“Take Nuxated Iron”

As a tonic, strength and blood builder probably no remedy has ever met with such phenomenal success as has Nuxated Iron. It is estimated that over three million people annually are taking it in this country alone. It has been highly endorsed and used by such men as Hon. McG. M. Cannon, former President of the Cabinet, Secretary of the Treasury, United States Judge Atkinson of the Court of Claims of Washington, Judge Wm. L. Chambers, Commissioner of the United States Senator and Vice Presidential Nominee Charles A. Towne of Minnesota; former U. S. Senator Richard D. Bayard of Delaware, at present Assistant Judge Advocate General U. S. Army; General John L. Clem (Retired), the famous boy of Shiloh, who was Sergeant in the U. S. Army when only twelve years of age; General John Gordon (Retired), hero of the battle of Gettysburg; physicians who have been connected with well-known hospitals have prescribed and recommended it. Former Health Commissioner Wm. R. Kerr, of Chicago, has stated that he is in every hospital and prescribed by every physician.

Dr. J. Newman, late Police Surgeon of the City of Chicago, and former House Surgeon Jefferson Park Hospital, Chicago, has stated that he has proven through his own tests of it to excel any preparation for the relief of nervousness, indigestion, building up the nerves, strengthening the muscles and correcting digestive disorders.

Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital says that he has seen many men and women who need a strength and blood builder but do not know what to take. In his opinion, there is nothing better than organic iron—Nuxated Iron—for enriching the blood and helping to increase the strength and endurance of men and women who burn up too rapidly their nervous energy in the competition of the day.

If you are not strong or well, you should try Nuxated Iron. Next take two grain tablets of Nuxated Iron three times per day after meals for two weeks. This will strengthen you and see how much you have gained. MANUFACTURED BY NUXATED IRON, which has been used by former members of the United States Senate and other prominent people with surprising results, and which is prepared by the most scientific methods. Physicians is not a secret remedy, but one which is well-known to druggists and chemists. Unlike the synthetic organic iron products, it is easily assimilated, does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser. If you will refund your money. It is dispensed in this city by Kellner, Fred, Gova, J. Nelson, Clark, and all other druggists.—Advertisement.

IRVING COLLEGE CUTS OUT GERMAN

Mechanicsburg, Pa., June 5.—With the largest graduating class in the history of Irving College, the sixty-second annual commencement exercises were held this morning in the Columbian Hall. The Rev. Federal Intervention Alone Can Prevent Keymen Strike

Washington, June 5.—Only intervention by the federal government can prevent a general strike of operators employed by the Western Union and Postal Telegraph Companies, S. J. Koenekamp, president of the Telegraphers' Union, said last night before leaving for Chicago.

Upon his arrival there he planned to mail out the call for a walkout as a result of the refusal of the Western Union Company to submit to the jurisdiction of the National War Labor Board, which sought to compose differences between the companies and the men.

After two days spent here in discussing the situation with administrative officials, members of Congress and labor leaders, Mr. Koenekamp said he doubted that, even should the government decide to intervene, action could be taken in time to prevent the men from going out. He declined to estimate the number that might be involved.

Alkali Makes Soap Bad For Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain mulsified coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

Sure Economy at Schleisner's

Ever stop to think how much you can really save at Schleisner's?

We do not mean to say that our sole aim is to sell at the very lowest prices in the community.

But we do most emphatically advance this thought: That considering the distinctiveness in fashion, the workmanship and quality of materials used our prices always mean sure economy.

Suppose, for instance, that you buy the materials for a foulard dress. Then add to that cost the cost of dress-making. You won't accomplish the same results as you would by selecting one here. Nor would you have the choice you have here among five dozen or more original foulard frocks.

Why? Simply because the designing would be lacking. We do not infer that dressmakers cannot make pretty dresses. We cannot, however, see how the same style can be put into YOUR dress because the making of a single dress even a little cotton foulard frock is a sort of experiment with your materials at your expense.

Whereas our dresses are accepted for stock after the designing has been approved.

It is not necessary to buy a silk foulard dress. Our cotton foulard frocks at \$13.50 have the same careful workmanship and individuality as our higher price dresses.

We want you to see what high character is a requisite to a place on our staff—and in that you will find the secret of the superiority of Monito Hose. Contentment is the greatest factor in standardizing excellence—and Monito folks are a happy and contented family. Moorhead Knitting Company Incorporated Walnut and Cameron Sts., Harrisburg, Pa.
