

SUDDEN PLUNGE INTO WAR NOT WILSON'S PLAN

President Will Take No Step That Might Bring War With Germany While Congress Is Not in Session He Informs Legislative Leaders.

FAILURE TO PASS APPROPRIATION BILLS MEANS EXTRA SUMMER SESSION

Fairly Long Recess Believed Possible if Needed Bills Are Gotten Through Before To-morrow Noon; Wilson Seeks Republican Support For His Measures.

Washington, March 3. — President Wilson has no intention of taking action that would bring war with Germany unless Congress is summoned in extra session. This was communicated to Senate leaders to-day by representatives of the President, who takes the position that if no extraordinary crisis arises it will not be necessary to call an extra session before late in the spring and then only to pass any appropriation bills which may fail at the present session.

The President to-day continued efforts to persuade Republican Senators to assist in the passage of needed appropriation bills during the present session. These Senators were told by representatives of the President that their argument that Congress should remain in session because of the German situation was not logical because he naturally would take no action leading to a declaration of war without the co-operation of Congress.

GERMAN INTRIGUE IS PLAYED IN SENATE

Washington, March 3. — Congress expected to-day to take final steps toward giving President Wilson authority to arm American merchant ships for defense against submarines, and the Navy Department was ready with guns and gunners to carry out the President's orders.

The bill conveying the authority was before the Senate when it convened this morning after a session which continued long past midnight occupied by eight hours of debate on international relations. Despite the extended discussion little real opposition to the measure was expected.

CONGRESS SETTLES DOWN TO PASS AGREED BILLS

Washington, March 2. — The legislative situation in Congress to-day according to the most optimistic estimates, indicated that Senate Republicans had determined to limit activities for the remainder of the session to the following:

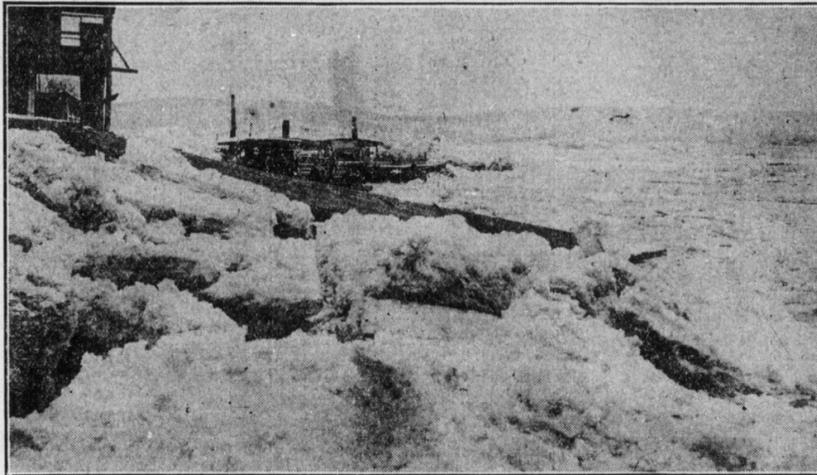

THE WEATHER

For Harrisburg and vicinity: Unsettled, with rain or snow this afternoon, to-night and probably Sunday; not much change in temperature, lowest to-night about freezing.

River The Susquehanna river and all its tributaries will probably continue to fall slowly or remain nearly stationary above Harrisburg. Places on the main river below Middletown are likely to have flood stages, due to the choking of the channel by ice, which is reported still gorged near Baltimore and probably at other places in the lower river. The river at Harrisburg will probably remain nearly stationary or rise somewhat until the channel opens below.

DEMOCRATIC CLUB OFF More than 100 members of the Central Democratic Club, headed by the Commonwealth Band of 40 pieces, boarded a train at 2 o'clock this afternoon for Washington. The club, with the band, will march in the inaugural parade on Monday. The local club will head the First brigade, which Governor Manning, of South Carolina, will command.

Conditions More Fraught With Danger Than Preceding Destructive Break-up in 1904; Susquehanna South of Harrisburg Jammed Nearly Solid With Monstrous Ice Cakes; Heavy Rain That Would Sweep It Away at a Stroke Only Hope State Water Supply Commission Has That Trouble Will Be Averted

River conditions fraught with danger for towns and hamlets from Harrisburg to the Chesapeake Bay are keeping the experts of the State Water Supply Commission on the alert day and night.

River Jammed Solid In fact, say the experts of the State Water Supply Commission, the present status of the lower Susquehanna

is even more dangerous than in 1904. In that year the lower stream was open to the bay from York Haven. The river was running with solid cakes of ice which, in gorging, leave open spaces for the passage of flood waters. And as a result much of the ice from the upper stream passed on without creating havoc.

