

A FRIEND'S ADVICE

Woman Saved From a Serious Surgical Operation.

Louisville, Ky.—"For four years I suffered from female troubles, headaches, and nervousness. I could not sleep, had no appetite and it hurt me to walk. If I tried to do any work, I would have to lie down before it was finished. The doctors said I would have to be operated on and I simply broke down. A friend advised me to try Lydia E. Pinkham's Vegetable Compound, and the result is I feel like a new woman. I am well and strong, do all my own house work and have an eight pound baby girl. I know Lydia E. Pinkham's Vegetable Compound saved me from an operation which every woman dreads."—Mrs. NELLIE FISHBACK, 1521 Christy Ave., Louisville, Ky.

Everyone naturally dreads the surgeon's knife. Sometimes nothing else will do, but many times Lydia E. Pinkham's Vegetable Compound has saved the patient and made an operation unnecessary.

If you have any symptom about which you would like to know, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free.

GRAY HAIR RESTORED BY NATURAL MEANS

Sunshine and Air and Q-Ban—Not a Dye—Bring Forth the Original Color—"Back to Nature."

It is not necessary, not even wise, to have gray hair nowadays. But don't use dangerous dyes, sticky dyes. Turn "Back to Nature."

Restore the uniform color of your hair with the aid of Nature. Thousands have done so and are proud of the result. Science has made a great discovery, of which you can now take advantage. Years of laboratory work by expert chemists have resulted in Q-Ban Hair Color Restorer, the one preparation that actually works hand in hand with Nature in banishing gray and restoring the natural color. Not a patent medicine.

You simply apply Q-Ban and then expose your hair to the fresh air and pure sunshine. Repeat this daily for a short time and your hair will resume a natural color, gradually, safely and surely. This is the way that the scientists have summoned Nature and her own best medicine to the aid of your hair. But beware of imitations as you would of dyes. There is nothing like Q-Ban.

Q-Ban is all ready to use—is guaranteed to be harmless and is sold under makers' money-back guarantee if not satisfied. It is the only preparation for the purpose so guaranteed. A large bottle for sale at the following places: Gorgas and all other good druggists, or write, Hessig-Ellis Drug Co., Memphis, Tenn., mentioning the name of your "Hair Culture," an illustrated, interesting book of lectures, sent free.

Try Q-Ban Sunshine Hair Tonic, Q-Ban Liquid Shampoo, Q-Ban Toilet Soap, also Q-Ban Depilatory for removing superfluous hair.—Advertisement.

Bathe Internally

OVER 500,000 PEOPLE ARE NOW DOING SO

For many years physicians have agreed that the vast majority of human ills were caused by accumulated waste in the Lower Intestine; that in our present way of living Nature could not remove all this waste without assistance, no matter how regular we might be; and that the poison from this waste circulated through the blood pulled us away down below par and was responsible for many diseases of a serious nature.

During this time the "J. B. L. Cascade" for Internal Bathing has, because of their recommendation and those of its users, been steadily growing in favor.

Recently, however, the startling news which has been covering this country that great surgeons and specialists have been operating on the Lower Intestine for the most chronic and serious diseases has caused Americans to become thoroughly awake to the importance of keeping this Lower Intestine free from all poisonous waste matter, and over 500,000 are now using Internal Baths.

If you try the "J. B. L. Cascade" you will find yourself always bright, confident and capable—the poisonous waste makes you dull, nervous and nervous. Internal Baths are Nature's own cure for Constipation—just warm water properly applied. Drugs force Nature—the "J. B. L. Cascade" gently assists her.

Call and see it at Croll Keller, 405 Market Street, and Geo. C. Potts Drug Store, in Harrisburg, or ask them for "Why Man of the World is Only 50 Per Cent. Efficient," a booklet of great interest, which is given free on request.—Advertisement.

HOT TIME IN TEXAS, TOO

Governor Comes Back at Legislators Who Want to Probe Mansion Expenses

Austin, Texas, Feb. 5.—Governor James F. Ferguson wants to know:

"Is it any more unlawful for me to buy and charge to the State for cream for some members of the Legislature to 'lick up' than it is for the State to pay for the stamps they 'lick up'?"

