

### SELECTION OF ARCHITECT IS AGAIN DELAYED

#### Stamm's Absence Will Probably Hinder Naming of Itner at Today's Meeting

Because of the absence from the city of A. Carson Stamm, president of the city school board, no action was expected on the selection of an architect at the meeting of the directors late this afternoon.

Weeks ago when a special committee, of which President Stamm is chairman, recommended the employment of William B. Itner, of St. Louis, as architect for the city schools, the board refused to accept the report. Since then numerous communications have been received here from all parts of the country where Mr. Itner has been employed, highly recommending his work.

With President Stamm out of the city, however, the selection of an architect will probably be delayed again. The teachers' committee this afternoon recommended that the Civic Club be given permission to conduct a summer school again at the Susquehanna building; the appointment of Miss Margaret Johnson to succeed Miss Helen J. Bright as teacher in the Webster building; discontinuing of examinations of pupils in the grades, and the employment of Professors Todd Shreiner, Hamaker and Sheffer, of Technical High school, during the summer months, at a salary of \$120 per month. The instructors will be under the direction of the Buildings committee. They are in charge of the woodworking, machine shop and blacksmithing departments at the school.

#### COAST GUARD IN NAVY

Washington, D. C., April 6.—The coast guard, with all its extensive resources and equipment automatically passed into the navy to-day as is provided by law in times of war.

#### ALIEN SAFE—NO 4—PI—MUST

Philadelphia, April 6.—The following notice signed by United States Attorney General Gregory was received to-day by the Federal Marshal of the Philadelphia district:

"No German enemy in this country, who has not hitherto been implicated in plots against the interests of the United States, need have any fear of action by the Department of Justice so long as he observes the following warning:

"Obey the law; keep your mouth shut."

### Does Your Husband Drink? Druggist Tells How to Cure the Liquor Habit at Home

#### Free Prescription Can Be Filled At Any Drug Store and Given Secretly.

Mr. H. J. Brown, a Cleveland man, was for many years a confirmed drunkard. His friends and relatives despaired of ever redeeming him. His sister sought the best medical men in Europe in the hope that she might find something which would cure him. Finally she was recommended to an eminent chemist, who gave her a private formula (the same as appears below) and told her how to use it. She had it filled at the drug store and gave it to him secretly. The results were startling. In a few weeks he was completely cured. That was over ten years ago and he has not touched a drop since. He now occupies a position of trust and is enthusiastic in his efforts to help others overcome the liquor habit. He feels that he can best do this by making public the same formula which cured him. Here is the prescription: Go to any first-class drug store and get prepared tescum powder. Drop one powder twice a day in coffee, tea or any liquid. It

### RUSH PARKWAY IMPROVEMENTS

#### Hurry Work Over Entire System So Driveways and Paths Can Be Used

Extensive improvements over the entire city park system are being rushed by Park Commissioner E. Z. Gross and Assistant V. Grant Forrer so that all the driveways can be opened and the parks will be in readiness for use by the public.

Fifteen hundred feet of guard rail along the upper lake road in Wildwood Park has been replaced. The old railing was erected when the road was opened in 1911. Below the breast of the dam another railing has been built, together with a rustic bridge for use by fishing parties.

By an arrangement between the Park Department and the road supervisors of Susquehanna township, the driveway along the breast of the dam will be repaired and five carloads of cinder used. Work on this improvement started yesterday.

To repair the walks from Maclay street to the lake many wagon loads of cinder were used to fill holes. Plans are now being considered for the rearrangement of a baseball field for teams in the West End. This may be continued on the present site opposite Division street, or another field laid out about 600 feet further north.

The pipe line running from the magnesia spring to a bubbler fountain at the picnic grounds has been replaced in sections and the fountain is now in use. Repainting of the motorboat for the lake was started and this will be in service, too, within the next few days.

#### Soon Open Reservoir Drive

At Reservoir as soon as the roads are scraped the driveways will be opened. A general clean-up has been started. Seven tons of fertilizer and more than 1,000 pounds of grass seed will then be spread over the lawn.

#### Improvements to the golf course will be supervised by Stewart McEwan and Frank Zimmerman, golf pros who will be in charge this year. This will include getting the putting greens and teeing grounds in shape. Hundreds of pounds of fine grass seed will be used on the greens. One report of men has been put to work at Island Park repairing the sixth-mile track so that it can be used by the teams for practice. Later this will be lengthened to a quarter-mile. Other men are at work removing rubbish and refuse left by the Robert

Grace Construction Company, contractors for the new Cumberland Valley railway bridge.

