ASK PRESIDENTIAL WOMEN SUFFRAGE

Suffragists of State in Conference Here Plan Bigger Campaign

Suffragists of Pennsylvania replied to Representative Flynn, who declared yesterday that the House of Representatives should "kill woman suffrage once and for all" when delegates from thirty counties of the State meeting in their annual spring conference in the Y. W. C. A. this morning passed a motion to introduce immediately a bill asking for Presidential suffrage for women.

At the same time the delegates declared that they would pay all pledges due the State organization amounting to approximately \$25,000 to continue their campaign. In addition, several of the county representatives announced that they would be responsible for raising amounts equal to their suffrage pledges to be used in patriotic service in connection with the war.

In discussing the defeat of their amendment and the unprecedented action taken upon the question of reconsideration, and led by "wet" champions, speakers including Mrs. J. O. Miller, the presiding officer and chairman of the legislative committee, called upon those members of the House who pledged to their cause, who were absent to explain their absence, and condemned those other pledged members who were present and by their voting against the suffrage resolution broke written or oral pledges. It was the general opinion of the delegates present, that in the future women must work more actively during the election of election boards and in the primaries.

The following resolution was passed and copies will be sent to the President of the United States, Congressmen from Pennsylvania, and members of the Legislature.

Whereas, All authorities have emphasized the need of conserving grain crops and increasing national food supplies; and

Whereas, Great quantities of grain are used annually for the manufacture of liquor, thus lessening greatly the supply available for foods.

Be It Resolved, That the Pennsylvania Woman Suffrage Organization urge the President of the United States, the Congress of the United States, and the Legislature of the Commonwealth of Pennsylvania to deprecate laws preventing the use of grains for the manufacture of liquors or other beverages, and to conserve for the same for the making of foodstuffs for the duration of the war.

Frankly admitting that they were keenly disappointed in the defeat of the suffrage resolution in the House yesterday by only three votes, the executive board members and delegates present presented a stern and undaunted front, and the decision to renew their fight immediately with the Presidential suffrage bill was unanimous.