The Governor is very much aroused over the action of the Legislature in instituting an investigation into the expenditures that he made for the maintenance of the Governor's mansion during his first two years' administration. He exceeded the appropriation for that purpose by \$2,650, and the Legislature is being called upon to meet this deficiency.

In discussing the matter, Governor Ferguson made it plain that he did not care to entertain members of the Legislature, although he was forced to do so by established custom. Part of the deficiency was spent for punch and salad for a reception that was given to the legislators and their wives.

The Governor, after asking the opening question, continued: "I wonder if the people of Texas or those opposed to these expenditures think it is a pleasure alone to me or any other Governor to give a reception that lasts for hours, entertaining the representatives of the State in Austin, the majority of whom are unknown to me or my family. These receptions are given because it is a custom, not a pleasure or desire alone. The people have come to demand and expect such a thing of every Governor, and they do it. Yet they expect the Governor to pay out of his own pocket the expenses of these entertainments. I just want to know if that is reasonable. Is it any more than right that groceries and other necessities be furnished for the Governor's mansion if they are allowed other institutions of the State?" he asked, then citing example after example where money is appropriated for groceries for the heads of various institutions.

"It is going to be quite amusing to me," said the Governor, "to hear some of the members of the Legislature kicking the loudest who did not fail to eat their share of the salad and drink their share of the punch. If it is wrong for the State to buy groceries for the Governor's mansion how much nearer right is it for the Legislature to furnish themselves with lady stenographers and appropriations for stamps and telephone and telegraph messages and daily papers?"

"WHILE THE LAMP HOLDS OUT TO BURN"

On March 19, 1898, Herman Keyes, of Pittsford, N. Y., who then was 42 years old had never before made confession of faith in Christ, was baptized and became a member of the Baptist Church. He was a faithful attendant until he died at the age of 98.—The Christian Herald.

For Thin, Nervous MEN AND WOMEN

nothing equals or compares with the rich food properties in

SCOTT'S EMULSION

It makes other foods do good. It sharpens the appetite; stimulates the circulation and helps overcome catarrhal troubles. If you are rundown, anaemic or nervous, the benefits you will receive from Scott's Emulsion will surprise you.

Ab-h-ah-tiss-hoo!! Catching Cold? Get a Bottle of Mentho-Laxene Take as directed—right away. Checks and aborts colds and coughs in 24 hours. Guaranteed. Nothing so good. Proven. Makes a pint of Cough Syrup. All druggists.

STATE HELPING MISHAP VICTIMS

Extent of Compensation System Is Outlined by Commissioner Jackson

Industrial accidents reported during January to the Bureau of Statistics and Information of the Department of Labor and Industry resulted in the injury of 21,839 employees in Pennsylvania. Of that number 232 died from their injuries. The number of fatalities in January is 48 less than the monthly average of fatalities during the last three months of 1916, but the total number of accident reports received in January is 769 greater than the average for the preceding three months.

Commissioner John Price Jackson announced to-day that during the month of January \$259,379.49 was paid in workmen's compensation to injured workers and widows and children of workers killed. The total amount includes claims arising during January and claims being carried to maturity arising since the workmen's compensation act became effective. Of the total amount \$41,867.89 was paid to dependents of workers killed and \$217,511.60 was paid to workmen disabled for periods exceeding fourteen days.

During the month of January there were 6,890 agreements between employers and injured workers or dependents for the payment of the compensation approved in the Bureau of Workmen's Compensation. Of that number 136 were for fatal cases. The total number of agreements approved in the bureau from January 1, 1916, to February 1, 1917, was 61,356.

Red, White and Blue Moon Is Good Omen Think Many

Colored rings around the moon on Saturday night from 7 to 7:20 o'clock brought forth announcements from astronomers that it was a lunar halo or a lunar corona, and claims from the superstitious that was a good omen for the United States in the present crisis.