#### To Plant Vines on Slope

Along the River Front parkway 2,000 matrimony vines from the nursery will be planted along the slopes. Other work will include cleaning the "front steps" from Calder to Maclay streets, which have been covered with ice for weeks. This may be done tomorrow if weather conditions permit.

Other work which has been started includes cleaning and scraping of the driveway in Cameron Park and Cameron extension; preparations for opening tennis courts at Twelfth street; filling in back of tennis courts at Emmert playgrounds; and construction of a new roadway to the ferry landing on the city shore, making McCormick's Island more easily accessible.

### NEW HOUSES TO COST \$80,000

#### H. A. Hippe Takes Out Permit For Big Building Operation at 'Old Orchard'

A building permit was issued this afternoon to H. A. Hippe, contractor, for the erection of thirteen pairs of houses on the 'Old Orchard' plot, in Derry street, between Twenty-sixth and Twenty-seventh streets.

The total cost of the operation will be about \$80,000. In Derry street, seven pairs will be built; in Twenty-sixth street, three pairs; and in Twenty-seventh street, three pairs. All of the houses will be of brick or brick and stucco, with large side entrances, porches, front and back yards, and all modern improvements. A new street will be opened dividing the big plot into two parts. This will be known as Raleigh street and will run parallel to Derry, between Twenty-sixth and Twenty-seventh streets.

Work will be started at once on the construction of the dwellings. One of the features which Mr. Hippe is contemplating is the use of a plot 70x100 feet for a playground for youngsters. This will front on Raleigh street. A tennis court may be opened on the plot also.

### Railroads Will Merge Men For War Service

New York, April 6.—For war service the railroads of the United States will be operated practically as one system. They expect to handle all government business without seriously interfering with the nation's normal commerce. A statement issued by Fairfax Harrison, president of the Southern Railroad and general chairman of the Special Committee on National Defense of the American Railway Association, says that the railroads have arranged to give to the government "preferential use of all facilities which may be needed for national defense."

Under a plan worked out with the quartermaster-general of the army, the government will advise the roads of its requirements and the railroad managers will then be responsible for providing that service.

Mr. Harrison says that the railroad companies believe this plan will work out better here than the plan adopted in England, whereby the government immediately assumed responsibility for operation of the railroads.

### Suffering of Christ to Be Recalled by Crosses

The suffering of Christ on Mount Calvary will be recalled vividly to Harrisburgers to-night — Good Friday — when lights in four of the largest buildings of the city will be arranged by mutual consent so that illuminated cross will stand out for passersby between 7 o'clock and midnight.

The crosses will be arranged by an interior lighting scheme. The plan was introduced into the city by the HARRISBURG TELEGRAPH.

Buildings to be illuminated are: Kunkel building, Union Trust, Johnson building and the HARRISBURG TELEGRAPH building.

### PITTSBURGH MAN COMING HERE TO SUCCEED YATES

#### John H. McCandless New Aids Secretary; Decide to Aid Red Cross

John H. McCandless, who at present is extension secretary of the Associated Charities of Pittsburgh, will succeed John Yates, who recently resigned, as secretary of the Harrisburg Associated Aids after August 1. This announcement was made this morning by Mr. Yates after a meeting of the board of directors of the Associated Aids. Mr. McCandless has had wide experience in charity work.

Mr. Yates has been secretary of the local society for the past year and during that time it has been placed in a prosperous condition. He will succeed J. Byron Deacon, at present general secretary of the Associated Charities of Pittsburgh, who will be transferred to Philadelphia.

#### Miss Staples Resigns

The board accepted, with regret, the resignation of Miss Rachael Staples, present secretary of the children's bureau of the Associated Aids here. Miss Staples has accepted a position in the same capacity with the State Charities Aids of New York. Mr. Yates stated this morning that "Miss Staples has done excellent work here and that it is with regret that the board accepted her resignation. Her being offered a position with a New York society is complimentary to both herself and the local society."

#### To Aid Red Cross

A resolution to assist the Red Cross Society in every way possible was passed by the board and the Soldiers' Relief Committee of the Red Cross Society, of which Mr. Yates is chairman, and the medical supply branch, which is headed by Miss Anne McCormick, will combine efforts. Mr. Yates received a communication this morning from Mrs. Robert H. Thomas, Jr., chairman of the Soldiers' Relief Committee of the Mechanicsburg Red Cross Society asking for co-operation.

#### To Distribute Easter Baskets

The Associated Aids is preparing Easter baskets for the children under its charge. The baskets will be distributed Easter morning. The candy and baskets were donated by W. Frank Witman, Dives Pomeroy and Stewart, Edwin Weaver and John Rose.

