

DISSOLUTION OF READING ASKED IN U. S. COURT

Government's Suit Against Alleged Coal Trust Up For Reargument Today

Washington, Nov. 20.—The second and last of the government's suits against the alleged anthracite coal trust was heard in the Supreme Court to-day when proceedings brought to compel the dissolution of the Reading company, a holding corporation, and affiliated railroad and coal companies were called for re-argument.

As the arguments were practically repetitions of those made by both sides when the case was heard last, the usual period of three hours was granted by the court. A similar suit against the Lehigh Valley Railroad Company was re-argued last month.

Coughs, Colds, Lumbago, Sore Throat Vanish When GINGEROLE Is Applied

Hacking coughs; colds in the chest; terrible backache or headaches will speedily disappear if you just rub on GINGEROLE. Don't worry about lumbago, sore muscles, lameness or stiff neck; GINGEROLE brings relief in just a few minutes.

By reason of thorough distribution with the drug trade in the United States and lower selling costs, reduced prices are now possible for

HARD FIGHTING TO HOLD PIAVE LINE

[Continued from First Page]

apparently on the outcome of the desperate battle now in progress between the Piave and Brenta rivers. The Austro-Germans are attacking heavily and are advancing against the stout resistance of the Italians.

The Austro-Germans are exerting very strong pressure here and are reported to have brought up Austrian troops from the eastern front and to have transferred General Von Beulow's Army to this sector.

At the present time the Austro-Germans have not yet reached the Italian fighting zone and from Italian headquarters it is announced that these troops could be used to drive a wedge between the Italians in the region of Asiago and those along the Piave. Monte Tomba is on the western side of the Piave six miles northwest of Vidon.

The Austro-Germans have checked the pressure here and are reported to have brought up Austrian troops from the eastern front and to have transferred General Von Beulow's Army to this sector.

RAILROAD NEWS

READING KEEPS ENGINES BUSY

Motive Power Capacity Exhausted on Sunday; Shops Working Day and Night

Every available locomotive employed in the handling of freight and coal was pressed into the service on the Philadelphia and Reading railroads Saturday and Sunday. As a result more than 18,000 cars were handled. During the forty-eight hours about 2,500 cars of anthracite were brought down from the mines and at least 200 cars of bituminous from the Clearfield region. It was assigned to different points.

On the Lebanon Valley the crews brought down 2,541 loaded cars from Rutherford and hauled nearly 1,400 east over the East Penn. There were seventy-eight trains out of St. Clair and Tamaqua on Sunday. Of the vast volume of freight brought in from the valley and from the north nearly 5,000 cars were taken south, destined for Port Richmond, Port Reading and other points. Some of the trains on the Lebanon Valley were double-headed.

Reading Railway shops here have assembled enough material for ten freight engines and five passenger engines of the large Pacific type and will turn them out in a short time. Repair work on the company's cars is also progressing rapidly and of the thousands of cars the company owns, only three per cent is idle at present because of need of repairs. The only drawback to repairs at present is lack of lumber from the South.

The new 100-foot turntable at the new roundhouse is finished and the tracks to the roundhouse are nearing completion. The turntable is worked by electric power.

Railroad men are receiving many complaints regarding the empty coal yards here and the small shipments to local retailers. The Reading is handling 1,400 to 1,500 cars of anthracite a day, most of it going through Reading, but very little stays here.

Engines Doing Extra Duty; Few on Regular Runs

Due to the scarcity of passenger engines because of heavy traffic, the Pennsylvania is making some of the big locomotives work overtime. On several occasions engines have been run from Reading to Philadelphia, Philadelphia to Reading, and Reading to Philadelphia.

A general exodus of Americans from Petrograd and Moscow by way of Siberia has been arranged for the next few days.

Minister Morris is the only foreign diplomatic representative here who has had anything except the most scattered reports since the beginning of the present situation in Russia. At the outbreak of the trouble there he sent instructions to all possible points that he kept informed fully with a result that the British and Russian legations here have been almost wholly dependent upon him for knowledge of events in Russia.

Harrisburg contributed 363 passengers to the special excursion to Philadelphia on Sunday over the Philadelphia and Reading railway.

August Hess has been made assistant yardmaster at Reading, succeeding Robert E. Dine, promoted to chief engineer.

Rufus P. Huff, promoted from night to day yardmaster of the Reading railway, in Reading, has been in the company's employ thirty-six years.

