WAR VETERAN TELLS OF SOLDIERS' NEEDS

Y. M. C. A. Campaign Will Keep Men Clean and Add Much Needed Home-Touch to Lives of Those at Front

By ALLEN SANGREE Writer and Veteran of the Boer War NEARLY sixty years ago Abraham Lincoln in speaking to the Civil War Sanitary Commission said: "I am not accustomed to use the language of eulogy. I have never studied the art of paying compliments to women. But I must say that of all that has been said by orators and poets since the creation of the world in praise of women if applied to the women of America it would not do them justice for their conduct during this war." When Abraham Lincoln said this he must have known something of the soldiers' life at the front and he evidently appraised correctly what it means to have an intimate link between the home and the battle line.

FATE OF RUSSIA BAPELY ESCAPED BY SUNNY ITALY

But German Propaganda and Peace Literature Fail to Influence Patriots

ALLIED TROOPS ARE NEAR Spies Gave Kaiser's Hosts Detailed Information Before Battle

Rome, Nov. 10.—Italy will continue to fight until the end despite the efforts of German propaganda and the disaster on the Isonzo front, in the opinion of official circles here. The government must fight the effects of Austrian and German propaganda as well as do all in its power to drive the enemy from Italian soil. It is felt Italy narrowly escaped the fate of Russia, as it is believed the campaign carried on to destroy the spirit of the Army and the people reached its height when the Austro-German blow was struck in the Julian Alps. Political hatreds have been healed. Since the Isonzo defeat the "authorities have learned that anti-British and anti-American reports were widely circulated throughout Italy. Austrian aviators dropped bombs over Italian trenches containing German propaganda and peace literature. The propaganda campaign was also carried on through resident German citizens. During the recent retreat it was noted that the Austro-Germans possessed detailed information concerning the number of Italian troops and their positions. Italy's armies, under a new commander, General Diaz, are in their new positions, probably near the Piave river, ready to offer stouter resistance to the Austro-German invaders. It is apparent the momentary halt on the Livorno river was only for the purpose of delaying the enemy as much as possible until the bulk of the Italian forces could establish themselves in the new defensive line. British and French troops have arrived in Northern Italy and will aid the Italians in beating back the invaders from capturing Venice and the rich manufacturing district in Lombardy and Piedmont. Berlin reports the Teutons advancing toward the Piave through the hills, and explain, indicating that the Italian withdrawal in the Carnic Alps as not yet halted. The general command has been appointed Italian member on an inter-allied staff. The other members are General Poch, one of the great French leaders, and General Foch, an Italian staff officer. These three probably will take supreme direction of the allied campaign in Northern Italy.

MINOR ERRORS IN TALLIES DELAY OFFICIAL COUNT

Soldier Vote on Mayoralty Contest Yet Remains to Be Counted

MORE BOARDS CALLED IN Returns to Be Corrected in Court Monday Morning Before Tellers

The official count of the county ballots can not be completed until Monday, because of errors found in the returns by six election boards in the districts outside of the city. Sheriff W. W. Caldwell was directed to notify the boards to appear in court on Monday morning to correct the returns. This will prevent finishing the tabulation work on the county vote until then. Early this afternoon with the court still in session the count of the returns from Susquehanna township election officers had been started, and it is probable the court may complete the entire county to-day. It could not be learned definitely when the soldier vote will be opened but this also may be delayed until Monday pending the completion of the county return tabulation. The boards notified to appear on Monday are from the Second precinct, Hummelstown, Highspire, Halifax township, Lower Paxton township, Third ward, Second precinct, Middletown. There was also a slight mistake, it was reported, in the Fourth ward, Steelton, return. The official returns of the entire soldier vote as received by Prothonotary Henry F. Holler has not been counted yet. While unofficial returns have been received from practically all the camps there is much interest in the exact count from each camp. The majority of twenty-five votes which Daniel L. Keister holds is unchanged.

INCREASE IN TAX RATE FOR 1918 IS NOW FORECAST

New Budget Attracts Almost Undivided Attention of City Officials

PROBLEM IS DIFFICULT Increasing Costs of Labor and Materials May Mean Increase in Expenses

With less than two months until the new administration in City Council takes office the commissioners already are making plans for their budgets for next year. While it is certain that the city tax rate will be raised according to some of the officials, the budget will determine largely how much of an increase may be necessary. Daniel L. Keister, whose election as mayor is practically assured, will be the only one of the new members of council who will have a chance to arrange his budget. Commissioners Lynch and Gross, both re-elected, also will start work on their account of expenses for the coming year, but Dr. Samuel F. Hassler and Charles W. Burnett will not take office until January after the budget has been passed. They may be called into conference when it is prepared however. Garbage Again The present commissioners are facing a difficult problem as they prepare their accounts for next year. With increasing cost in materials for repairs, increasing labor costs, the ashes and garbage collection trouble, Hardscrabble and other needed improvements facing them, it will require much figuring to determine the various items. City Assessor Thompson is working on the assessment figures and the board of revision will probably meet in the next two or three weeks, after which the commissioners can decide finally on the budget and tax rate.
