

Y. M. C. A. 'Gym' to Be Reopened Oct. 8; Boys to Attend Convention

The gymnasium of the Y. M. C. A. will open October 8, instead of Monday, as was announced last week. The improvements and installation of the shower baths in the 'gym' have not been completed, hence the delay. The handball court is being very much improved, and lockers are being provided in abundance, so that the visiting football teams who come to Harrisburg to play the local school teams can find accommodations at the Y. M. C. A. The scores of the games will also be announced from the 'gym' department of the club.

C. W. Miller, who is the physical director, has secured an instructor in boxing, and the lessons will begin soon after the 'gym' is opened. An effort is being made to secure an instructor in wrestling.

Advance information regarding the East Harrisburg Older Boys' convention has been received by A. H. Dinmore, the new director of the boys' division of the Y. M. C. A. The convention will be held at Berwick, Pa., October 19, 20, 21. Boys between the ages of 15 and 21 are to be selected as delegates.

A few boys from Harrisburg will attend, who have been appointed by Mr. Dinmore. Information sent out by the secretary of the State board, H. J. Schmidt, says that the general theme of the convention will be "Challenge of War."

FUNERAL OF MRS. ROTHERMEL Funeral services for Mrs. Eva Rothermel, a former resident who was murdered at her home near Baltimore, were held from her home in Baltimore, Md., yesterday afternoon. Burial was made in the Baldwin Cemetery.

STEEL TRADE

IN CONFUSION

Producers Surprised That Prices Were Agreed Upon Rather Than Imposed

Since the announcement on Monday of the prices agreed upon by the government and leading steel producers the trade has been in utter confusion. Surprise that the prices were agreed upon rather than imposed by the government was followed by excited efforts to get details which thus far are lacking and meanwhile business practically stopped.

The Iron Age of to-day says: "While only six products are included in the announcement, including the three forms of finished steel which the government will buy most largely, prices on other products will be worked out and put into effect later. On billets, a pivotal intermediate product, strangely omitted from the first list, a \$15 advance over pig iron may be expected.

In two of the products not yet fixed the government will buy most of the market prices lately maintained by the leading producer would be nearly in line with the new schedule on plates, shapes and bars."
