**TECH BOYS SMACK LIPS OVER PUMPKIN PIE AT FOUR CENTS**

**Egg Sandwich at Seven Cents; Vegetable Soup With Roll at Four; Just a Few Other Things on Menu**

Technical High school students at noon to-day smacked their lips over pumpkin pie for four cents and went back for a second helping: corn on the cob for a similar amount also proved a good seller. Then there was vegetable soup with a roll for four coppers, while popular drinks were handed across the counter for three cents. In fact for fifty-five cents the students could have had a serving of everything on the menu. It was a successful opening of the Tech lunchroom on a new plan adopted recently by the School Board, and many complimentary remarks were handed out to Caterer Pomeroy, who conducts the lunchroom. Here is the menu:

body flocked to the basement to sample the line of goods handed over the counter.

**Food at Low Cost**  
 After the first meal, the lunches are no longer an experiment, and many a mother of a Tech student will be glad she will have one lunch less to pack. The low cost of the foods is one of the strong features of the plan, as all of the meals are served at cost. It will be interesting to note what effect the warm lunching will have upon the grade of the work done by the pupils. The lunches are served in cafeteria style.

At a meeting of the Tech Tatler staff held yesterday afternoon it was decided to publish five issues of the paper including the commencement issue. It was the first meeting of the staff for the present year, and the entire personnel was in attendance. Rees M. Lloyd, the editor-in-chief, presided, and plans for the year were discussed. The staff adopted the slogan, "One hundred subscriptions a day for five days." The staff is composed of George I. Fisher, associate editor; Donald Miller and Gordon Holland, literary editors; Charles Mowery, alumni; Paul Guarini, exchanges; Laird Landis and Abram Gross, technicalities; Frank Shaffner, Tek Nikul; Glen Geard, school notes; Marchant Shaffner and James Minich, artists; Earl Schwartz, Joseph Freedman, George Matz, Ralph Brough, Albert Hahn, Andrew Musser and William Keene, business managers; Joseph Schmidt, circulation manager.

**Simply Breathe It**

**A Few Minutes' Use of Hyomei Daily Is Best Way Treat Catarrh**  
 The pleasant, most convenient and the only scientific method for the treatment of catarrh is Hyomei. Simply put twenty drops of Hyomei in the inhaler that comes with every package and then breathe it for a few minutes every day. It seems remarkable that so simple a way of treating catarrh will effect a cure, but the most important discoveries of science have always been the simplest. By breathing Hyomei in this way, every particle of air that enters the air passages of the throat and head and goes into the lungs is charged with a healing balsam that kills the germs and bacilli of catarrh and soothes and allays all irritation. The first day's use of Hyomei will show a decided improvement and in a short time there should be no further trouble from catarrh. Its action is rapid and lasting. You take no risk in buying Hyomei. A complete outfit costs but little and if after using, you can say that it has not helped you, H. C. Kennedy will return your money. What other treatment for catarrh is sold under a guarantee like this?—Advertisement.

To push through the drive for five hundred subscribers to the Tech Tatler, the following members of the school have been appointed: Freshmen, Paul Ray, Paul Maurer, Ellis Holan, Felix Davis, Lester Gipple, Karl Opperman, Edgar Meloy, Gilbert Mattson, Linn Storey; Sophomore class: Section A, Harry Ellinger; Section B, Raymond Hoffman; Section F, William Perry; Section G, John S. Smith; Junior class: Section K, Kenneth Fisher; Section L, Andrew Musser; Section M, Frank Shaffner; Section N, Albert Hahn; Section O, James Peifer; Senior Class: Section S, Earl Schwartz; Section T, Fred Henry; Section U, Fred Huston.

A bulletin board on which are posted announcements for the faculty has been placed in the library. Peter Wait, an experienced engineer, who has held various positions in this city, has been elected by the School Board to succeed J. Grant Koons, an engineer of the school.