The moon, rising in the eastern sky was the center of a great silver circle with outer edges of the colors of the rainbow, with blue and red predominating. Local sky experts differed in explaining the phenomena.

It was agreed, however, that the rings were due to the presence of ice particles in the upper atmosphere, the colors resulting from the refraction of light rays.

Weather forecaster E. R. Demain said that according to records the phenomena was the most brilliant seen here in years and was altogether local.

Despite the explanation scientists gave, many superstitious people persisted in their claims that it was a good omen for the American government. Bible students quoted Scriptures, encyclopedias and dictionaries were referred to, as residents in various parts of the city sought explanations for the unusual sight.

Married Seventy Years and Never Had a Quarrel

Glasgow, Mo., Feb. 5.—J. P. Bentley, 90 years old, and his wife, Mrs. Susan Fristoe Bentley, 87 years of age, were married seventy years ago and never had a fuss. They recently celebrated their anniversary. They live near Forest Green.

Bentley and his wife were born on adjoining farms. When they were wed, they agreed that if either became angry the other should take cognizance of it and preserve an unruffled demeanor. This, they say, is the secret of their smooth relations.

THREE SMALL FIRES

Quick Work Prevents Any Serious Damage

Quick work on the part of the fire department over the week-end stopped three minor fires before they had assumed dangerous proportions.

The office in the garage of Joseph D. Ferry, 125 South Cameron street, was destroyed by fire of mysterious origin early yesterday morning. The damage is estimated at \$250. Fire department officials say the blaze looks rather suspicious.

An overheated chimney set fire to the plaster at the home of E. F. Burns, 213 State street, about 9 o'clock yesterday morning. The Hope Fire company extinguished the flames. The damage is estimated at \$50.

Italian's Royal Blood Revealed at Death

Pittsburgh, Feb. 5.—Antonio Tigan, aged 34 years, brakeman on one of the dinky trains in the yards of the Edgar Thompson Steel works, Braddock, was buried in a bronze casket costing \$150. His funeral cortege was led by the Royal Italian band of Wilmerding, while pallbearers carried the heavy metal casket four miles on their shoulders to the grave. Tigan was killed while at work.

Despite his mental position, Tigan has since his arrival in this country been highly honored by his countrymen. The reason for this did not come to light until following his death it was announced by several of the most influential Italians in the Braddock district that Tigan was connected with the Royal House of Savoy in Italy, and that he had assumed the name of Tigan after arriving in this country.

According to Tigan's friends here, he was banished from Italy for some escapade which displeased the members of the Royal family. While here he kept much to himself, having but few confidants.

Woman Farmer Makes Lace While She Plows

Columbia, Feb. 5.—Instead of idly folding her hands to rest, Mrs. Walter Klench, the best-known woman farmer of Iowa and, in the opinion of some, the most efficient woman in America, spends her spare time with lace-making, basket-weaving, amateur pottery and lectures.

"I do my own plowing," she said, "and when the mules come to the end of a row they rest for a little, and I take out my lace and work on it—or, if I am looking after the turkeys, I can sit on a stone watching them and sew."

Disrobing Act Is Halted by His Honor

Chicago, Feb. 5.—"She had fifteen pictures taken in two weeks. She wears silk lingerie. She loves no one but herself. She doesn't love me any more."

This was the plea in Judge Stelk's Court of Domestic Relations of Joseph Carso, charged with non-support. He presented fifteen pictures of all sizes and showing all poses as evidence.

Amusement For Chickens Helpful, Says Fancier

Dallas, Texas, Feb. 5.—Chickens should be amused. The feathered kind, that is. Authority for the above statement is Mrs. T. P. Marshall, field worker for the extension service of the Texas Agricultural and Mechanical College. Chickens hatched in an incubator find life dull and uninteresting because of the mechanical way in which they are ushered into the world according to Mrs. Marshall.

"One way of amusing them," she says, "is to pile fine straw on the floor of the brooder and let them tear it down. They seem to enjoy it and it teaches them to scratch."

