

ONLY 35 CHANGES FOR NEW YEAR BY EVANGELICALS

Central Conference to Meet Next Year in Baltimore For 1919 Session

Jersey Shore, Pa., March 13.—The twenty-fourth annual Central Pennsylvania Conference of the United Evangelical Church came to a close yesterday with the announcement of the appointments of pastors in the five districts.

Changes in appointments were as follows: York District—The Rev. J. F. Dunlap, presiding elder, Brooklyn, A. M. Jenkins, Brandyville, E. J. Hayes, East Prospect, J. W. Walz, Felton, H. C. Guthrie, York (Christ), C. C. Boley, York (Princess Street), G. S. Albright.

Carlisle District—The Rev. W. B. Cox, presiding elder, Cumberland, F. H. Sanderson, York, M. B. Bucki, Hanover, circuit, G. L. Reesor; Helms, S. A. Snyder; Leesburg, J. E. Newcomer; Marysville, C. D. Peewer.

Center District—C. L. Sones, presiding elder, Burnham, W. J. Brown; Center Hall, J. A. Shultz; Liverpool, C. Crain; Middleburg, H. W. Lilly; Milheim, G. B. Snyder; Millin, J. R. Sechrist; Port Trevorton, F. F. Mayer; Penns Creek, J. M. Price.

Lewisburg District—The Rev. M. F. Foselman, presiding elder, Berwick (Memorial), C. L. Raffensperger; Columbia, L. A. Fuhrman; Espy, A. J. Chamberlain; Poper, E. E. Remaly; Northumberland, J. H. Furner; Ringtown, H. C. Kleff; Scranton, W. O'Donnell; Sugar Valley, F. H. Foss; Wapwallopen, C. E. Hewitt.

Williamsport District—The Rev. M. L. Jamison, presiding elder, Elkhart, L. C. Furrer; Grove, C. A. Fray; Jersey Shore, J. A. Hollenbaugh; West Milton, C. B. Shank; Wayland, F. L. Tetter; Williamsport (First), D. Gramley.

By a vote of 72 to 52 the conference voted to hold the 1919 session in Memorial Church, Baltimore.

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! See if tongue is coated, breath hot or stomach sour.

"California Syrup of Figs" can't harm tender stomach, liver, bowels.

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because it has the pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When a child is feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again.

"In the Argonne and in the Vosges the artillery fire was intermittent. The bombardment was violent in the Champagne, especially in the region of the Monts.

"In the Woevre an American detachment carried out with success a raid into the German trenches south of Rheims.

"Aviation: On March 11 three German machines were destroyed by our pilots and a fourth was damaged severely during the night of March 11-12 three enemy bombing airplanes were brought down by the fire of our anti-aircraft guns."

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur?

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied.

You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

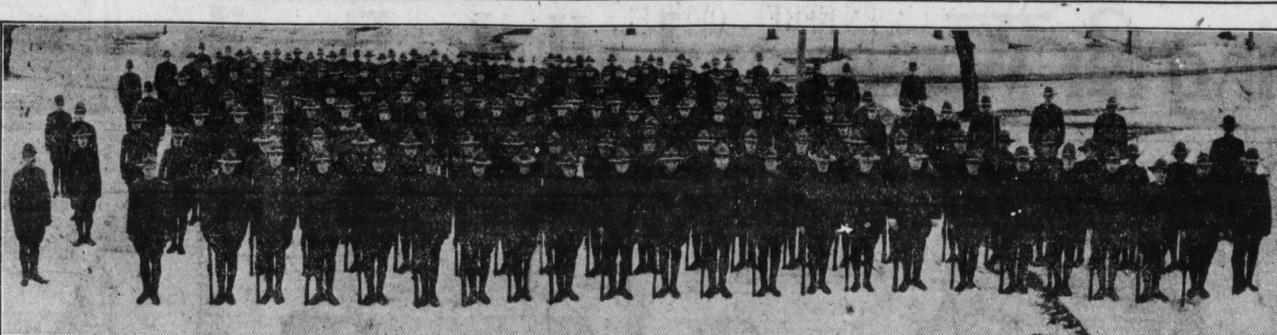

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.—Adv.

