

SEE THEM SOAR!

Eggs, potatoes, onions, peas, beans—everything in the food lines soaring beyond the family purse, except Shredded Wheat Biscuit, the standard whole wheat cereal food, which sells at the same old price. The New York World urges people to boycott the egg and other expensive foods and eat cereals which have a higher nutritive value at a lower cost. Two Shredded Wheat Biscuits with milk will make a complete meal at a total cost of four or five cents, furnishing all the nutriment one needs. For breakfast with milk; for supper with sliced bananas or stewed prunes.

GRANGERS SEEK CHARTER

State Grangers appeared at the Insurance Department today to secure a charter for their casualty insurance company, a project to be organized on mutual lines.

END INDIGESTION OR STOMACH PAIN IN FIVE MINUTES

"Pape's Diapepsin" makes sick, sour, gassy stomachs feel fine.

Time it! In five minutes your sour, acid stomach feels fine. No indigestion, heartburn, or belching of gas, or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in sweetening upset stomachs. It is the surest and most certain stomach antacid in the whole world and besides, it is harmless. Millions of men and women now eat their favorite foods without fear—they know Pape's Diapepsin will save them from such misery.

Please, for your sake, get a large five-cent case of Pape's Diapepsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and enjoy it, without dread of acid fermentation in the stomach.

Pape's Diapepsin belongs in your home anyway. Should one of the family eat something which don't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement due to fermentation and acidity, at daytime or during the night, it is handy to give the quickest, surest relief known.

POST OFFICE BUNCH HAS REAL TIME

Eat Roast Pig, Listen to Speeches, Then Try to Sing

When the post office "bunch" get together they always do have a regular time, but last night they out-did themselves. Their annual banquet or, as Toastmaster Charles H. Hoffman put it, the "pigroast" held in the Chestnut street auditorium, was the liveliest and biggest jollification ever staged by the Post Office Athletic Association.

Over a hundred employes and friends enjoyed the pig, speeches, songs and story telling. Four post office employes who are members of the National Guard were guests of honor and told of their experiences on the Border. Pictures of the soldier's life, taken by Second Lieutenant J. T. Long, Jr. of Company D, were passed around the tables.

Postmaster Sites Speaks Frank C. Sites, postmaster, made the address of welcome. Charles H. Hoffman, superintendent of mails, was toastmaster. H. B. Newcomer, of the Maylay station, and a veteran of the Spanish-American war; W. C. McFarland, for 47 years a post office employe and a Civil War veteran; E. H. Anderson, post office foreman and a member of the Governor's Troop, and several others swung into the speaking-making and story-telling.

The post office quartet, composed of Messrs. Ebersole, Reen, Jordan and Blacksmith, sang a number of popular songs during the evening, and George H. Martin contributed two solos. Once someone started "Down on the Swannee River," it was taken up with a whoop, and the hall rang with the familiar strains of the old Southern song.

The officers of the P. O. A. A. are: President, John E. Long; vice-president, George R. Pritchard; recording secretary, Edward R. Gault; financial secretary, W. S. Hackman; treasurer, J. G. Laverty.

SCOLD QUEEN FOR SKATING

Amsterdam, March 2. — Should a Queen go skating when her country is in so serious a position as Holland? The question has been raised in Parliament by a motion to censure Queen Wilhelmina for going to skate at Leeuwarden two days after Germany's declaration of war was announced. While there is no chance of the motion coming to a vote, it has been the subject of much discussion in the lobbies and the newspapers.

CHRISTIAN LIFE THEME OF SERMON

Evangelist Bodell Preaches Before Large Audience at Covenant Presbyterian

Thursday was a busy day for Bodell and Maxwell, evangelists holding meetings in Covenant Presbyterian Church. In the early morning, Maxwell, who is a vocalist of wide reputation, conducted the singing in connection with the chapel exercises in the Steele building, afterward singing several selections for them.

Among the numbers were, "There, Little Girl, Don't Cry," "Mother Marched," and "The Old Flag Never Touched the Ground." This last he taught the children, and their singing of it was a splendid demonstration of their hearty patriotism at the present time.

At 2:30 Evangelist Bodell preached upon "Growth in Grace," and in this address the evangelist dealt with the things necessary to maintain and develop the Christian life. He said that too many Christians were made, and that too few were grown; that the only real Christian is the Christian who grows because of the principle of life in the heart. He found that there was a real analogy between the natural life and the spiritual life; that the natural life consisted of breathing, eating and exercising; that prayer was the vital exercise of the Christian; that the breath of the Christian was the Holy Spirit; that the Christian's daily bread; that work for Christ was the exercise that kept the Christian healthy and happy in his living before God.

