### The Coal Consumer

judges a coal by the size of the ash pile and the height of his house thermometer.

### Sun-Glo Coal

comes from Pennsylvania's best Anthracite mines and is low in ash and high in heat units. A comparison of the neighborhood ash piles with ash piles where Sun-Glo Coal is used would prove that the buyers of Sun-Glo Coal get the most coal for each dollar spent.

A similar comparison of thermometers in different houses will further prove that Sun-Glo Coal gives lots of heat per pound of coal.

Sun-Glo Coal is our trade name for the coal we sell. Under the trade name Sun-Glo Coal we sell the product of the best mines in the following regions: Wilkes-Barre, Lehigh, Nanticoke, Shamokin, Mahanoy, Lykens Valley, Lincoln, Brookside, etc.
