

FOREST FIRES IN LARGE NUMBERS

But They Are Being Quickly Checked All Over the State by Organizations

Reports to the State Forestry Department show that forest fires while numerous in eastern and central Pennsylvania counties are not of any great size and that they are being controlled through joint efforts of the State forest fire wardens, the railroads, corporations and landowners. The bulk of the fires have been on corporation or privately-owned land, the State forest reserves not being much affected. Railroad section gangs called into service have checked many of the blazes.

The worst fires appear to have occurred in Franklin county, where incendiarism is suspected. Forty fires have been reported from the vicinity of the State sanatorium at Mont Alto within a month, as high as four a day appearing. State policemen have been detailed to run down the incendiaries.

In the hard coal regions organizations have been perfected which head off fires before they attain large proportions.

Inspection System. — Inspection of the State's methods of accounting was made to-day at the departments of the Auditor General and State Treasurer by State Auditor J. A. O. Preus, State Treasurer Harry Rines and Matt Desmond, chief of accounts, of the State of Minnesota.

Baker Bill on Calendar. — The Baker bill providing that the State shall pay teachers of agriculture in all rural districts is on the House calendar. It is regarded as a big step in advance and the problem of

finding the money is engaging attention.

New Backs Required. — Owing to the size of the files of new bills presented to the Legislature the clerks have been forced to order more filing backs. This is the first time in years that such steps have been necessary.

Appointed Lieutenant. — G. W. R. Martin, of Philadelphia, has been appointed a first lieutenant and assigned to Company A, Third Infantry.

Known as Company D. — The new engineer company formed at Pottsville will be known as Company D, Engineer Regiment. Two more companies are being formed in Philadelphia and Scranton.

To Bring Suits. — Insurance Commissioner O'Neil plans to bring suit for \$2,000,000 in the insurance cases. He said at Pittsburgh last night that he was going through with the cases to the limit.

Board to Visit. — The State Compensation Board is going through the hard coal region next week to hold a series of hearings.

At Dedication. — The dedication of West Lampeter's new vocational high school, the only one in Lancaster county and one of the first in the state, yesterday was attended by Governor Brumbaugh, Lieutenant Governor McClain, Dr. N. C. Schaeffer, State Superintendent of Public Instruction, Dr. J. G. Becht, secretary of the State Board of Education; State Director of Agricultural Education L. H. Dennis and County Superintendent of Public Schools Daniel Fiescher. The address of welcome was made by H. H. Snively, president of the school board. Others speakers were Lieutenant Governor McClain, Dr. Schaeffer and Dr. Becht, with Governor Brumbaugh making the dedicatory address. The school was started in 1911 and provides an agricultural course and manual training for boys and domestic science department for girls. On his way home the Governor visited Stevens Industrial School in Lancaster.

FEMININE QUESTIONS

"How can I drive away these disfiguring wrinkles—how can I make my skin smooth and soft—how can I get rid of the sallowness and dryness of my skin and bring back the fresh, youthful color? The answer is, go to Gorgas, the druggist, or any first-class dealer, at once, get a bottle of Usit and apply it regularly at night before retiring, for a short time. The results, from the use of this pure nut-oil, liquid preparation, are wonderful. Wrinkles disappear, the skin becomes soft and smooth, plumpness is restored, and youthful color and freshness return. It is clean, delicately perfumed, guaranteed not to cause the slightest hair-growth, and freckles, blackheads and many forms of eczema as well, yield to this treatment.

HOGS EAT ICE CREAM CONES

Chicago, May 18.—A new food for hogs has been found in the shape of ice cream cones. Recently Edward and Nelson Morris, packers, purchased several tons of broken lots of cones from manufacturers at \$26 a ton and fed them to hogs as an experiment. Corn costs from \$1.50 to \$1.70 a bushel, and the ice cream cone diet not only proved a saving of money, but it produced a superior class of hogs, according to the Morrises, who said the price paid for them on the open market was within a few cents of the highest figure reached yesterday.

Australia First Nation to Use Interned Vessels

Sydney, Australia, May 18.—William M. Hughes, the Prime Minister of Australia, in an address delivered here the other day, said:

"It will probably come as a surprise to the public to learn that Australia was the first of all the nations to employ interned enemy vessels and prizes in ordinary mercantile work and to utilize the cargo space of transports. In both these matters and in the policy of controlling shipping generally Great Britain was glad to follow the lead given her by Australia.

"Australia stands as the first country to organize the whole shipping business systematically while the other nations had to reduce their exports to suit the reduction in tonnage. Australia was able last year to export every ton of produce for which there was no local market, with the exception of wheat, and even of wheat there was a greater quantity exported than during any previous year. At the end of last year there was no single product except wheat to go forward."

HOLLAND NEEDS COAL. The Hague, Netherlands, May 18. Holland is so short of coal that the government is preparing to distribute it by a rationing system next winter. Importations of coal by sea virtually have stopped and Holland is not receiving more than half its normal imports from Germany.

HARRISBURG, Pa., May 18.—The big reason why this "Live Store" has been successful, favored and prosperous is because it always has good merchandise to sell—the kind you like to buy when you come in and say I want the best SUIT OF CLOTHES that can be bought for
