFFORT TO RELIEVE CAR SHORTAGE STARTS

[Continued From First Page.]

has been uniformly \$1 a day, and many consignees, notably automobile concerns and dealers, are declared to have been glad to permit shipments to stand for long periods because the penalty was so small that it compared favorably with warehouse charges.

Increase Daily Rental
Another order increases the daily rental paid by railroads to each other for cars from 45 to 75 cents per car, or about 70 per cent. Some Eastern roads are said to have from 5,000 to 10,000 foreign cars of a single type.

Foreign cars on congested roads are said to have come almost wholly from Southern and Western roads. Reports to the Interstate Commerce Commission show that they glut the railroad yards and sidings of most Eastern lines and many in the middle west. The trend of traffic, because

Florida School Teacher Anaemic, Run-down, Nervous—How She Recovered.

There are so many cases like this right here in Harrisburg that we are publishing this interesting letter with the hope that some of our customers will try Vinol and get the same happy result that Miss Baez did.

Key West, Fla.—"I am a teacher and became anaemic, nervous, run-down, no energy or desire to do anything. I could not sleep and had that languid, nervous feeling that made me a burden to myself. I had taken various tonics without benefit. I heard of Vinol and tried it. I had a good appetite, could sleep all night and it built me up so I have the ambition to do any kind of work." Mary L. Baez, Key West, Fla.

The reason Vinol was so successful in this case is because it is a constitutional remedy that goes to the seat of trouble. The cod liver and beef peptones contained in Vinol enrich and revitalize the blood while the strengthening, tissue-building properties of the iron and manganese peptones and glycerophosphates aid in building up the tired, overworked, run-down system.

The Receiver

Here a Bell receiver is taken apart. The ear-piece has been removed and the diaphragm slipped aside to show the little magnets. More than two hundred feet of copper wire, less than an hundredth of an inch in diameter and carefully wrapped with silk, are wound around these two magnets which cause the diaphragm to vibrate in front of them and so reproduce the distant speech.

When the receiver is crashed upon the hook with a bang, a connection may be jarred loose or the hard rubber itself may crack.

You can help to safeguard the high quality of your Bell Service by care in replacing the receiver.

of the European demand for American goods has been overwhelmingly toward Eastern seaports.

The rise in the price of coal is attributed almost wholly to the car shortage, aided by the alleged activities of speculators. While the East was paying panic prices for coal, the mines of the middle west and to less degree of the anthracite section, were working with reduced forces or no part time, in many instances, because there was not a supply of cars to handle the output. An order for the return of coal cars to their owners, loaded or empty, was issued several weeks ago by the car service commission to meet this condition.

Arguing Legality of Right to Peaceably Picket

Washington, Dec. 15.—Labor questions involving legality of union organizations, their right to peaceably "picket" and liberty of contract were argued to-day before the Supreme Court.

In two West Virginia cases, the court reviewed decrees of Federal Judge Dayton, finding the United Mine Workers Union and the American Flint Glass Workers Union illegal organizations and also combinations in restraint of trade under the Sherman law.

Judge Dayton's decrees and injunctions were annulled by the Fourth Circuit Court of Appeals and the corporations' injunction suits ordered dismissed. The companies then appealed to the Supreme Court.

Discusses Adamson Law From Trainmen's View

Evansville, Ind., Dec. 15.—The Adamson law was discussed from the standpoint of the Brotherhood of Railway Trainmen to-day by W. G. Lee, president of the brotherhood, in an address to the Central States Conference on Rail and Water Transportation.

"When the Adamson law was enacted," Mr. Lee said, "it was accepted

as a satisfactory adjustment by the four railroad organizations interested. The law which in its intent covered precisely the final demands of the men, is agreeable to a great majority of them.

"I do not agree that it is either necessary or just to hold an employee in any service against his will. We hold to the right to work, or to quit, as we decide will be for our best interests, believing that our welfare, decently expressed and fairly insisted upon, is our first concern, and while it may inconvenience the public if the men do quit in a body we maintain it should be purely within our right first to protect our own interests.

"Both sides are suspicious of the result of arbitration and are not in favor of continuing the present plan.

DIAMONDS
Mounted and Unmounted
Rings for Men and Women, Lavallieres, Brooches, Earrings, Scarf Pins and Unmounted Stones, any one of which will be mounted as desired **\$5 to \$500**

In buying Diamonds and Jewelry for Christmas it is well to bear in mind the reputation of the house behind the purchase. Back of the Rinkenbach Jewelry Store stands a sound reputation for square dealing and honest representation. In Jewels, Jewelry Silver and Fine Glassware, appearances are oftentimes deceptive so that the unbiased statement of quality by the Jeweler is the only true guarantee of value. In this Uptown Jewelry Store every statement is backed by our personal guarantee and every article is just as represented.

For the holiday season we are showing some really handsome articles of the Jeweler's art.
