

### SCHOOLS IN NEED OF MORE MONEY

#### Governor Also Urges Establishment of Retirement Fund and Higher Salaries

"Whenever the national government asks you to do anything I war time, do it." In these words, Governor Martin G. Brumbaugh urged children and school directors alike, to pledge their loyalty to their nation. The Governor spoke before the twenty-third annual convention of the Directors' Department of the Pennsylvania State Educational Association opened yesterday in the Technical High School building. He declared that although the state appropriation for schools has been increased, it is not yet adequate for the needs of the schools. "Go right after more; don't sit supinely for ten years before you wake up to your needs," he said. "I am in favor of the increased salary bill because when you improve the life of the teacher you put the money where it will do the most good. The money ought to go to the communities in proportion to the enterprise." The Governor stated that he was in favor of the teachers' retirement fund, too. "Have you ever contemplated what it means to a good, cultured woman, to deny herself a home for thirty years while she gives her life to her school children, and her friends are dropping off to sleep, one by one, and she is forced to ask for charity when she is unable to work? The teachers' retirement fund guarantees a sense of peace and comfort, which has been earned by many years of faithful service."

"This war has brought about a condition of things we might as well face now," the Governor continued. "This week the State Superintendent of Public Instruction and I have asked that a Junior Red Cross Auxiliary be established in every public school in the state. It ought to be done."

The Governor urged that teachers teach the things of war, beauty and service to the nation. "Let's turn ourselves into a powerful machinery for winning the war for democracy," he continued.

He paid a tribute to the boys of Pennsylvania and the nation. "Let 100,000 Pennsylvania boys are in our Army and Navy. Over half of the munitions of war being used is manufactured in Pennsylvania, Pennsylvania is the arsenal of the nation. We must preserve order and industry. Now is the time to make the schools, churches and homes better than they ever were before," he exclaimed. "We should be the schoolmaster of the civilized world."