Lungs Are Weakened By Hard Colds

The old family remedy—in tablet form—safe, sure, easy to take. No opiates—no unpleasant after effects. Cures colds in 24 hours—Grip in 3 days. Money back if it fails. Get the genuine box with Hill's picture on it. 24 Tablets for 25c. At Any Drug Store.

RAIDS IN WOEVRE CAUSE NEW ALARM

[Continued from First Page.]

sector, General Pershing's men penetrated to the second German line in a raid Tuesday. Casualties were inflicted on the enemy by shell and rifle fire.

The raids in this sector began Saturday and probably are in answer to German activities which had indicated the enemy was preparing for a movement against the American lines. The artillery activity on this sector has been most intense, the American gunners causing fires and explosions behind the enemy lines.

The American troops east of Luneville in Lorraine, which places them very near the Franco-German border, went into the German positions Monday and found that the enemy had not yet returned to the trenches he evacuated the day before. Despite German artillery fire against them the raiders came back to their own lines without a casualty.

On the line between Armentieres and La Bassée, which has not changed in eighteen months, the Germans continue their powerful raids. Their latest effort was made against Portuguese positions near Laventie. The Germans were checked by machine gun fire which caused heavy casualties and left prisoners in the hands of the Portuguese. British troops repulsed small raids in the Ypres area, where the enemy artillery fire is intense. On the French front the bombardment has been most violent in Champagne, especially east of Rheims.

In aerial fighting French and British machines have accounted for twenty-one enemy airplanes, while French gunners have destroyed three others. In addition to attacking military targets close behind the German lines, British airmen have bombed the city of Coblenz, on the Rhine, in daylight. A ton of bombs was dropped, causing two fires and a violent explosion.

On the two raids mentioned as having been carried out simultaneously took place.

Certain information obtained in the American sector northwest of Fontenoy leads to the conclusion that the American raid there this morning came at such a time as to cause the Germans to abandon plans of their own for a raid. Normal artillery fighting continues in this sector, shells falling on towns on both sides of the line. At one place the Germans used mustard gas, a small number of Americans walked through the gas later.

Last night an American patrol brought in an enemy sniper's camouflage suit, made of woven brownish colored grass, the same shade as the landscape. There was the usual work of patrols in No Man's Land during the night, but no encounters have been reported.

Conditions were excellent to-day for flying, and many hostile and friendly planes were in the air. In virtually every allied plane there was an American observer. Once or twice the American went close enough to the Germans to try their machine guns, but without result. One plane in which there was an American went far back of the enemy lines. It was the target for hundreds of enemy shells, which seemed to burst all around it. On returning, the American admitted that he was pretty thick, but he was unharmed.

COMMITTEE FAILS TO AGREE ON OVERMAN BILL

Washington, March 13.—Another attempt to get the Senate Judiciary Committee in agreement on the overman bill to empower the President to consolidate and co-ordinate executive departments, failed to-day, and the meeting broke up in a deadlock.

Chairman Overman announced he would attempt to force a vote Friday.

Senator Chamberlain, sponsor of the bill, probably will not oppose it, and was said to favor giving the President greater powers than the bill proposes.

BOYS' EASTER SUITS

- Ages 2 to 18 years
Trench Models—Belt All around—Buckle and Slash Pockets
1 and 2 pair Pants—Any Color desired—1000 Suits to Choose From.

BOYS' TOP COATS

- Ages, 1 to 8 years
Plaids and Solid Colors, \$3.00 Value.
Special-- Thursday, Friday and Saturday

Special Reductions in Our Skirt and Waist Departments

For Thursday, Friday and Saturday
Washington, March 13.—Chairman George Creel, of the Committee on Public Information, sent a written protest to-day to President Wilson against the War Department's new policy of withholding the addresses of soldiers in giving out casualty lists.

Tugs Come to Assistance of Steamer Kershaw as Vessel Grounds on Bar

An Atlantic Port, March 13.—The passenger steamer Kershaw, with 151 persons aboard, of whom 121 are passengers, went aground in a heavy fog at midnight on the coast east of this port and at noon to-day was in a position not considered dangerous, about a mile off shore and inside a sand bar. The vessel, 1,758 tons, gross, is owned by the Merchants and Miners Transportation Company, and was bound for New England port from a Middle Atlantic port.

