

FIRST CALL TO BE FOR 500,000 MEN

(Continued From First Page)
draft of more than 500,000 men by
less than enough volunteers enlist
quickly, and of organizing into the
service by late summer of the first 500,000
of the new force of men between
the ages of 19 and 25 years to be called
to the colors by selective conscription.

In drafting its program the staff recognized
the fact that the United States must start at the beginning and
train first an army of 100,000 officers and
noncommissioned officers to undertake
the training of the thousands of
youths who will enter the service
with no notion of military duty or
life.

Expansion of the present regular
army to its full war strength of 287,000
enlisted men and 11,700 officers
means many new regiments of all
arms to be created by dividing existing
regiments and filling each half to
war strength with volunteers or conscripts.
The National Guard regiments, all of which
can be called into the Federal service
under existing law will have approximately
327,000 men and 14,300 officers and
10,300 noncommissioned officers. No new
regiments of the guard would be organized
and the full limit of the national defense
act would be invoked to wipe out any distinction between
Federal and State forces. Here all
volunteers would be received, drafting
being resorted to only when necessary.

Plan For Reserve
These two steps would provide a
force of 614,000 men and 22,000 officers
to be supplemented by a recruit
organization making an additional 200,000 men under training,
but to be held in reserve to fill gaps
in the active army as they occur.

For five months these expanded
forces will be subjected to training of
a character hitherto unknown in this
country. Simultaneously the registration
of all men between the ages of 19
and 25 will be carried out with Federal,
State and municipal authorities co-operating.

In August or early in September the
first 500,000 of this new army, composed
exclusively of young men, summoned
to the colors under the principle
of the military service law, will be
with those supporting dependents or
needed by the nation in civil life exempted,
would be assembled for training.
From the regular army, National
Guard regiments would be drawn 100,000
specially selected officers and noncommissioned
officers who would organize,
train and command the units of
the new army.

Second Call Next Year
A year from now, a second increment
of 500,000 youths would be called
out, another 100,000 officers and noncommissioned
officers would be drawn from the regulars, the National
Guard forces, or the first section of
the new army, to officer and train the
second section.

2,000,000 Trained Men
By that time the machinery that
has been built up would provide
enough trained officers and noncommissioned
officers to train a million
or more men at a time, if that were
necessary. The War Department bill,
however, provides that only the first two
classes of the new army, making a total
of more than 2,000,000 trained troops
would be available possibly within a year
and a half, or in two years at most.

and artillery trains, exclusive of those
included in the tactical organization of
forces, previously provided for at the
discretion of the President and for the
duration of the emergency.
From 19 to 25
Section 7. For raising and maintaining
only the regular army and National
Guard and their auxiliary units until
the President decides that "selective
draft" is necessary when it shall be
applied; all of the forces to be raised
exclusively by selective draft of
male citizens 19 and 25 years of
age under regulations to be formulated
by the President. Provision is made
for proportionate quotas to be supplied
from the respective States and
territories, determined upon population
and with credit given under such
quotas for all men of the age affected
who may have voluntarily entered
other branches of the military service.
Service is fixed for the duration of the
emergency.

Section 8. For the exemption from
selective draft of the Vice-President of
the United States and the legislative,
executive and judicial officers, Federal
or State, and of all persons in the military
or naval service, of members of
well recognized religious sects in which
the creed prohibits participation in
war. Provision also is made for the
discretionary exemption or drafting
for partial military service only of
customs house and postal employes,
workmen at armories, arsenals and
navy yards, pilots and airmen actually
engaged in sea service, persons engaged
in industrial necessary to the
military establishment or maintenance
of the national interests, persons with
dependent relatives and all physically
or morally unfit persons.

To Register All Males
Section 9. For the registration of
all persons liable to military service
under the act upon proclamation by
the President; such persons to report
themselves for registration as shall
be prescribed, filing which they
will be held liable for trial upon misdemeanor
charge and punishment upon
conviction by from three months to
one year imprisonment subsequent
to which they will be duly registered
for military service.

Section 10. For the employment of
all agencies of the Federal government,
of the States or territories by the
President to carry out the act, all
public officials being required to aid
in its execution under penalty of
from six months to one year's imprisonment
if they willfully refuse to
attach for any person aiding in any
way any fraudulent evasion of the
requirements of the registration
section of the act.

Section 11. For voluntary enlistments
under the qualifications and
conditions now obtaining in the regular
army, except that the maximum
age limit is extended to 30 years,
and enlistments are for the period of
the emergency only. Enlisted volunteers
may be assigned to any part of
the Federal forces except that raised
exclusively by draft. Provision also
is made for the discharge of any soldier
who incurs responsibilities after his
enlistment which justify that step;
and for the employment of retired
men of the regular army.

Method of Appointment
Section 12. For the appointment of
general officers of appropriate grades
as the President may deem necessary
for the period of the emergency, to
be selected from a part of the forces
provided, irrespective of their previous
rank, and of the members of the
regular army grades to be filled by
temporary appointment only. The
lower rank permanent commissions of
officers appointed to temporary
rank will not be vacated nor their
status in that grade affected. Every War Department
bureau chief would have the emergency
rank of major general.