Wife to Blame if Husband Drinks, Says Druggist Brown of Cleveland, Who Tells Wife What To Do

Cleveland, O.—No wife has a right to blame her husband because he drinks, says Druggist Brown of Cleveland. It is her fault if she lets him drink and bring unhappiness and poverty to her home and she has no right to complain. A woman can stop a drinking husband in a few weeks for half what he would spend on liquor, so why waste sympathy on a wife who refuses to do it?

Druggist Brown also says the right time to stop the drink habit is at its beginning unless you want drink to deaden the fine sensibilities of the husband you love. Begin with the first whiff of liquor on his breath but do not despair if he has gone from bad to worse until he is ram-soaked through and through. Druggist Brown knows the curse of strong drink because he himself has been a victim. He was rescued from the brink of a drunkard's grave by a loving sister who after ten years' time, revealed the secret to him. She saved him from drink—rescued him from his own depraved self, by giving him a secret remedy, the formula of an old German chemist. Any druggist can put it in the hands of any suffering wife, mother, sister or daughter. Just ask the druggist for prepared Teacum powders and drop a powder twice a day in tea, coffee, milk or any other drink. Soon liquor does not taste the same, the craving for it disappears and, one more drinker is saved and knows not when or why he lost the taste for drink.

Note—Teacum, referred to above, should be used only when it is desirable to destroy all taste for alcoholic drinks of every kind. The wife who approves of drinking in moderation and believes her husband safe should give it only when she sees, as most do in time, that the danger line is near. Since this formula has been made public, J. Nelson Clark, and other druggists have allied it repeatedly.

A New Treatment Given Without the Consent or Knowledge of the Drinker

Columbus, Ohio, Feb. 5.—Earl Murdock, chief of the Windsor Cafe, 20 North High street, might have been at least \$2,000 richer if he "had only known" that there was a genuine pearl as big as an averaged sized marble in clams which he cooked into chowder.

Murdock recovered the big pearl after it had been cooked and ruined. Friends who professed to know the value of pearls told him he could easily have got from \$2,000 to \$3,000

Amusement For Chickens Helpful, Says Fancier

The taints sometimes noted in market butter may often be prevented if care is taken to see that all the churn-in apparatus is clean and free from undesirable odors and taints. Cleanliness, temperature and care are the three factors in good butter-making, states Bulletin No. 135, of the Pennsylvania State College school of agriculture and experiment station.

After the butter is taken from the churn, the latter should be rinsed out with warm water, and the rinsing followed by a thorough washing with very hot water. The rinsing with warm water will remove any butter-milk which may remain in the pores of the wood. The hot water will re-

CHALMERS SIX-30

The Highest-Grade Low-Priced Six-Cylinder Car

Built for those who want a thoroughly reliable, powerful, six-cylinder car at a reasonable price.

Wanted in every county—in every township—in America. No other car so perfectly fits the needs of many thousands of buyers. It has size, beauty, power. It is economical and dependable. It can be bought at a moderate price.

Chalmers Style
Chalmers design, finish and accessories always have been under criticism. The name of Chalmers stands always for a car of beauty. There is grace and harmony in every line and curve. Chalmers upholstery, tops and trimmings are goodness clear through. No car at a less price approaches its charm. Few, even at much higher prices equal it. Every Chalmers owner is proud of his car.

Chalmers Performance
Scores of gold, silver and bronze trophies adorn the reception room at the Chalmers factory. They were won for speed, for hill-climbing, for endurance and economy. In 1916 Chalmers cars won in recent events—Pike's Peak hill climb—record run from Chicago to New York—famous Giant's Despair climbing classic—and other convincing road performances. To drive a Chalmers is a constant pleasure. The motor is a giant in velvet clothing—its smoothness and power delight all users. In city-traffic slowness or at arrow-speed along the open road the Chalmers is supreme.

Chalmers Economy and Dependability
Economy begins with the price of the car. It is needless to pay more than the Chalmers price. Upkeep is satisfyingly low. The car is economical of fuel and easy on tires. A Chalmers always can be depended upon to meet any conditions of roads or weather.
