RELEASES HUNS IN RUSSIA HAS OMINOUS SIGN

1,200 to 3,000 Germans Sent Back in Good Health to Fatherland Daily

Washington, June 5.—With the announcement by the State Department that between 1,200 and 3,000 German prisoners of war are daily being returned to the fatherland from Russia, Siberian intervention loomed large in Washington yesterday.

The State Department also announced it had received confirmation of the agreement between Russia, Finland and Germany, whereby Germany gets access to the Arctic ocean via the Mourmansk peninsula.

Word came here from London that developments in Tokyo and Tientsin warranted belief in early action in Siberia. This news was received without surprise in Allied diplomatic circles here, though the State Department declared that it had no definite information about the developments in the Far East.

The construction placed upon the news in Allied diplomatic quarters is that the State Department is of the opinion that intervention is the only thing that can prevent Germany reaping all the benefits of the Russian conquests without disturbance.

WOUND HAIT PRISONERS' RELEASE It is pointed out that if an Allied column should start through Siberia it would at least deter the return of the German ranks of the thousands of prisoners of war who are still in Russia and Siberia.

Wheat Conservation Is Not to Be Abandoned

It is reported that persons have been spreading the idea that wheat conservation measures are to be abandoned. This is not true, and to correct this propaganda Mr. Hoover has issued the following statement: "Reports have been received that Food Administration officials stated, further wheat conservation is not necessary. No statement of the chief acter had ever been issued, the actual position is that our supplies of wheat harvest allow home consumption of approximately one-third normal, if we are to have a surplus of wheat for export."

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur. Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless is caused by a lack of sulphur in the hair. Our grand mother made up a mixture of Sage Tea and Sulphur to keep her locks dark and young. It has been used by women and men who value their hair, and that beautiful dark shade of hair which is so attractive, use only this mid-time recipe.