The middle division telegraph department is advertising the second and third trick at Frankstown paying \$80.15 and the second trick at Eldorado paying \$76.95. The No. 9 relief trick is also on the boards paying \$36.50 with two days' vacation each month with pay.

The Philadelphia and Reading Railway Company has awarded a contract to the Belmont Iron Works covering the rebuilding and erecting of five signal bridges and the alterations, moving and re-erection of three existing signal bridges in connection with signaling between the Delaware river and Skilman, on the New York branch. The same firm is to erect two signal bridges at Norris-town Junction.

BACK TO WORK AFTER 10 WEEKS LAY OFF

Now Hard to Realize He Ever Had a Sick Day

"I had nervous stomach trouble so says M. M. Helster, a well-known carpenter, who lives at 1527 Mulberry street, Reading, Pa. "I was in an awful condition and was getting so bad that I had to be forever laying off trying to get rested up.

"I had been down and out for ten weeks when I read in the paper where a friend of mine, Dan Adams, had been helped by Tanlac and that heartened me up so that I started taking it myself.

"I began to feel better right away and I have been getting better and stronger until now I don't feel as if I had ever been sick.

"My wife got to taking it, too, when she saw how good it was doing me and it has spruced her up a lot too and we both are glad to recommend it.

Tanlac, the famous reconstructive tonic, is now being introduced here at Gorgas' Drug store, who have secured the exclusive sale of this master medicine in Harrisburg.

DISTRICT 'OVER THE TOP' IN Y.M.C.A. DRIVE

[Continued from First Page]

one little country town, a Sunday school struggling with the present cost of supplies, gave \$50 from the treasury, and members of the school gave large individual contributions.

Counties Forge Ahead

Increases in allotments began turning up last night. Fox county with a quota of \$20,000, reported \$38,000; Perry, with a quota of \$5,000, reported \$7,526.50, and Milfill with an allotment of \$10,000 reported \$11,200 "with more to come."

Cumberland county has secured \$14,192 and promises to pass the coal of 5,000 tons. Franklin has 9,000; and Lebanon will pass its \$15,000 goal easily. Lancaster county has its \$40,000 "and then some," said the local officials.

Need for the increased subscriptions and allotments was the trend of a message from C. C. Michener, state executive, to the local officers. Mr. Reeves, of the local organization, as follows:

"As we come to the home stretch of this most remarkable campaign, I wish on behalf of the executive committee of the National War Council, to express our hearty congratulations to the workers in your field for their profound appreciation of the really patriotic service rendered and hearty congratulations to the notable results already achieved.

"When we go over the top, twenty-five million men and the record is set through the world, it will be more than any other thing to quicken the spirit of grateful patriotism in our own land, to assure the men who represent us in the camps, at home and in the camps, trenches and warships overseas that we are absolutely behind them, and with them; to hearten our own men in Russia, Italy, Belgium and Britain, and to cheer the six million united prisoners.

"The men who put forth a united and supreme effort to win the war, in the hour, not only to reach the goal, but also to sweep as far beyond it as possible, the psychological and moral effect of going away with our original goal will be very great. Moreover, let me point out that the devotion of our own men to the war was adopted more than a year ago. It is essential that we have a far larger sum available."

Give Money

Announcement of contributions from the churches was made this morning by Al. K. Thomas, chairman of the Y.M.C.A. drive. The church members have been exceptionally generous is shown by his report which follows:

Table listing church contributions: St. Paul's Methodist Episcopal Church, \$8.75; First United Brethren, \$20.00; Derry Street United Brethren, \$47.00; Otterbein, \$56.00; Fifth Street Methodist Episcopal, \$7.00; Ridge from Methodist Episcopal, \$15.00; St. Paul's Methodist Episcopal, \$7.00; Stevens Memorial M. E. Church, \$20.00; M. E. Sunday school, \$73.02; Fourth Street Church of God, \$9.71; Pleasant Street Church of God, \$14.00; Great Street Church of God, \$12.75; MacLay Street Church of God, \$12.75; Park Street United Evangelical, \$21.00; Harrisburg Presbyterian, \$17.00; Olivet Presbyterian, \$10.00; Market Square Presbyterian, \$32.75; Bible class, \$10.00; Pleasant Presbyterian, \$23.00; Calvary, \$20.00; Fourth Reformed, \$46.00; Total, \$561.38

