No Passengers Carried on White Star Liner Attacked by Submarines

New York, April 2.—The steamship Celtic, one of the big White Star liners, was attacked and torpedoed by a German submarine, according to information received yesterday in a voyage from England to America. Efforts are being made to save the vessel, which, it is believed, carried no passengers.

More than a year ago the Celtic hit a mine off Liverpool, but was damaged only slightly. In 1916 it was reported that a bomb, presumed to have been placed on board at New York, was discovered on the Celtic upon her arrival at Liverpool, but this was denied by officers of the White Star Line. It was the Celtic which brought \$25,000,000 worth of American securities from England in October, 1916.

The Celtic has a gross tonnage of 20,394 and has for many years been one of the largest steamships in trans-Atlantic service. She was built at Belfast in 1901 and flies the British flag.

Washington, April 2.—If there were any American soldiers at all on board the Celtic, it was said here yesterday, they were very few in number and carried as "casuals" returning home. It was stated that there were no sick or wounded on board.

ONE-CENT NEWSPAPERS ARE NOT WARRANTED.—New York, April 2.—As a result of the serious conditions growing out of the war, the American Newspaper Publishers Association has strongly advised publishers throughout the country to cut out all combination rates for newspapers on account of action taken by the fuel administrator who is pressing publishers to practice economy. In a bulletin just issued by the association, special attention is called to the necessity of rigid economies. As a result of a recent conference the board of directors of the association declared that "the sale of newspapers at a retail price of one-cent is unwarranted under present war conditions."
