STOLE BRASS TO PAY TAXES

Employee of Pennsylvania Railroad at Enola Yards Charged With Theft

Enola, Pa., Nov. 14.—George Sheetz, of South Enola, was arrested yesterday morning by railroad officers, Reedy and Grove, charged with stealing brass from the railroad company. Sheetz, who is a hostler at the enginehouse in the local yards, when arrested had several dollars' worth of the metal on his person and concealed in his dinner pail.

Upon being questioned by railroad authorities, Sheetz said that he took the brass to pay the taxes on his home. Later in the day a search of his home was made and more than 150 pounds of brass was found. He was held under \$1,000 bail to await further trial.

This is the second roundup by the railroad police of men charged with stealing brass. Last summer a band of about five were arrested and sent to jail on a similar charge. The brass is taken from the piles near the enginehouse and, according to railroad officials, it sells for about 22 cents a pound.

CITY PURSE OPENS TO Y. M. C. A. FUND

[Continued from First Page.]

What Roosevelt and Taft Think of Y. M. C. A. War Work

Ex-President Roosevelt says "What the Y. M. C. A. has been doing in Europe has been really remarkable; and now our citizens should aid them to do work of the same type for our own troops."

Ex-President Taft says: "We should feel proud of the Y. M. C. A. work so ably directed. Are we going to be backward in saving our men the nearest thing they get to a Christian home on the firing line?"

Including contributions of girls, and of Harrisburg Academy), \$1,492. The county was unable to report, but said that from the present outlook \$12,000 was assured. Men at the P. H. R. Y. M. C. A. and other employees contributed \$499; and a pledge of \$125 was received from the P. H. R. Y. M. C. A. The industrial committee reported contributions and pledges amounting to \$2,534.

Among the reports from the towns of Dauphin county was one from Pillow, which, with a quota of \$70, contributed \$140. Loyaltown, with a quota of \$20, contributed \$75. A United Brethren Sunday school, in Millin township, with forty-one members, contributed \$54.50.

Indignation ran high when a note was read from a man. The notation on the pledge card was: "The soldiers have plenty and are well paid."

It developed during the discussion which followed, that a number of the other campaigners had been similarly treated by persons upon whom they had called for contributions. Angry demands were made for the names of those who had displayed pro-German sentiments, but Mayor Bowman decided that it would be best to have members of the committee call upon them, explain fully the Y. M. C. A. movement and to get full information concerning their loyalty to the government. It is altogether likely that within a day or two a list of persons guilty of having displayed disloyalty to the United States will be given to the newspapers for publication and turned over to the secret service for such action as the federal authorities may deem fit.

If you are accosted by a soldier in uniform when you leave your favorite playhouse or moving picture theater, do not be surprised for it is the result of the Y. M. C. A. work found theater committee's activities. The committee reported that soldiers will meet theatergoers at the doors as they leave the house, soliciting subscriptions and contributions to the Y. M. C. A. fund.

In the reports of the team captains, many interesting stories of self-sacrifice were given by these captains. One of the team captains met a woman who gave him twenty cents. As he was leaving the house, she called him back and told him if he'd return the twenty cents, she'd give him a half dollar. The woman was very poor and her "widow's mite" was all she had. Another team captain told how a woman came running to meet him and gave him ten dollars as her contribution. She said she had been waiting for two days. The illustrations were but examples of the willingness and eagerness of the people of Harrisburg and Dauphin county, to give their money to the Y. M. C. A. and Y. W. C. A.

Forty children of the North Harrisburg Free Kindergarten gave \$5.98. This money was in pennies and represented the savings of months. A contribution of \$370.75 was received from the Harrisburg Railways Company and its employees. The Winters-Schwarz Corporation gave \$200 and the Moorhead Knitting Company \$200.

An interesting story of combination of circumstances was told by one team captain who said that he had opened work on the thirteenth, and the first number he visited was 1013. He got a contribution from a 12-day-quarter, but nearest to 13 he could get. His team raised \$2,000.

Students of the various high schools of the public schools were the recipients of the money. Noteworthy contributions were made by students of the Harrisburg Academy, who gave \$270.