At 4:00 p. m. Maxwell met the Sunbeam chorus for rehearsal and at 7:30 was the large evening meeting, at which Evangelist Bodell preached upon "No Man Cared for My Soul." To-night there will be the big meeting at 7:30, and to-morrow afternoon no meeting, but Saturday evening a concert by the Sunbeam Chorus.

State Beekeepers Begin Convention

State Zoologist J. G. Sanders and ex-State Zoologist H. A. Surface are the rival attractions at the thirteenth annual convention of the State Beekeepers' Association, which began at the Capitol to-day. The convention is attended by almost 100 beekeepers, all keenly interested in having the State increase its output of honey and in getting adequate inspection. The opening session this afternoon was taken up with organization and an address by Dr. Surface, who discussed the honey bee which the State output of almost a million dollars a year can be increased and the heavy loss due to bee diseases be overcome. The sessions will close to-morrow.

Governor's Troop Inspected By Regular Army Officers

The Governor's Troop, of which George C. Jack is captain, was inspected to-day. The inspection of the troop was held at the State Arsenal this morning and continued until late this afternoon. To-night the dress inspection will be held in the Troop armory. The inspection officers were Captains T. A. Roberts, Providence, R. I., and C. F. Cox, Atlanta, Ga. Both are commissioned cavalry officers of the United States Army. The inspection was the first since the Troop has returned from the Mexican Border.

Rev. Bouck White on Trial For Desecrating Flag

New York, March 2. — Charged with desecrating the American flag by burning it, together with flags of other nations, in the backyard of the church of the Social Revolution in this city on July 9 last, the Rev. Mr. Bouck White and ten of his followers including two women, were placed on trial here to-day. Members of White's church crowded the court. The alleged offense is a misdemeanor. The penalty is one year in prison.

White claims he burned the flags in a "melting pot" to signify the importance of "international industrialism."

Auto Speeds Away After Hitting Steulton Man

Rice Frank, 233 Christian street, Steulton, was struck by an automobile in Cameron street this afternoon. He was hurled 15 feet and was unable to ascertain the number of the auto which continued up Cameron street with undiminished speed.

Frank's head is badly cut, one finger is almost amputated, and his face and body are covered with cuts and bruises. Several pedestrians who witnessed the accident have been unable to agree concerning the number. The police are locating the owner of every car having a number similar to those reported.

Few People Know This

Large doses of pills for the liver are not as efficient as small doses. The big dose purges its way through the system fast, but does not cleanse thoroughly.

The small dose (if right) acts gently on the liver, and gives it just the slight help it needs to do its own work, and do it well.

Take one pill regularly, until you know you are all right.

Author of Note to Mexico Again Professes "Friendship" For America

Berlin, Wednesday, Feb. 28, by Wireless to Sayville, March 2. — In his address in the Reichstag to-day in regard to relations between the United States and Germany (a portion of which was received by cable yesterday) Foreign Secretary Zimmermann related the circumstances of the attempt at continuing negotiations between the two countries through the Swiss legation at Washington, and after saying it was easy to understand that the government endeavored to avoid everything which might cause war with America, continued:

"We examined the suggestion from the Swiss minister from the standpoint of these considerations. From the very outset we were absolutely certain that submarine warfare ought to be limited in no case and in no manner by concession on our part. Obviously our wish to come to an understanding with America could be accomplished only in the event that it is possible without conflict with our declaration of barred zones, which we are firmly decided to maintain against our enemies under all circumstances.

Forced to U-Boats "It was only after long consideration that we decided to use our sharp-tongued weapons, of course, of our negotiations with America, and of our honest and sincere peace offer and the rebuke by our enemies. To our attempt at reconciliation our adversaries opposed their will to annihilate us and thus nothing was left us but to take up the last and best weapon.

From the standpoint of these considerations I said in my answer to America merely that Germany now as before was ready to negotiate on condition that establishment of the barred zones against their will be not impaired. We only hinted at our readiness to enter into more detailed negotiations with America in regard to the admission of passenger ships."

"The Swiss minister at Washington transmitted our communication," Secretary Zimmermann continued, "and the legation at Washington, in answering a note in very polite terms. Mr. Lansing said he was authorized by President Wilson to say that the government of the United States would very gladly and willingly negotiate with Germany if Germany cancelled her decision of January 31. This being absolutely impossible the negotiations had to be considered as a failure before they really had begun."

German and Japanese Ministers in Mexico Know Nothing About Plot

Mexico City, March 2. — H. von Eckhardt, German minister to Mexico, declared that he knew nothing about the instructions alleged to have been sent to him by Foreign Secretary Zimmermann regarding a German-Mexican alliance in the event of war between Germany and the United States. Von Eckhardt made this statement in reply to the question whether he had followed the instructions alleged to have been sent to him by Dr. Zimmermann.

