ALLIES MAKE PREPARATIONS

The world war. The measure revoking her neutrality is now well on its way through parliament.

In Austria-Hungary the political situation is still in a transformation period. The Hungarian premiership, according to a Zurich dispatch, is to be filled by Count Julius Andrássy, a pronounced liberal. The entire significance of his reported accession, following the retirement of Count Tisza, representative of the ultra-German influence in the dual monarchy, is yet to be developed. The change is nominally due to internal political conditions but there are strong beliefs held in many quarters that it may not be without marked effect on Austria's foreign policy, particularly in relation to the supposed moderate war aims as contrasted with Germany's reputed wide ambitions.

ARMY BASEBALL SEASON IN FULL SWING JUST OUT OF CANNON'S REACH

By Associated Press. British Headquarters in France, May 28, via London, May 29.—The "age about" all work and no play" has its application in war as well as in peace. The baseball season on the western front is in full swing. Under the very shadow of Vimy ridge a great game was played yesterday afternoon before an all-khaki audience on a bit of the battlefield on which the shell holes had been filled in and a rough grandstand erected for the officers and other spectators, including General Horne, commanding the first British army, who has become an enthusiastic fan.

The game was between teams representing two Canadian brigades. As a matter of fact the teams in what may be called the World War League are now composed of representatives of the numerous Canadian bodies, and all the players are anxiously awaiting the arrival of the American forces to arrange for an inter-league series.

The Second Canadian brigade beat the Third by the score of 7 to 1. The Second brigade had a great left handed pitcher whose delivery the Third brigade catchers could not solve at all. The Third brigade team also had a good box man who formerly played with Ottawa in the Canadian league. The catcher was unable to hold his delivery well and this fact accounted for many of the runs scored by the winning side.

As a side show it was possible from the grandstand to see an occasional German shell dropping half a mile or so away. Airplanes were humming over head, but assuming them to be friendly no one looked to their way except when a fly ball popped and five small children.