Placed With Boys

Supplementing the figures for the boys' fund, the following statement was given to the committee this morning by A. H. Dinmore, boys' campaign director for the sixth Pennsylvania district:

"The response to the boys' campaign in the Harrisburg district are greatly satisfactory to all of us. The fact that boys subscribed so large an amount in view of the quota of our district is a fine testimonial to the type of boyhood being reared in this section of Pennsylvania. It has been a pleasure to have a part in such a campaign, to be associated with such men and boys and in so great and good a work. It has been a big undertaking but an enjoyable one. Due to the fine co-operation received from men and boys throughout the district, we have emerged from the campaign with an enjoyable record in the achievement of the boys. The success of the drive is due to just one cause—the boys themselves.

ASKS WOMEN TO REGISTER NOW

Mrs. Chamberlin Reiterates Her Declaration That Harrisburgers Are Unpatriotic

"Are YOU A Patriotic Woman?"

The United States Government is putting that question to YOU—and to all women in Pennsylvania—and has provided a simple way by which you may answer it.

You merely register your name as first proof of your patriotism. Registration signifies that YOU are willing to give patriotic service while the country is at war. Patriotic service means doing useful work.

Registration is voluntary—Women will not be drafted into service. And signing-up does NOT bind you for work. It simply indicates to the Government that you are willing to consider engaging in some useful occupation of YOUR OWN SELECTION and that you want to be kept informed of all such working opportunities. Then it will be for YOU to decide whether you want to take a job.

Register to-day is your patriotic duty.

"Harrisburg women are unpatriotic almost to the point of being disloyal," reiterated Mrs. James I. Chamberlain, chairman of the committee in charge of Dauphin county's registration of women, this morning. "To paraphrase Nelson's famous saying, 'America expects every woman to do her duty' and the only way to find who can do her duty, is to have a list of the available woman-power of the nation. Perhaps you are serving your country best in your own home, but register so that we can know you are doing your part."

"I have been receiving phone calls from school teachers in various towns, saying that they don't want to register because they'll lose their jobs, and that they are afraid the Government will draft them into actual service for the nation. A school teacher, as well as a mother, is doing the best service for the nation anyone can do, and no woman will be drafted. The Government has made this solemn promise, and Mrs. Brumbaugh pouring assisted by members of the committee and a number of the younger girls.

The Civic Club is located at the intersection of Front and a large streets on the river bank, and a large Red Cross flag will mark the place so that no one can miss it. No invitations have been sent out for this meeting and all women relatives not only of the men of the Government's Troop, but all men in the service will be heartily welcomed.

Promotion For Local Man Now Doing Special Duty

Clyde Corke, who for some time has been foreman in charge of car inspector forces at the Pennsylvania railroad station, tied up at promotion. He is now on special duty with headquarters at Altoona. Mr. Corke travels over the division and keeps in touch with all car troubles.

Shreiner Awaits Government Word

Superintendent George A. Shreiner, of the Board of Public Grounds and Buildings, to-day said that he was awaiting word from the Government regarding the proposition to use the Capitol Park Extension tract for military purposes.

"As yet no formal proposition has been made, but we will be ready to consider it," said he. "I have heard of this project from a number of sources and it will, of course, be a matter for the board."

Chemicals Caused Fire on U. S. Transport

An Atlantic Port, Nov. 20.—Chemicals used for fumigation purposes are believed to have caused a fire on a United States transport, tied up at her pier here early to-day. The vessel had been sealed for the fumigation and no one was on board when the blaze was discovered.

Fifth Class in Ordnance to Open at State College

State College, Pa., Nov. 20.—The fifth class in ordnance stores keeping, established at the Pennsylvania State College by the War Department, will begin December 12, continuing for six weeks. Forty men will be admitted to the course, which will be conducted by the department of industrial engineering.

Upon completion of the work here the students will be sent to a government arsenal for a similar period of training. After they have learned something of the Army's method of handling ordnance supplies, the men are ranked according to the ability of the individual. Virtually every man is made a noncommissioned officer, and some of the students have been commissioned in this way.

The government has detailed to State College Sergeant E. L. Mack, from the ordnance department. He is giving instruction in the proper way to make out ordnance forms and directs other training along military lines. To take the course a man must be either a college graduate or must have sufficient practical experience in commercial or industrial lines in accounting and storekeeping.