Penny Plans Extension of Passenger Station, Is Well Defined Rumor

Reports from Philadelphia that plans for the extension of the Pennsylvania Railroad station to Market street, could not be confirmed to-day. F. W. Smith, Jr., superintendent of the Philadelphia division, with other department heads, were on a trip east.

That plans for extensive improvements have been underway for some time, is not denied, but nothing is known definitely here. A report was in circulation to-day that at yesterday's meeting of the board of directors in Philadelphia, Harrisburg improvements were discussed. That nothing would be announced officially until plans were approved at Washington.

Gompers Sends Message of Sympathy From Labor to Russ Soviet Congress

Washington, March 13.—Samuel Gompers, president of the American Federation of Labor, on behalf of the American Alliance for Labor and Democracy, to-day forwarded to the Russian Soviet Congress at Moscow a message of sympathy to the Russian people in their struggle to safeguard freedom.

"We address you in the name of world liberty. We assure you that the people of the United States are pained by every blow at Russian freedom, as they would by a blow at their own. The American people desire to be of service to the Russian people in their struggle to safeguard freedom and realize its opportunities. We desire to be informed to as how we may help.

"We speak for a great organized movement of working people who are devoted to the cause of freedom and the ideals of democracy. We assure you also that the whole American nation ardently desires to be helpful to Russia and awaits with eager desire an indication from Russia as to how help most effectively be extended.

"To all those who strive for freedom we say: 'Courage, justice must triumph if all free people stand united against tyranny.' We want your suggestions."

Rush Plans For Building Big Ordnance Depot on the Middletown Site

Pennsylvania railroad track construction forces are awaiting orders to proceed with the building of track spurs connecting the Keystone Fair plot near Middletown with the main line. One track is already completed, this work having been done some time ago to permit the delivery of lumber. The railroad company will not build the tracks needed for the Ordnance Department, this work being a part of the contract of the James Black Masonry and Construction Company, of St. Louis. The railroad work is simply to connect the grounds with the necessary switches and signals, according to reports.

SMOKE TAKEN FOR FIRE

An alarm from Box 213 at noon to-day brought a number of fire companies to the home of Mrs. Mark Meyers, Peffer and Sixth streets. Mrs. Meyers had returned this morning from near Linglestown, where she had been spending the winter. When she tried to start a fire in her furnace, a defective flue caused the house to fill with smoke, giving the aspect of a bad fire. The scare was over in a few minutes.

Waterways Commission Increased; Plan Use of Canals to Move Coal

Washington, March 13.—The membership of the railroad administration's inland waterways advisory committee was increased from three to five to-day with the appointment of Calvin Tompkins, former dock commissioner of New York and a student of port facilities, and M. J. Sanders, of New Orleans, manager of Leyland Steamship Lines.

Other members of the committee, which is investigating the use of canals and navigable rivers to relieve railway transportation are Major General W. M. Black, chief of engineers; G. A. Tomlinson, of Duluth, and Walter S. Dickey, of Kansas City.

The committee has been at work for ten days and has submitted a preliminary report to Director General McAdoo recommending the increased use of a number of canals to transport coal this summer. Although it considers inadvisable any extensive improvements to the canals or rivers the building of additional terminal facilities is recommended.

21 Republicans Subscribe to New Monroe Doctrine, Says Dr. Alex. Alvares

By Associated Press. Los Angeles, Cal., March 13.—Twenty-one republics of the Western Hemisphere will subscribe to a new Monroe Doctrine, embracing the cardinal principles already established and adding additional tenets, according to a statement by Dr. Alejandro Alvares, secretary-general of the Institute of International Law and permanent member of the Court of Administration at The Hague, who addressed students of a law college here last night.

The new principles, Dr. Alvares said, will prevent the cession of any territory in the Western Hemisphere as a war indemnity by any European power and will prevent the acquisition of such territory by any European power for any purpose by any method.

This new doctrine was based on the interpretation of President Wilson's war message of last August as interpreted by the American Institute of International Law, he said.

Waterways Commission Increased; Plan Use of Canals to Move Coal

Washington, March 13.—The membership of the railroad administration's inland waterways advisory committee was increased from three to five to-day with the appointment of Calvin Tompkins, former dock commissioner of New York and a student of port facilities, and M.
