

WILL OPEN BIDS FOR DISPOSAL OF GARBAGE MONDAY

May Be Ten Bidders; City Health Officer Investigates Baltimore System

Bids for the removal of the garbage in Harrisburg for periods of fifteen months, two, three and five years will be opened on Monday at noon at the office of Commissioner Dunkle.

While ten sets of specifications on file at the health bureau offices have been taken out it is not known whether or not any more bids will be received. It is anticipated, however, that several having other methods of disposal than by reduction may submit proposals as soon as the garbage collection problem is decided by the city officials.

Dr. J. M. J. Raunick, city health officer, yesterday stopped in Baltimore en route to Washington at the Maryland city he spoke to a number of officials to get particulars of collection and disposal. He is at present in the city collecting \$25,000 for the collection of all ashes and garbage and \$75,000 additional for the construction of a new garbage plant at the reduction plant. The present contract will not end until the close of next year.

At present the Baltimore officials are investigating a number of western schemes where the garbage is collected by the city and sold to private parties for removal. According to Dr. Raunick, however, this is only another argument in favor of municipal disposal of the products of garbage after it has been collected by the city.

Assessment of the property in the fourteenth ward, recently annexed to the city, will be completed in a few weeks by City Assessor James C. Thompson. The work will terminate the owners of a number of properties and some of the vacant ground in the Fourth ward are being sent out by Assessor Thompson.

DOCTORED FORTY YEARS IN VAIN

"I Have Tried Them All But Tanlac Is Best," He Says

FOR IT GAVE HIM PROMPT RELIEF

"I have tried out a good many remedies in the past forty years, but I have never found relief until I started taking Tanlac. Then I began to feel better right away. I had a sort of stomach trouble ever since I was a small boy and nothing seemed to do me a bit of good. When my stomach was empty I had a sort of nervous trembling inside and I would belch up quantities of gas. I was troubled with dizziness, too, the spells coming at frequent intervals and sometimes making it almost impossible for me to stand. I was listless, tired and nervous and felt generally run down. I bought Tanlac because I had read all the other remedies, but didn't hope for much. Imagine my surprise when I found it was really doing me good. To-day I feel better than I have in nearly forty years. My stomach is in good shape, I have no more belching and my nerves are in fine condition. Tanlac certainly has helped me more than anything I ever used and have tried them all."

Tanlac, the famous reconstructive tonic, is now being introduced here at Gorgas' Drug Store, who have secured the exclusive sale of this medicine in Harrisburg.

Tanlac is also sold at the Gorgas Drug Store in the P. R. Station; in Carlisle at W. G. Stephens' Pharmacy; Elizabethtown, Albert W. Main; Greencastle, Charles B. Carl; Middletown, Colin S. Few's Pharmacy; Waynesboro, Clarence Croft's Pharmacy; Mechanicsburg, H. P. Brunhouse.—Adv.

GUIDO CICCOLINI WILL SING HERE

Comes Under Auspices of the J. H. Troup Music House

One of the most notable events of the musical season here will be the appearance on Thursday evening, October 25, of Guido Ciccolini, the noted Italian tenor, who will be heard in recital at the Technical High School Auditorium, assisted by Elias Breckin, violinist.

Although a very young man, Signor Ciccolini is one of the foremost operatic tenors of the world, the one of whom the great Melba has said, "I would rather hear him sing than any other living tenor." Up to the beginning of the European war Ciccolini was singing in the various European countries with great success. The opening of hostilities in Europe led him to come to America, where his success has been as great as it was abroad.

Striking Coal Miners Must Go Back to Work or Lose Union Charters

Springfield, Ill., Oct. 19.—In telegrams sent this morning to local miners' unions in Illinois, now on strike, J. F. Farrington, state president of the miners' organization, declared that in mines where the men are not back to work by Monday, October 22, local charters will be revoked. In a statement President Farrington said his action was prompted by a desire to save the miners of Illinois from industrial conscription, which he stated, would follow if paralysis of the coal mining industry continued.

Mr. Farrington's statement says: "Reports coming to my office are encouraging and indicate that the men who have been idle have decided that their best interests will be served by their return to work, and they gradually are doing so. I have every reason to believe that Dr. Garfield is doing everything in his power to make prospective wage increases effective as early as possible, although he has made it clear to me that he does not propose to surrender to pressure brought to bear on him by the men discontinuing work and I am satisfied that he will not allow wage increases to become effective until all of the men are back to work."

EAT WHAT YOU WANT WHEN YOU WANT IT

People who consistently deny their appetite especially to their palate, because indulgence has always meant subsequent suffering, will think this a strong statement. It is a fact, however, that most people can, without fear of distressing consequences, indulge the appetite within reason if the bowels are active and regular. Heavy dinners and late suppers can be enjoyed with impunity if, before retiring, one will take a spoonful of Dr. Caldwell's Syrup Pepsin, a mild combination of simple laxative herbs with pepsin that dissolves itself for fifty cents a bottle. Gentle in action and positive in effect, it regulates the bowels in an easy, natural way, without griping or other discomfort. Get a bottle of Dr. Caldwell's Syrup Pepsin from your druggist and keep it in the house. Use it occasionally and you will find you can eat almost anything you like without fear of consequences. A trial bottle can be obtained free of charge by writing to Dr. W. B. Caldwell, 436 Washington St., Monticello, Illinois.