Some of the subjects taught are: scientific management, purchasing, accounting, conversational French, military drill and inspecting.

Shortage of Farm Labor Now Serious

County reports showing that shortage of farm labor would materially cut down the corn and potato yields of Berks, Chester, Delaware, Montgomery and even Lancaster counties were made public to-day by the State Department of Agriculture. In other counties not only corn is being lost because of lack of hands to husk it, but potatoes are being left in the earth and rotting on trees.

The Berks report was that a considerable portion of the corn crop was very late in being taken in and that the lack of hands had reversed the increase of acreage in wheat and rye; Lancaster, that the farm labor situation had made the wheat very late and that men were badly needed to get in corn; Montgomery, Chester and Delaware, that industrial and military demands had taken away hands to such an extent that crops were in danger because of lateness of season, while one report from Bradford and Lackawanna counties reported farmers unable to get in potatoes because of shortage of labor and conditions in Clearfield, Butler and Beaver were blamed for failure to increase acreage devoted to grain.

Shreiner Awaits Government Word

Superintendent George A. Shreiner, of the Board of Public Grounds and Buildings, to-day said that he was awaiting word from the Government regarding the proposition to use the Capitol Park Extension tract for military purposes.

"As yet no formal proposition has been made, but we will be ready to consider it," said he. "I have heard of this project from a number of sources and it will, of course, be a matter for the board."

An Atlantic Port, Nov. 20.—Chemicals used for fumigation purposes are believed to have caused a fire on a United States transport, tied up at her pier here early to-day. The vessel had been sealed for the fumigation and no one was on board when the blaze was discovered.

UNION DISCUSSES LABOR SUPPLY TO MEET WAR NEEDS

A. F. of L. Defeats Pacifist Sentiment; Gompers Triumphant in War Fight

Buffalo, N. Y., Nov. 20.—The overwhelming defeat of the pacifists by supporters of President Samuel Gompers at the annual convention of the American Federation of Labor, was followed to-day by the rapid disposal of many important resolutions upon which the anti-war party had been expected to show fight.

Resolutions relating to labor supply to meet war conditions were adopted with brief debate. The creation of an emergency supply commission connected with the federal department of labor, provided for in a resolution offered by a western delegate, and the report of the executive council on the proposed distribution of labor were covered jointly in a report from the resolution committee.

The committee recommended that the incoming executive committee take up with the presidents of all affiliated organizations and the proper government officials any question that may arise in connection with labor supply during the war.

A Socialist delegate declared that this was another effort "to tie the hands of labor," but Vice-President Duncan, chairman of the committee, replied that it involved no binding bargain, merely providing for the "face to face" conference that all laboring men should have with labor and the country.

The report of the committee was adopted unanimously.

TO ELECT OFFICERS

Members of Company B, of the Harrisburg Reserves, will have an election to-night for a second lieutenant to succeed C. A. Burnett, who became a member of the Officers Training Corps.

FALLS THIRTY-FIVE FEET

Harry Lowe, employed by the American Telephone Company, is in the hospital suffering with a fractured ankle and elbow. He was at work in East Waterford when the accident occurred. He evidently lost his hold, and fell thirty-five feet from a pole.

IS IT A CURE FOR ASTHMA

Simple Prescription Gives Instant Relief, Makes Breathing Easy.

In New England, where Asthma, Bronchitis and other diseases of the throat and lungs are so prevalent, remarkably successful results are being reported following the use of a new form of treatment known as Oxidaze, a physician's prescription.

Oxidaze is a harmless but powerful combination of curative agents concentrated and compressed into a small tablet. One of these tablets slowly dissolved in the mouth before going to bed seems to have the effect of releasing the muscular constriction of the bronchial tubes, opening up the air passages and regulating spasmodic lung action. This enables the patient to breathe easily and naturally while lying down and to sleep a good night's sleep.

So much interest has been shown that local druggists, including Geo. A. Gorgas, have secured a small supply and state that they are authorized to refund the money paid for the first package if in any case this new treatment fails to give relief. Oxidaze is pleasant to take, contains no harmful, habit-forming drugs and is not expensive. This makes their test an easy matter.

These cars furnish as nearly the comforts of the home as it is possible to obtain—and we might say they are very much more exhilarating.

These PARTICULAR cars are easy for a woman to drive.

They "operate" easily and ride smoothly.

When may we have the opportunity to demonstrate one of these cars to you?