Certain of Success met a E. J. Stackpole, chairman of the district committee, comprising Dauphin and nine other counties, made this statement to the press: "We have been greatly encouraged by the generous co-operation of men, women and children all over the district. The response indicates the widespread interest in this great work and I have no doubt whatever that the district will contribute its full share of more to the \$35,000,000 fund. Those who investigate the nature of this work and its importance need no further argument to persuade them to give to the limit of their ability. The testimony of the soldiers themselves is convincing evidence of the need of these activities in the camp and on the fighting line. Surely those who are back home will not fail in their duty at this time."

Workers Enthusiastic "It isn't work; it's play," protested one team captain in telling of his part in the campaign. "I never saw the opportunity of seeing money flow in so rapidly as it is flowing from Harrisburg purses to the fund." Workers and givers alike were enthusiastic over the bright outlook for the campaign. The first day's results were so fine that team captains went to work with renewed enthusiasm.

"Wag" Hoffman, the well-known newsboy who is now in business for himself, has maintained his reputation for patriotism by giving a very early bond for the war work fund of the Y. M. C. A. "Wag" was one of the first subscribers to the fund. He has taken part in every public movement since that time.

Many people of very limited means are giving generously to the fund. Families with boys at the front are particularly interested in the work and all who believe in maintaining and awakening to the importance of the Y. M. C. A.'s big job.

Boys Help Fund The loyal campaign committee under the direction of Arch H. Dinsmore, estimated a total subscription in their district of \$1,492. The contributions were received from schools: Harrisburg Academy, \$378.36; Technical High school, \$200; Continuation school, \$140.

At the Academy enthusiasm has reached a high point. The two schools, the Continuation and the Technical, have organized an interclass contest and each class is endeavoring to outcontribute the other.

School Children Eager to Aid Y. M. C. A. War Fund

School children and teachers are eager to contribute their mites to the Y. M. C. A. War Work Fund. City Superintendent E. D. Downes has been pushing the campaign in the various schools, and personally spoke to the children of the grammar school of the city.

The proposition of earning the money for their contributions, appeals to the children. Boys are anxious to show their earning powers, and many of the girls are ready to pledge, promising to earn ten dollars for the fund. School children have already contributed \$483. This total does not include the contributions by students of the Continuation School, or the Academy. The grand total of school contributions is \$1,492.

This is a fine way of teaching the children the value of money. Superintendent Downes this morning, "They learn that they must make some sacrifice. That is the reason why we don't want them to take contributions from parents. These parents are the ones who are making the sacrifice, when they make a sacrifice, feel that they have a part in the Y. M. C. A. War Work Fund."

President Endorses Y. M. C. A. Drive

President Wilson has given the great Y. M. C. A. War Fund campaign the following endorsement: "The \$35,000,000 which the Y. M. C. A. has inaugurated is of vital importance to the work of increasing the efficiency of our citizen army. It is fundamental to making morale the basis of military morale, and should engage the generous sympathy of all citizens. It is a practical and complete success."

Extreme Cold Weather Would Exhaust Entire Coal Supply, Says Dealer

The opinion of John H. Gates, coal dealer, is that the coal supply would be exhausted within six days, rather than the other coal dealers of Harrisburg but would most of them pretty much the same notion. "Unless the coal supply is conserved, it will be exhausted within six days, rather than the other coal dealers of Harrisburg but would most of them pretty much the same notion. "Unless the coal supply is conserved, it will be exhausted within six days, rather than the other coal dealers of Harrisburg but would most of them pretty much the same notion."

Great Drive For Red Cross to Open in City Next Month

The Harrisburg district of the Red Cross Society must secure 26,000 new members by a Christmas time, if the district hopes to hold the pace set for it by the national organization. A drive for ten million members will be opened December 17, and will continue until Christmas eve.

The national society of the Red Cross will open "a drive to increase the membership" to 15,000,000 members by December 17. The total membership of the American Red Cross at present is 5,000,000 and 10,000,000 members must be secured for the society to reach its goal.
