I took his advice and now, thanks to the great medicine, my skin is entirely well and I feel like a new man. I am making up for lost time in my work."

Tanlac is now being specially introduced and explained in Harrisburg at the George Gorgas drug store.

RAILROAD MEN COME TOMORROW

It Will Be Major Gray Night at Friendship Club Meeting

Altoona officials of the Pennsylvania Railroad will come to Harrisburg to-morrow afternoon, arriving here at 3:15 o'clock. They will occupy a special car to be attached to train No. 44. Superintendent N. W. Smith will be in the party. The purpose of their visit is to meet Major William B. Gray, engineer R. C., constructing quartermaster at the Ordnance Depot near Middletown.

Major Gray will be the principal speaker at the Friendship and Co-operative Club meeting in Eagle's hall to-morrow night. He will be accompanied by his staff, including Rile G. Williams, traffic manager, one of the best known railroad men in the United States. In the afternoon other officials will visit the big works.

Interesting Program The local committee in charge of to-morrow night's meeting has prepared an interesting program. All railroad men are invited. Major Gray will have some interesting things to tell about his work in this vicinity and is anxious to meet his many friends. There will be refreshments and cigars.

Philadelphia is also expected to send a large delegation. In the office of the chief engineer at Philadelphia is J. K. Murray and others who were associated with Major Gray when he was in charge of the construction work at Enola yards and Rockville bridge, and they are anxious to meet him. As to-morrow will be a holiday many will be able to get to this city. The meeting starts at 8 o'clock.

A delegation of Reading employees will attend the Friendship Club meeting to-morrow night. They are planning a similar organization. The cutting out of excursions, increasing the passenger rates from two-and-a-half cents a mile to three cents a mile, by direction of the government, is regarded as a mild invitation to the general public to do as little traveling as possible during the continuation of the war.

WOMEN RECRUITERS TO MEET The postponed meeting of the Women's Auxiliary of the Pennsylvania Railroad shops at Altoona, this morning by Mrs. William Lauenstein.

Hairs Quickly Vanish After this Treatment (Helps to Beauty)

Science has aided in simplifying the banishing of hairy growth from the face, and according to a beauty specialist, the most effective treatment yet devised consists of applying a delicate paste to the hairy surface for 2 or 3 minutes. The paste is made by mixing some water with a little powdered delatone. When this paste is removed and the skin washed every trace of hair has vanished. Be sure to get real relation.

Use Mazola—the Oil from Corn for Cooking and Salads—and learn the chief secret of good cooking and digestible food. FROM every standpoint, Mazola meets the needs of the thrifty, patriotic housewife who wants to serve the best of food. It is a vegetable oil (pressed from Indian corn)—enables her to save animal fats, butter, lard, suet. Mazola gives better results because it does not burn easily. It quickly crisps the outside of fried and sautéed foods and makes them light, flaky, and easy to digest. For shortening it is wonderful. Always ready to use—needs no melting. Saves time, works perfectly. Mazola makes a perfect salad dressing too—easier to mix than an olive oil dressing and has a delicate richness all its own. And Mazola is the most economical cooking medium of high quality that you can use—never carries taste or odor from one food to another. Thus it can be used over and over again without wasting a drop. For sale in pints, quarts, half gallons and gallons. For greater economy buy the large sizes. There is a valuable Cook Book for Mazola users. It shows you how to fry, sauté, make dressings and sauces more delicious, makes light digestible pastry. Should be in every home. Send for it or ask your grocer. FREE. ICE YOU get as much ice from our "jitney stations" for 5c as is sold from the wagons for 10c. This is a saving a 50 percent. In these days, high cost of living days, such a big saving is worth considering. In a season the amount saved is quite an item. It is your patriotic duty to help Uncle Sam win the war. This you do when you go to an Alspure Ice Store and take your ice with you. Every piece of ice you take home reduces the work of our delivery force which enables us to distribute ice with a minimum equipment, thus releasing men for war purposes.
