To Relieve Catarrhal Deafness and Head Noises

If you have Catarrhal Deafness or head noises go to your drugist and get 1 ounce of Farming (double strength) and add to it hot water and just a little sugar as directed in each package. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should be open, breathing becomes easier and the mucous stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial.

"HAD NERVOUS INDIGESTION Would Bloat, Was Weak"

says Mr. J. Seales, steelworker with Bethlehem Steel Co., Pa., residing on Second street, Steelton, Pa. I suffered intensely for many months with nervous indigestion, would get a gnawing, nervous feeling before meals and I thought I would faint. After eating I would bloat and my stomach would pain very much, at times I would get so weak and dizzy that I would have to sit down to keep from falling. I worried a lot as nothing seemed to help me. I saw where Sanpan was doing so much good so I gave it a trial and believe me I am as good as new. No indigestion nor dizziness, in fact have no ailments at all. Sanpan is being introduced at Keller's Drug Store, 405 Market street, Harrisburg.

Carlisle, Pa., Feb. 20.—In spite of the inclement weather a record audience filled the Carlisle Opera House last evening at a big meeting staged under the auspices of the Cumberland County Safety Committee to increase interest in the food saving campaign and to aid in the war on foodstuffs.

Delegations were here from West Shore towns, Mechanicsburg, Mount Holly Springs, Newville, Bolling Springs and Shippensburg, while several score persons from Franklin county came for the event. Lewis S. Sadler, executive manager of the State Safety Committee, was here for the event. Members of the county safety committee occupied the stage, which was arranged with palms and American beauty roses.

Judge S. B. Sadler was introduced by S. M. Goodheart, county chairman, and presided. The community chorus of 200 voices was present and sang American airs. Singing of the Belgian national anthem by Miss Dunagan, head of the music department at the Carlisle Indian school, and of "God Save the King," by Hugh R. Miller, featured the musical program.

FIREMAN CAUGHT SOUNDING ALARM

Three Members of Carlisle Company Arrested for Sending in False Alarms

Carlisle, Pa., Feb. 20.—How rivalry between firemen of the local department was responsible for a series of false alarms which caused much confusion here, injury to firemen and damage to apparatus, was disclosed to-day when formal indictments were returned against three firemen by District Attorney George Snyder, foreman, Esker Sharpe and Sylvan Clay, members of the "Friendship" company.

The three men presented signed confession of their part in the alarms and implicated others. The rivalry between the four companies as to which shall get first to a blaze is keen and a number of Friendship men, tired of the scheme to fire other companies as to their late rivals, caused the arrests to be first on the scene. The arrests came after an alarm Saturday, when a man, later identified as Clay, was seen sending in the alarm and he was arrested, confessed and implicated Sharpe and Snyder. The original alarms first sent in were to the section to throw suspicion on another company. The alarms have aroused citizens and the borough council held a special meeting and ordered the cases pushed to the limit.

According to the statements, the engine was ready and turning over ready to respond at the first tap of the alarm, while a time was chosen when it was believed that the others would not be ready. There has been some agitation to move the company, which is without a regular driver, to another section and this was also partly responsible for the act. The alarms were sent in in bad weather and three firemen, including Fire Chief Brindle, were slightly injured, one engine damaged and some serious accidents narrowly prevented.
