

CHURCHES TO GET BACK OF THRIFT STAMP SALES

All Denominations Join in Movement For Aiding the Nation

A novel campaign for the sale of Thrift and War Savings Stamps was started yesterday in the Board of Trade building, where enthusiastic speeches were made by Postmaster Frank C. Sites, William M. Donaldson, chairman of the War Savings Stamp sales in Harrisburg; David E. Tracy, Andrew S. Patterson, Donald McCormick, William Jennings and Morris Jacobson.

It was decided to wage an intensive campaign among church people and the first step was to choose Robert B. Reeves, secretary of the Y. M. C. A., as chairman of a general committee. The latter will consist of two men from each church, to be announced next week.

Action was taken by the Catholic and Episcopalian denominations yesterday. The former is to be represented on the committee by the Rev. D. J. Carey, pastor of St. Patrick's Cathedral, and David Tracy. The Episcopalian will have the Rev. Rollin Alger Sawyer, rector of St. Stephen's Protestant Episcopal Church, and William M. Donaldson on the body.

Appetite For Honey Brings Soldiers Trouble

WITH THE AMERICAN ARMY IN FRANCE, March 16.—There are certain members of the American expeditionary forces whose appetite for honey has brought them into difficulties with the Provost Marshal. There are dozens of complaints from French farmers that roaming American soldiers have carried off bee hives.

In some cases the hives have been found minus the honey, while in others the soldiers did not have time to extract it, before the provost guards came around and rescued the hives and returned them to their owners.

One hive-hunting guard was well stung during a recent raid. It went through nearby commands hoping to identify by bee stings the men who had removed the hives from a hill a couple of miles away. They were unsuccessful for there was not a sting on any soldier's face or hands. The provost has come to the conclusion that there are many American soldiers who had something to do with bees before coming into the army.

Red Cross Notes

Thirty-five thousand dollars for yarn! Have you been knitting in all your spare moments for months, only to be met on your last request for yarn with the new regulation that yarn must be paid for?

Do you feel that this new Chapter policy is entirely contradictory to the urgent need for knitted goods? Do you feel that it is particularly unreasonable in view of the fact that you, who are too busy to help in the ways, can find time to knit, and are charged for the privilege of doing so?

Heads of the Harrisburg Red Cross Chapter ask you to reserve your judgment on these questions until you read in detail the difficulties of the Chapter, who are responsible to you for the wise handling of the money which you have contributed.

The following figures show just what the purchasing of yarn has cost:

Months	Total Yarn Supplies	Amount
August, September		\$1,807.25
October, November		2,269.50
December, January		23,825.87
February, March		29,852.51
From April 1, 1917, to February 1, 1918		\$35,000

but this does not show the situation so clearly as the fact that on February 1 the yarn department was costing more to maintain than the surgical dressings and the hospital garments combined.

Yarn which in April of last year cost \$2 a pound was costing \$2.50 in February.

Therefore, the Chapter executive committee and the special committee appointed to consider the question were confronted with three alternatives:

First, either the Chapter must limit its knitted work to the small amount which the Chapter in view of its other responsibilities could finance; second, or it must seriously hamper and cut down the amount of garment and surgical dressings produced, so that all the money could be spent for yarn; third, or it must ask its knitters to keep on knitting and find extra contributions to the Red Cross in the form of part payment for the yarn, and ask its members who do not knit to help support a free yarn fund for the benefit of those expert knitters who turn in so much work that it would be impossible for them to pay for even a portion of the material required for each article.

The first plan was rejected because the committee thought that it would reduce our output too drastically. The second was rejected because, although the sweaters and other warm knitted things are eagerly requested by our soldiers and much appreciated by them, they can hardly be ranked in importance with the surgical dressings and hospital garments upon which our hospitals in France are largely dependent.

The third plan was adopted because the committee thought that, although the output would be reduced to a certain extent, it would not seriously be hampered if the knitters understood how important their contributions to this fund were.