Section 13. For vacation by the
President of any temporary or provisional
commission for cause. Each
general commanding a separate tactical
unit would be authorized to name
efficiency boards to pass upon the
fitness of any officer in his command
and recommend discharge with one
month's pay and allowance if advisable.

\$3,000,000,000 a Year
Section 14. For regular army pay
allowances and pensions to all officers
and men in the Federal service.

Section 15. For the blanket appropriation
of nearly three billion dollars
to pay the expenses of one year's
operations of the Federal forces.

Section 16.—Suspends all restrictions
upon the employment of regular
army officers for the period of the
emergency.

Section 17. Repeals all conflicting
statutes.

BRAZIL AND CUBA MAY ENTER WAR

(Continued From First Page)
man submarine has sunk the Brazilian
steamer Parana, with the loss of three
members of her crew. Anti-German
feeling in Rio Janeiro as a consequence
is reported intense and talk of
a speedy declaration of war is heard
in responsible circles, the advice state.

Cuba is another American nation
likely to enter the war, following the
action of the United States. Havana
dispatches forecast the probability of
such action.

Want American Help
Appeals for American expert advice
and other assistance in prosecuting the
war are coming from some of the
present European belligerents. Reports
from Russia indicate that an
American commission of national
character would be welcomed there to
co-operate in financing munitions and
transportation operations.

Italy likewise is welcoming American
co-operation and the hope is expressed
there of help from the United
States in the way of credit, food and
increase in means of ocean transportation.

In the field of military operations
the French have made further progress
in one sector of the present main
battle front. In the separate engagement
that has been in progress north-west
of Arras, the German trenches that
the Germans were able to retain
in their recent attacks in force have
been wrested from them by General
Nivelle's troops.

New Pastor Greeted
by Reception Committee
The Rev. H. R. Bender, of Clearfield,
who was transferred to the Ridge
avenue Methodist Church in a recent
session of the Eastern Pennsylvania
Conference of the Methodist
Church, arrived in the city yesterday
afternoon. He succeeds the Rev. W.
W. Hartley, who was sent to the
Clearfield charge by the same conference.

The Rev. Mr. Bender, his wife and
daughter, were met at the station
by members of the official board.
The new pastor and family were
tendered a dinner immediately
after they arrived at the home. The
dinner was prepared by members of
the Mite Society of the church.

GAME RESERVE FOR BEDFORD CO.

Forestry Commission Gives the Game Body Authority to Use 2,500 Acres
The State Forestry Commission at its monthly meeting here to-day agreed to give the State Game Commission the use of 2,500 acres of State forest reservation for a new game preserve. There are now fifteen such preserves on State forest reserves, aggregating over 60,000 acres of land. The Commission also arranged to buy 600 acres of forest land in Gamble township, Lycoming county, and granted permission for seven camp sites for this year on State land, making 365 such sites all told. Several applications for auxiliary reserves were made and will be looked up.

Deputy Attorney General Keller has given an opinion to Secretary of the Commonwealth Cyrus E. Woods in which he holds that the reports of the supreme and superior courts must be filed at the contract price during the term of the contract and for five years thereafter. This would mean until 1920. Mr. Keller also informed the State Board for registration of nurses that if an applicant has been graduated from a training school or hospital approved by your Board, which had a course of at least two years, though the did not take the course continuously, she may take a post graduate course and become eligible for examination for a State certificate.

Governor Brumbaugh left for Philadelphia this afternoon to spend Easter. He will have conferences to-morrow with men connected with the Public Safety Committee and return here Monday.

The Adjutant General's Department to-day announced the appointment of Dr. James Reed Martin, Philadelphia, as a first lieutenant in the medical corps of the National Guard. Major Samuel W. Rhoads, of Wilkes-Barre, was to-day appointed a major and assigned to duty as assistant chief of staff.

The Public Service Commission will probably take up the cases against the Springfield Consolidated Water Company which supplies the vicinity of Philadelphia, as soon as the Westmoreland Water Company case is out of the way. The small engineering force of the Commission has presented speedier action in the Westmoreland case.

Word was received at the Capitol to-day that in addition to the delegations of the Philadelphia and Pittsburgh Chambers of Commerce which would be here Monday to urge the passage of the State police bill that other commercial bodies would be represented. The Philadelphia Lumbermen's Exchange to-day telegraphed the State Chamber of Commerce that it was doing what it could in favor of the bill.

Only Four Milk Tests Contain Disease Germs

Only four of the forty-four tests made of milk sold in the city during the last month, showed the presence of color bacilli, commonly known as disease germs. Figures issued to-day by the city health department show that milk, cream and ice cream sold during the month of March, in practically every test passed the requirements. The only milk samples which when tested showed the presence of disease germs were those of the following dealers: J. A. Rudy, S. Smeltzer, two; and J. H. Wolfe. Only two were below butter fat requirements. Of the cream samples, four were below butter fat requirements while only one of the eighteen ice cream tests contained color bacilli. This was a sample of the Russ Brothers' ice cream.