BERLIN DEFENDS PLOT TO INVOLVE AMERICA IN WAR

Treachery on German Soil Said to Have Given U. S. Notice of Intrigue

London, March 3. — Foreign Secretary Zimmermann's instructions to the German minister to Mexico, as published in the United States, are admitted in Berlin to have been correctly quoted, according to a dispatch to Reuter's from the German capital by way of Amsterdam.

Zimmermann Virtually Admits He Plotted to Have U. S. Invaded

Berlin, March 3. — By wireless to Sayville. — The following was given out to-day by the Overseas News Agency:

Foreign Sec'y, Zimmermann was asked by a staff member of the Overseas News Agency about the English report that "German plot had been revealed to get Mexico to declare war against the United States and to secure Japan's aid against the United States." Secretary Zimmermann answered: "You understand that it is impossible for me to discuss the facts of this 'revealed' plot. Just at this moment, and under these circumstances, I therefore may be allowed to limit my answer to what is said in the English reports, which certainly are not inspired by sympathy with Germany. The English report expressly states that Germany expected and wished to remain on terms of friendship with the United States but that we had prepared measures of defense in case the United States declared war against Germany. I fall to see how such a 'plot' is inspired by unfitness on our part. It would mean nothing but that we would mean universally admitted in war, in case the United States declares war. "The most important part of the alleged plot is its conditions and form. The whole 'plot' falls flat to the ground in case the United States does not declare war against us. And if we really, as the report alleges, considered the possibility of hostile action of the United States against us, then we really had reasons to do so."

DEFINITE STEPS TAKEN TO FOUND CHURCH ON HILL

Methodists Hold Meeting and Name Committees to Select Site For New Structure

Backers Feel Need of Conveniently Located Structure in Northern Section

Plans for organizing a new Methodist Episcopal Church, to be located in the section north of Walnut street and east of the railroad, were discussed last night at a meeting held at the home of Warren K. Van Dyke, 820 North Sixteenth street.

Say Need Is Long Felt In discussing the matter this morning, Mr. Van Dyke said: "There is no doubt in the minds of Methodists residing in that section of the city as to the need of a new church. There are over 250 adult church members in the northern section of the Hill and the need of a conveniently located church has been felt for a long time."

The B. F. Stevens Memorial Methodist Episcopal Church, Thirteenth and Vernon streets, of which the Rev. Dr. Clayton A. Smucker is pastor, is the only Methodist church on the Hill, and it is practically as inconvenient of access and as far from the section in which the proposed new church is to be established as the downtown churches. In the opinion of many Methodists living in the northern part of the Hill,

C. I. & S. Representative Dies In Philadelphia

Philadelphia, March 3. — Charles K. Barnes, widely known in the steel industry, died of a fractured skull in a hospital here to-day. He was injured in a fall down a flight of stairs at his residence. Mr. Barnes was president of Charles K. Barnes & Co. Company, formerly representative here of the Central Iron and Steel Company of Harrisburg. He was 64 years old.

Charles K. Barnes, for years the Philadelphia representative of the Central Iron and Steel Company, was well known in Harrisburg as he visited here frequently. Among his many business associates and friends is William H. Yeager and Mark T. Milnor; the judges on delivery being L. E. McGinnis, Dr. Clayton A. Smucker and E. E. Beidleman.

RUTHLESS SEA WARFARE FAILS TEUTON PURPOSE

U-Boats Sink Less Than Half of Tonnage Berlin Believed Possible at Start

LITTLE FIGHTING DONE

Military Operations of Minor Importance; Skirmishes on All Fronts

Figures obtained in London and vouched for there as authentic, show that Germany succeeded during February in destroying 490,000 tons of merchant shipping, or less than half of the 1,000,000 tons she threatened to destroy during the first month of unrestricted submarine warfare.

The tonnage destroyed exceeded the total for January, before the period of unrestricted action, by less than 170,000 tons, the January figures being 322,167 tons, while 346,656 tons were destroyed in December.

Military operations yesterday were of comparatively minor importance. Berlin reports violent infantry engagements on both sides of the Ancre, where the great German retirement has been taking place. No mention is made of ground gained or lost, however, the statement of results being confined to announcement that the Germans took 60 prisoners and eight machine guns, besides inflicting casualties of a sanguinary nature.

Only raiding operations have occurred in the other Franco-Belgian front sectors, and the same is true of the Russian front, according to the Berlin report. West of Lutsk, in Volhynia, however, a German raid was on an extensive scale. Russian positions were penetrated to a depth of nearly a mile on a front of more than 1 1/2 miles. The results were the destruction of the Russian dugouts and the capture of 123 prisoners and four machine guns.
