

Reparation For Wrongs Demanded by President Praised by Viscount Bryce

London, Jan. 10.—Viscount Bryce, former British ambassador at Washington, said today in regard to President Wilson's war aims speech: "The address is admirable in spirit and contents. Mr. Wilson rightly points out that an international combination to arrest the aggressions of ambitious sovereigns and military castes and to secure the rights of peace-loving peoples is essential to the future well being of the world. In his enumeration of objects to be secured by peace, the following points seem especially important: "His broad, clear assertion of the right of a nationality to self-determination, removal of economic barriers to trade, adequate guarantees for reductions of armaments, absolute independence for Belgium and full compensation for her wrongs, sympathetic comprehension and consideration of the present situation of Russia, and deliverance of all subject nationalities from the brutal and sanguinary rule of the Turks. "Those in great Britain who know how abominable the rule of the Turks has been, how they welcome this declaration and that recently made by the British prime minister, that the allies and the United States regard liberation of the Christian and Arab peoples of Armenia, Syria and Palestine as an essential condition of any just and durable peace."

For Catarrhal Deafness and Head Noises

Here in America there is much suffering from catarrh and head noises. American people wrongly regard the English method employed by the English to combat this insidious disease. Everyone who has suffered from the English climate is and how dampness affects those suffering from catarrh. In England they treat catarrhal deafness and head noises as a constitutional disease and use an internal remedy for it that is really very efficacious. Sufferers who could scarcely hear have had their hearing restored by this English treatment to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know someone who is troubled with catarrh, catarrhal deafness or head noises, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be easily prepared at home for a few cents and is made as follows: From your druggist obtain 1 oz. of Parment (Double Strength). Take this home and add 1/4 pint of hot water and 4 ounces of granulated sugar; stir until dissolved. Take a tablespoonful five times a day. Parment is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are usually quick and effective. Every person who has catarrh in any form should give this recipe a trial.—Advertisement.

Of this amount \$11,735,989.50 was paid to employees east of Pittsburgh. Up to December 1, 1917, a total of 10,757 pensioners have been placed on the list. Of this number 5,555 have died. Zenger.

Western Railroads to Solicit Freight Traffic

Chicago, Jan. 10.—Western railroads issued orders for a general resumption of solicitation of passenger and freight business. Executives of the roads explained that their lines are now in a position to handle more business, that the Government does not own the roads, that there is no pooling and therefore no reason why each road should not go ahead and obtain as much business as possible.

Dynamite Found in Coal Bound For Steel Mill

Lebanon, Pa., Jan. 10.—Employees of the puddle mill at the East Works of the Bethlehem Steel Company yesterday found sixteen one-pound sticks of dynamite in coal being forwarded toward the pulverizing machine at the big powder plant. While the presence of the explosive itself was regarded as a suspicious indication of a war plot, the absence of any attempt to disguise the stuff led the private police of the company to believe that it may have come from the coal mines.

CAN HEAR ENTOMBED MAN

Wilkes-Barre, Pa., Jan. 10.—Rescuers at work in the Barnum mine, where six men were entombed last Saturday, yesterday heard the faint voice of Frank Cukowski, the only one of the six still behind the fall of rock and coal. The imprisoned man is some distance away from the rescuers and he cannot possibly be reached before today. Every man that it is possible to use in the rescue has been at work night and day since the cave-in, but until yesterday it was not known whether Cukowski was dead or alive.

The home of John Tolmie, 1210 Christian street, was slightly damaged when a fire started from a defective flue. In returning from the fire, the Mt. Pleasant truck broke a chain, holding up the company for some time.

PREFER MORE CHARGES

M. B. Hughes, in the tolls on charges of swindling and false pretense, was held under an additional \$750 bail by Alderman Murray, when another alleged victim appeared against him with the charge that he had defrauded him of his earnings. With the inducement to buy stock in the Defender Tire and Rubber Com-pany, Hughes' bail is now \$3,750.
