WORKMEN LEAVE DUNCANNON MILLS

Closing Plant of Lebanon Iron and Steel Company Causes Many to Go Elsewhere

Duncannon, Pa., Feb. 15.—Closing of the rolling mills of the local plant of the Lebanon Iron and Steel Company is working to the decided disadvantage of this town. Many workmen in the mills have gone to Erie, where they have secured employment in rolling mills, and others have expressed their intention of leaving town.

Inability to secure cars for the shipment of the finished product is the chief cause given for the shutdown. Scarcity of bituminous coal is also given as a reason. While officials of the local plant assert that the shutdown is only of a temporary nature, they have given no assurances of the time of the reopening.

GERMAN JANITOR NOT REGISTERED

People of Dallastown Will Demand Investigation of Case of Louis Rowers

Dallastown, Pa., Feb. 15.—Because Louis Bowers, a native German, and the janitor of the local High school building, has thus far refused to show papers that he has been registered, as he claims he is, and at the same time declares he will not register, residents of this borough are up in arms against the Teuton, and will no doubt demand that he be ousted from his position. Bowers claims he was registered in New York some time ago, but has been unable to produce the documents in the case. At the same time he insists that he need not register, although the proprietor of the hotel where he stays has insisted, as have others, that he comply with the regulations applying to all native unaturalized Germans.

Bowers has been living in this section at intervals during the past seven years. At times he disappears, claiming that at such times he is employed in the oyster fisheries in the Chesapeake Bay. Several months ago the janitor of the High school building quit suddenly and Bowers was placed in charge of the building. His case will be called to the attention of the Department of Justice.

President Wilson's Words Awakening Teuton Masses

Countless scraps of paper, bearing in German, Polish, Czech and Slavic the words of the far-off American President, are being furtively passed from hand to hand along the German and Austrian battle-lines and through the mines and factories of the Central Empires. The despised and ridiculed Bolsheviki, according to U. S. Senator Stone, are printing and sending into Mitteleuropa these American messages of sympathy for the Teutonic peoples under the autocratic yoke, and the circulation of these tracts may have had its part in rousing the Austrian and German people to the brief protest of the strikes of a few days ago. Berlin, at any rate, blamed America for the strikes, and sentenced two British aviators to ten years in jail for dropping the Wilsonian gospel like manna from the heavens on the wilderness of the Kaiserdom. This subject is covered in a most graphic manner in one of the leading articles in THE LITERARY DIGEST for February 16th.