Secretary Yates submitted the March report of the society which shows that 137 cases were taken care of during the month in the Social Service Bureau and that 33 of these are new. The Children's Bureau report shows that fifteen children have been placed in homes. The report follows:

Social Service Bureau.—Total number of cases handled during month, 137; new cases received, 33; old cases, 12; continued cases, 92.

Treatment.—Total office interviews, 189; applicants, 134; consultants, 55; total number of visits, 240; applicants, 95; and consultants, 145.

Relief administered.—Harrisburg Benevolent Association, \$6; Anti-Tuberculosis Society, 18; employment, 6; store room, 17; enlisted from others, 21.

Children's Bureau.—Children placed, 15; homes inspected, 3; number of visits to children, 17; number of interviews at office, 180; number of calls in reference to cases, 279.

### KILLED AT MONASTIR

Mrs. Harley, sister of Field Marshal French of the British army, was killed at Monastir, where she was serving as a member of the Scottish Women's Hospital. This photograph was taken while she was talking to a number of wounded, shortly before she was killed.

### \$100 WORTH OF GARDEN SEEDS TO BE DISTRIBUTED

#### Harrisburg Telegraph Will Turn Over Seeds For Fifty Gardens

den Commission, with headquarters in Washington, whose articles instructing city folk how to make a garden cut down the cost of living appearing frequently in the HARRISBURG TELEGRAPH, has offered to make a gift to this newspaper of \$100 worth of garden seeds sufficient to plant fifty gardens of a size of twenty by twenty-five feet.

#### To Be Distributed

The generous offer has been accepted and as soon as the seeds arrive they will be turned over to the Harrisburg Benevolent Association for distribution.

In a statement on "the food crisis" made to-day by Charles L. Pack, president of the Commission, he said:

"The Americanization of our country is proceeding at a swift rate and with the utmost thoroughness. A war spirit is developing that looks to a world cleaned of what we now know to be entirely evil. The new patriotism is cosmopolitan for it has found out that wickedness in power in Europe is at our doors and within our homes, both as a poison of the soul and as a robbery of life through a price confiscation of life's necessities. Let us fight this evil.

"Patriotic words are empty air. Patriotic acts alone will help. Plant a food garden and do your part towards the economic victory.

"We expect to induce more than one million young people, women and elderly men this year to plant a food garden who have not done so before. This alone should add much more than two hundred and fifty million dollars to the food value of this season's crop. Those who have made such gardens before should increase their efforts."

#### HOGS GO TO \$16

Chicago, April 6.—The sixteen dollar hog took his place alongside two-dollar wheat to-day. Hogs grading as choice heavy sold at \$16 at the opening of the market at the Union Stock yards to-day.

### AUSTRIAN PRESS LITTLE EXCITED

#### No Bitterness Shown Toward U. S. For German War Declaration

By Associated Press

Vienna, April 4, via London, April 6.—The Austro-Hungarian press has paid little attention to President Wilson's message to Congress regarding German-American relations. The few editorial comments give prominence to the fact that reliable information on the American government's attitude is so scarce that it is impossible to form a picture of what is happening in the United States.

While some of the newspapers doubt President Wilson's motives others point out that the American government's attitude in the past has made difficult the taking of another course than that now laid down, expressing at the same time the hope that the situation between the United States and Austria-Hungary will not undergo a change for the worse. All of the leading articles voice regret that by President Wilson's act the chances for an early peace are seemingly lessened.

#### Keen Disappointment

There is no bitter tone in any of the comment but a full expression of the keenest disappointment.

Frederic C. Penfield, the American ambassador, leaves Vienna Saturday evening, April 7. He will be accompanied by Mrs. Penfield, Allan W. Dulles, third secretary of the embassy, and one servant. During the last few days the embassy has been besieged by the many friends of the Penfields here. On Thursday at 10 a. m. the Ambassador will be received by Emperor Charles at great headquarters. Mrs. Penfield was presented by Empress Zita in person with an autographed photograph of herself, the two ladies having been active together in much charitable work. Ambassador Penfield and his party will leave in a special car placed at their disposal by the Austrian government. The car will proceed with the Penfields as far as Berne, where they will remain for a week. The Ambassador announced to-day that in order to avoid all possibility of a press campaign in connection with the journey he would not say a single word while on the way.

### Five Minutes! No Indigestion, Gas, Sour Stomach—Pape's Diapepsin

Neutralizes acids in stomach; instantly relieving dyspepsia, heartburn, belching, distress. It's fine!

"Really does" put upset stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness due to acid fermentation in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach antacid and regulator in the world. If what you eat ferments and turns sour, you belch gas and eructate undigested food or water; head is dizzy and aches; breath foul; tongue coated; your insides filled with indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin is worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest antacid for the stomach in the world.
