

# HOW THE NATION WILL BE DIVIDED AFTER THE WAR

### Bible Teacher Believes Russia May Join Forces With Kaiser

"Russia, sooner or later, must withdraw from the Allies, and it is far from improbable that she will be found in some kind of federation with Germany," said Dr. J. M. Gray in his Bible lecture before a conference whose sessions have been held this week in the Second Baptist Church.

"This war," he said, "is not the battle of Armageddon mentioned in the Bible, as many people suppose, because it is not in the right location, it has not the right objective, and it does not represent the right alignment of the nations."

"The nations which will be the aggressors in the battle of Armageddon are those of the old Roman empire, which according to the Bible, 'extended from the Bosphorus on the east to the British isles on the west, but did not include Russia or Germany, except that narrow strip of territory west of the Rhine. Neither did it include the whole of Austria-Hungary as at present, nor the Emerald Isle.'"

Dr. Gray said a student of prophecy ought not to assume the role of a prophet, and therefore, in speaking of the realignment of the nations likely to follow this war, he was only giving his opinion, "but it seems to me" said he, "that Russia, sooner or later, must withdraw from the Allies as they were part of the Roman Empire and she was not. It is far from improbable that she should be federated with Germany in some way, because Germany was not of that Empire except west of the Rhine. Does this look as though Germany would lose that part of her territory," asked Dr. Gray.

"And the same question may be asked concerning a division of Austria-Hungary for the same reason. Turkey also will lose Palestine and other of her possessions that belonged to the Caesars, and in strict interpretation of the same principle would mean that Ireland is to get home."

The Second Coming of Christ, in Dr. Gray's judgment does not await these events. "That coming," said he, "is like a drama of two acts, or an act of two scenes. There is a coming of Christ into the air where His faithful Church will be caught up to meet Him, and then after an interval, a coming of Christ to His saints and His holy angels in judgment upon the living nations, not one of which is ruling, or is being ruled, in subjection to Him or obedience to His will. This latter aspect of His coming is at the time of Armageddon when the Roman nations will be once more besieging Jerusalem, and when Christ will appear for the deliverance of the Jews out of their hands."

The possibly near coming of Christ for His church led Dr. Gray to earnestly exhort Christians to holy living and especially to the spirit of evangelism for the saving of the lost. The conference closes to-day with meetings at 8:30 and 7:45. The attendance has been large, that at the evening meeting more than filling the church, including even the pulpit steps and chairs, and not a few people, women as well as men, have stood during the whole service.

## Chance to Win Officers' Stripes Open to Young Men in Balloon Service

The usefulness of the "kite" or stationary balloon is not generally known. One familiar with its employment says that at the balloon schools an applicant for officers' commission must first qualify as a pilot of spherical balloons. Then they are taught to become pilots and observers in the "kite" balloons. This balloon is allowed to ascend to a height of about 3000 feet with a wire attached to it by which it is drawn down when desired by motor power.

In war, these balloons are located from three to five miles from the first line of trenches, and from the basket, two men, a pilot and an observer, give the range and results of firing by telephone to the artillery.

On the Western front, they are placed from one-half to a mile apart according to conditions, and are provided with parachutes attached to the men in the basket, in event of accident to the balloon, the men parachute safely to the earth. Applicants must be citizens of the United States, not under 19 years of age or over 35. Must have a good education and three letters of recommendation.

After passing the examination required the applicant is enlisted as a first class private in the Aviation Section of the Signal, Enlisted Reserve Corps, and assigned to a school for training, the time of training depends upon the man's ability. If he qualifies as an observation Balloon Pilot a Lieutenant's commission is issued.

From the time of his entrance into the school until he is commissioned he receives \$100 per month, quarters and food allowance. A Second Lieutenant \$1700, Lieutenant \$2000 annually.

Requests for application blanks should be made to the President Aviation Examining Board, Fort Omaha, Nebraska.

## TROUBLES NEARLY DROVE HIM CRAZY

P. R. R. Machinist Tried Remedy After Remedy in Vain Search For Relief

TANLAC AIDS HIM AT ONCE

"If there ever was a wonderful remedy it is Tanlac," says George C. Smith, of 1947 North street, Harrisburg, Pa., "for it helped me after doctors and other medicines had failed to give me the relief I longed for."

"I had a sort of eczema all over my face and body and it itched so that I almost drove me crazy and I couldn't find anything that gave me the slightest relief."

"Doctors told me that it was caused by the oils from the machinery as I was working as a machinist in the P. R. R. Shops, so I quit my job and got on a street car, but the itching didn't get any better and I was almost insane from the torture."

"Then one day I decided I'd take a crack at Tanlac and see what that would do, for I'd heard a lot of wonderful reports about it and I sort of had a hunch."

"Well sir, believe me, it did the work. The second dose brought relief and it was only a matter of days until my skin was all healed up, the itching stopped and the eczema gone entirely."

"No other medicine could ever give me relief from the itching but Tanlac quickly freed me from the whole trouble. I can't begin to praise it strong enough."

Tanlac, the famous reconstructive tonic, is now being introduced here at Gorgas' Drug Store where the Tanlac man is meeting the people and explaining the merits of this master medicine.—Adv.
