

COUNCIL IN NO HURRY TO SETTLE REFUSE PROBLEM

Commissioners Will Let Matter Hang Over For Another Week

No recommendation will be made to Council to-morrow for the award of a contract for garbage collection and disposal when the present contract expires at the end of next month, Commissioner Morgenthaler said today.

Commissioner Morgenthaler has started an estimate of the cost of municipal ash and rubbish collection and will in all probability submit the figures with his part of the annual budget.

In connection with garbage disposal the American City, in the December issue published, has an interesting report on various methods of disposal, written by J. P. Schroeder, of the Bureau of Sanitation, Washington.

Various city departments to-day were busy completing budget estimates for 1918 and probably will be acted upon in a few days.

TRAFFIC OFFICER RECOVERS HEALTH

"Tanlac is certainly the finest remedy on the market for stomach troubles," says Harry J. Winover, the well-known and popular traffic officer stationed at Queen and Chestnut streets, Lancaster, Pa., "for it pulled me back to health when I was in mighty bad shape and did quick work."

When seen at his home, 27 W. Charlotte street, Officer Winover said, "My stomach was in terrible shape, nothing I ate agreed with me and many times when I tried to eat I would gag and vomit everything up again."

"I became interested in Tanlac first because so many people asked me to direct them to the Tanlac store and there were so many of them that I got the idea it would help me. I asked a lot of people about it and what he told me was so convincing that I started taking this remarkable medicine."

"Now I am hungry for breakfast when I get up. I can eat and enjoy my meals. I sleep fine and wake up fresh and rested and full of energy and ambition."

"Tanlac has done wonders for me and I shall recommend it at every opportunity."

UPPER END SENDS AVIATION UNIT TO U. S. ARMY

Husky Lads From Coal Mines Eager to Get Chance at Hun

One of the best companies of fighting men seen in Harrisburg since American joined the war, alighted at the Pennsylvania station this morning from the upper end of Dauphin county, thirty-seven strong, snapping-eyed coal miners whose homes are in the famous Lykens Valley.

A mighty roar of laughing response shook the husky miners who alone of the frost bitten crowd, minded not one whit the zero blasts. "Here's the man that dug us up, all in three days." They thrust forward A. G. Buffington, a rugged, tall man vitalized with high power energy.

The roster as it lined up this morning at the recruiting headquarters in Market Street where each man went through physical examination included the following: George Allen Row, Roy Cletus Long, Frank Elmer Miller, David R. Rosenthal, Harry Allen Bowman, Earl A. Wert, Howard B. Troutman, Robert W. Moss, Andrew Mekalko, Jonas Harper Shire, et al.

All of these are to become flying men, being first shipped to Columbus, Ohio, and then to Vasco, Texas. Three will go into other services, Dr. Barto, to the medical; Hart, to the cavalry; and Flynn, to the artillery.

TO HOLD SCOUT RALLY. Boy Scouts of the city will participate in a rally to be held in the City Grays Armory this evening. Scout Executive Harry Allen Bowman presides over monthly rallies during the winter. Music, addresses, contests of skill in drill, and a parade are features of the program.

EMBEZZLEMENT CHARGED. Frank C. Cameron, a steward at the Engineers' Club, was arrested yesterday, charged with embezzlement. He was released on bail to await a hearing.

BIG CHRISTMAS FUNDS RELEASED

Three-Quarters of a Million Dollars Released For Holidays

In the midst of the greatest war the world has ever seen the Harrisburg banks report that a record savings will be registered this Christmas season by the people of this city and nearby towns.

Local Red Cross workers were elated to receive, this morning, a letter of commendation from L. Cox, superintendent of Department 3, Pennsylvania. After five weeks of careful inspection of every knitted garment, said Mrs. Cox, "We have found your work of such excellence that we authorize your own inspection." Inspectors of the knitted garments will be appointed by the officers of the organization.

Union Trust has paid out in seven years a total of \$1,700,000. There is plenty of testimony that these savings funds are by far the most popular method of economy in the country. The average family like forty per cent. would fall out before the year was up. The percentage has decreased. The favorite classes this year were the "straight" ones which permit a deposit of from 25 cents to \$2. Banking men do not ascribe this thrift to the fact that they have been educated to do so, even rich persons. So appreciative are many of the thirty ones that they have been coming persons in this holiday season to thank the bank managers for helping them to save.

The money paid out from this system means a big thing to the Harrisburg merchant and guarantee that Christmas shopping will be as lively as in other years. Insurance and coal bills are other channels through which the savings make good, but the method of saving is so secure and convenient that the banks expect to do a greater business next year.
