

U.S. BUILDERS LAUNCH 41,150 TONS IN WEEK

Monthly Total Will Drop Because of Shortage in Production of Steel

Washington, April 30.—Nearly 50,000 tons of steel steamships were completed and made ready for service by American shipyards in the last week, according to figures made public by the Shipping Board yesterday.

The launchings for the week, however, were but 41,150 tons of both wood and steel ships. This brings the total of launchings under the Emergency Fleet Corporation to 1,495,000 tons.

Production figures for April probably will be disappointing compared with March, when the total was over 200,000 tons. Such a result has been expected by the Shipping Board, however, because of a slow down of work in many yards early in the month as a result of steel shortage and other delays.

From the present month on a progressive increase in launchings and complete ships is expected as more and more yards begin to put ships into the water.

Three steel freighters left the ways last Saturday and one wooden vessel. In number of ships the total for wood and steel was the same. Steel ships, however, aggregated 27,150 tons and wood 14,000.

One wooden ship that went into the water during the week established a new building record. The Caponka, built by the Grant Smith Porter Company, of Portland, Ore., was launched just fifty days after the keel was laid.

WORK WHILE YOU SLEEP

AVOID ALL MEAT IF KIDNEYS AND BLADDER BOTHER

Uric Acid in meat excites Kidneys and irritates the Bladder.

Take Salts at first sign of Bladder weakness or Kidney-Backache.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it into the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink which quickly relieves bladder trouble.—Adv.

MERCHANTMEN NEED OUR BOYS

United States Authorities Make an Appeal For the Recruiting Agencies

Young men of Pennsylvania who can qualify for Merchant Marine training now being carried on by the United States Shipping Board Recruiting Service have been called upon by Governor Brumbaugh to enter that service and help make the American merchant ships so vital to the successful prosecution of the war.

In a statement given Edwin Reynolds, a special agent of the Shipping Board, and forwarded to Henry Howard of Boston, national director of the Shipping Board Recruiting Service, Governor Brumbaugh says: "Pennsylvania has always done a commanding service at the call of the National Government. On the Delaware River immediately after the Revolution was born the national merchant marine under the genius and direction of Stephen Girard, and here we have built throughout the years of the Republic the most important vessels for this service."

"There is no Commonwealth whose traditions and services rank above those of Pennsylvania, and I earnestly trust that our men in this emergency will answer the call of the National merchant marine and enroll in large numbers for a service which will not only materially and definitely advance the interests of the Republic at this crisis but will secure to it permanent and important place after the war when commerce will become a commandingly significant factor in establishing and holding the peace of the world."

"I urge all of eligible age to come forward and perform this valuable service to our country."

RATIONING WORKING WELL IN ENGLAND

London — Considering the novelty of the scheme, and the many difficulties that were inevitable in starting the machinery for feeding over 10,000,000 persons, the ministry of food is well satisfied with the results of the compulsory rationing in London and the home counties.

The ministry has every hope of being able to honor all coupons, both for meat and margarine and butter. There are plentiful supplies of bacon.