"You must go to Washington for your information," the Minister said. "If you must say something, you may say the German Minister knows nothing about all this."

Tanekichi Ota, charge d'affaires for Japan, declared he had not been approached in any way with a proposal for an alliance with Mexico or Germany against the United States. Garza Perez, Sub-Secretary of Foreign Affairs now in charge of the Mexican Foreign Office, declared he knew nothing of the proposals mentioned. If the proposal had been presented by Minister von Eckhardt, which he personally doubted, he said, it was presented direct to Minister of Foreign Affairs Aguilar or General Carranza.

Henry P. Fletcher, the American Ambassador, left yesterday with Foreign Secretary Aguilar for Guadalajara, where General Carranza now is. The trip was hurriedly arranged and kept secret until the party was well on the way.

It seems to be the general opinion among well-informed public men here that the proposal outlined in the Zimmermann note probably has not been definitely presented to General Carranza by Minister von Eckhardt, although this is only a surmise on their part.

Chops off Child's Hands For Burning Pay; Mother Dies

Allentown, Pa., March 2. — Local Delaware, Lackawanna and Western railroad report that a foreman at Port Morris named Worloveskoski became so enraged at his little daughter that he cut off both of her hands because she threw his pay check into the fire. The child died to death as her mother dropped dead when she found her.

The father is a section hand and had just received his pay from the railroad company. He brought it home and placed it upon the table. While he was upstairs the child, not knowing where the check was, put it into the stove.

When Worloveskoski returned he missed the check and the little tot pointed toward the fire. The father seized the child and carried her to a block and with an ax chopped off both her hands a little above the wrists. The foreigner was taken into custody.

Airplane Inventor Predicts Passenger Lines Through the Air

Vienna, By Associated Press London, March 2. — Herr Fokker, the Dutch builder of one of the most successful flying machines used in the German and Austrian armies, predicts an era of aerial passenger traffic after the war. "Speed," he says, "is bound to make aircraft a popular vehicle of travel, but only for great distances for which reason the inventor predicts the successful operation of aircraft between Europe and the United States which will compete with trans-Atlantic liners. Herr Fokker believes the first attempt to fly from Europe to New York will be made immediately after the war and asserts the route can be traveled in two days.

Bone Dry Bill Goes Through House Again

Washington, D. C., March 2. — The conference report on the Post Office appropriation bill, including the Reed "bone dry" prohibition amendment and providing for continuance of the present pneumatic tube service in a number of cities, was adopted last night by the House. The Senate is expected to take similar action not later than Saturday, and then the measure will go to the President for his signature.

The bill had hung fire in conference because the House conferees refused to accept the pneumatic tube provision, and once all hope of an agreement had been abandoned. Under this provision pneumatic tube contracts in New York, Chicago, Philadelphia and St. Louis are to be continued for another year.

Under the Reed amendment, which prohibits importation of liquor into any prohibition State, about one-third of the United States will be added to the "bone dry" area.

All Gasoline Measuring Pumps to Be Inspected

Harry D. Reel, city inspector of weights and measures, is arranging to start next week on a thorough inspection trip of all gasoline measuring pumps used at many of the garages in the city.

Instructions have been received by Inspector Reel from State authorities to make special investigations and inspections of all pumps; confiscate any that are defective, and to prosecute the dealer using them; reporting results to the State.

While City Inspector Reel may prosecute any violations of weight and measure laws, he announced to-day that he will probably condemn defective pumps instead of confiscating them. Numerous complaints have been received both by Inspector Reel and city health officials, consumers reporting they have bought oranges and

LITTLE LILLIAN ROMAINE FISHER CAN TALK AGAIN

This attractive little lady is the two year old daughter of Mr. and Mrs. O. M. Fisher, 238 North St., Harrisburg, Pa. Last winter she had an attack of measles, together with a very severe cold. Just at that time Druggist S. J. Wilhelm presented Mr. Fisher with a jar of the Southern "outside" treatment—Vick's VapoRub Salve, which was just then being introduced in Harrisburg, and requested that he give this preparation a thorough trial. Mr. Fisher writes—

"I must say that our baby had such a cold on her chest and in her throat that she could hardly talk, and we could not get her to take anything internally. After we used Vick's VapoRub Salve on her breast and throat at night before going to bed she was entirely relieved. No family should be without this preparation. It is externally applied, and so can be used freely—it is absorbed through and penetrates the skin, and, in addition, is inhaled as a vapor. It has a hundred uses for the many minor ailments for which every mother is the doctor. Three sizes, 25c, 50c or \$1.00.