We expect all our free yarn to be used each month. Our only regret is that the supply will be sufficient only to fill the demand of our most experienced knitters. This Chapter is not the only one confronted by this dilemma, however. The Pittsburgh Chapter, one of the wealthiest in the state, has been compelled to discontinue distribution of free yarn.

The enormous yarn expenditure to February 1 resulted in the following output:

Sweaters, 5,071.
Pairs of socks, 1,715.
Wristlets, 2,238.
Mufflers, 4,006.
Helmets, 1,048.

Therefore, if you do not knit, please contribute to the free yarn fund, so that others may not need to reduce their knitting.

If you do knit, and can possibly afford it, please keep right on and pay the amount asked for the yarn for each article.

26,000 Interned by Swiss Republic Is Burdened by Great Number of Prisoners

Berne, Switzerland.—Switzerland now shelters 26,000 interned war prisoners, according to a recent census. Sixteen thousand are French, English and Belgian, while 11,000 are German. In addition 7,000 relatives of interned men are visiting here.

Owing to the scarcity of food no further visitors for a long stay will be accepted.

Lifeless Day. A correspondent of the Cleveland Plain Dealer makes a plea for a "lifeless" day, on which every person should hold the truth, the whole truth, and nothing but the truth. We will submit to a "lifeless" day, providing the correspondent or somebody else, will tell us how to get back the friendships we break, the happy homes we smash, and the self-esteem we lose.—Rochester Union and Advertiser.

Don't Experiment With Catarrh; It Often Leads to Dread Consumption

You Will Never Be Cured by Local Treatment With Sprays and Douches

Catarrh is a condition of the blood and can not be cured by local applications of sprays and douches; this has been proven by the thousands who have vainly resorted to this method of treatment.

Catarrh should not be neglected or experimented with. The wrong treatment is valuable time lost, during which the disease is getting a hold upon the victim, and making it more difficult for even the proper treatment to accomplish results.

Though Catarrh makes its first appearance in the nostrils, throat and air passages, the disease becomes more and more aggravated and finally reaches down into the lungs, and everyone recognizes the alarming condition that results when the lungs are affected. Thus Catarrh may be the forerunner of that most dreaded and hopeless of all diseases, consumption.

No local treatment affords permanent relief. Experience has taught that S. S. S. is the one remedy which attacks the disease at its source, the blood, and produces satisfactory results in even the worst cases. Catarrh sufferers are urged to give S. S. S. a thorough trial. It is sold by all druggists. You are invited to write to the medical department for expert advice as to how to treat your own case. Address Swift Specific Co., 435 Swift Laboratory, Atlanta, Ga.

WM. STROUSE

THE MAN'S STORE OF HARRISBURG

The New Store of Wm. Strouse Is Two Years Old Tomorrow

With 24 years intimate acquaintanceship with the tastes and requirements of the men and young men and boys of Harrisburg and surroundings---imbued in THE NEW STORE ---Mr. Wm. Strouse has achieved the ultimate in the development of the clothing business in our city.

On March 23, 1916, THE NEW STORE opened its doors to the public with the most enthusiastic ovation ever given a Man's and Boys' store in Harrisburg.

That the public expected something unusual, something superior to the average clothing store we were well aware. But THE NEW STORE surpassed all expectations in its every appointment.

That the opening of THE NEW STORE was an indication of its future development and standing has been most forcefully borne out by the fact that the business went ahead in rapid strides from the very start.

Crowds thronged the store on its inaugural night. Many were the old friends of Mr. Strouse, many were visitors, naturally, who came to get acquainted. It is easy to assume, by the results of the business, the success, that thousands have been buying here since that auspicious opening of THE NEW STORE.

Mr. Strouse laid down a policy for the business: DO IT BETTER. That policy is the guide post of the business. Not satisfied with the accomplishments of the past, not content to merely sell merchandise, he firmly resolved to give Harrisburg a NEW STORE that would be always new, always young, always abreast of the times in all matters that pertain to the business and to the civic welfare of our city.

That is why Boys come here for their clothes and insist upon wearing clothes from THE NEW STORE.
