

NATION MUST QUIT DRAFTING OR CALL CLASS 2

All First Class Drafted by September 15 at the Present Rate

Washington, July 22.—Either the United States will be compelled to decrease the number of men it is sending to France each week or will have to call men with dependents, now registered in class 2, into military service in the immediate future.

It is now clearly established that at the present rate of sending men to France all available men in class 1 of the draft registry will have been called to the colors before September 15, and the government will either have to suspend draft operations or invade the deferred classes.

This would happen was predicted in the Senate when the army appropriation bill was under discussion, and Congress was prevented from extending the draft as it is by the interference of the President and the Secretary of War.

In his statement on these operations of the army yesterday, General March, chief of staff, announced with manifest and commendable pride that in the week that had elapsed since the former statement, the War Department had sent an additional 100,000 men across the ocean.

This number is equal to the transportation figures of the preceding week and showed that the average transportation of troops per month had become an excess of 400,000. These figures while a cause of gratification both to the government and the country, mean that if the United States is to continue carrying through its present war program as many men as are sent away each week must be called into service to take their places in the training camps.

The President has assured the nation and the world that the United States will send as many men to France as may be necessary to win the war. He refused to be limited to an army of 5,000,000 men and the army appropriation bill authorized the President to send as many men as the army as the task of defeating Germany may require.

It is therefore obvious, if the program is to be carried out, that not only must the training camps on this side be kept full, but the number of men in training should exceed the number sent to the front each week as part of the war program and the government to greatly increase the transportation facilities available for the carrying of troops and necessary supplies to Europe, and it should be possible to estimate that with the great number of ships already completed and under construction the next few weeks will show even greater numbers of men sent across than have been transported in the last three months.

Class 1 of draft eligibles has been reduced to 600,000. This number will be virtually exhausted by September 1.

Congress will not convene for business until August 24, by which time it is now apparent, the nation will be confronted with the necessity of either relaxing its efforts to create an army sufficient to defeat Germany or will be compelled to call upon class 2 men, the men exempted from immediate service because of their dependents.

Reclaiming Shoes and Other Equipment at Meade

Camp Meade, Md., July 22.—Sixty-five thousand pairs of shoes were left behind in this cantonment by the men of the 79th Division when they went across the seas. These shoes have been piled up in a high mound in one of the big warehouses of the cantonment and will be used again by the men of the new 11th Division that is to be organized here.

The shoes will be fumigated and converted into new by a special process developed and used this winter by the government thousands of dollars, but, best of all, will help to conserve the leather supply.

Thousands of army campaign hats left behind by the men of the 79th will be made over again. These hats will be like new when they are sent out from the hat shops at this camp.

It will be better than the great majority of new army hats now on sale, for it is difficult to buy the felt that is used in their manufacture. Thousands of blankets used by the men who have gone across will be removed and used this winter by future Meadites. It will be hard to buy other woolen blankets. It is said that the government will need four-fifths of the wool turned out for the soldier boys.

Breeches, blouses and shirts will be remade and the men of this cantonment will have as epic and span as their predecessors.

All these things come under the Reclaiming Department of which a Pennsylvania man, Captain Harry M. Rupp, is in command. Captain Rupp comes from York.

CHAUTAQUA'S TAX UPHOLD. Lebanon, July 22.—The Pennsylvania Chautauqua is sustained by a decree made in the Lebanon County Courts by Judge Henry in its levy of a special tax of \$15 annually for five years on each property on its grounds at Mount Getzeta for a debt of \$11,000. In 1916 Dr. Wilmer Batt, who is the owner of a Chautauqua cottage, brought out warrants proceedings seeking to have the charter revoked and the organization dissolved. Judge Henry dismissed the proceeding at the cost of the objecting property owners.

ITCHING SCALP CUTICURA HEALS

So Bad Would Sit Up at Night and Scratch.

"My husband's scalp began itching. He rubbed it which irritated it until it had gotten across the front of his head. It made him lose sleep. It used to itch so that he would sit up at night and scratch."

"I sent for a sample of Cuticura. The itching stopped constantly, so I bought more and after he had used three cakes of Soap and four boxes of Ointment he was healed." (Signed) Mrs. H. J. Trueman, 5234 Master St., Philadelphia, Pa., March 2, 1918.

If you have a poor complexion improve it by using Cuticura Soap daily and Cuticura Ointment occasionally.

Only Tonnal Could Help His Indigestion

"I tried all kinds of medicine," says John Deiber, of Anville, Lebanon county, Pa., "and could get no relief. I tried to starve my indigestion by going weeks without eating anything except toast."

"Reading and hearing people talk about Tonnal, I bought a bottle at Boger's Drug Store, Lebanon, and after taking about two bottles I can now eat anything at all. Too much praise cannot be given this wonderful medicine of Roots, Herbs, and Bark. It is truly wonderful."

The above testimonial was given June 26th, 1918.

Tonnal is sold at the Gorgas Drug Store, Harrisburg, and at the Hershey Drug Store, Hershey.

INDIAN SCOUTS USED ON MEXICAN BORDER AIDING PERSHING IN BIG BATTLE

With the American Army on the Marne, July 22.—The district south of the Marne is entirely cleared of Germans. Two badly cut German regiments were left before the river in the German retreat. Allied aviators bombed the bridges across the river and their escape was impossible.

The German retreat across the river began Friday under cover of a great smoke screen. At last accounts great hordes of Germans were continuing north.

Indian scouts who were with Pershing in Mexico played a prominent part in the scout work in the river.

All Saturday night the allies hammered away at the wings and tails between the Germans and Paris as the Germans withdrew north of the Marne. Americans continue taking prisoners and allies reinforcements are pouring in to overcome any determined resistance the Germans may attempt.

OLDEST ROOSEVELT SON IS WOUNDED

Oyster Bay, N. Y., July 22.—Hardly had Colonel Theodore Roosevelt received news confirming the death of his son, Lieutenant Quentin Roosevelt, than he received a cablegram from his daughter-in-law, Mrs. Theodore Roosevelt, Jr., from Paris which stated that Major Theodore, Jr. had been wounded and was in Paris. The colonel and his wife bore up bravely under the new trial.

The cable message read: "Ted wounded. Not seriously. Here with me. Not any danger. No cause for anxiety."

The colonel explained that Mrs. Theodore Roosevelt, Jr., was connected with a Red Cross hospital in Paris. It is thought that Major Roosevelt had been wounded at the front and removed to the hospital where his wife was.

ISLAND PARK IS CLOSED TO SPOONERS

Police raided Island Park in the patrol shortly before midnight last night and ordered 100 couples out of the park. The island will be patrolled every night, police said, to prevent young couples from spooning.

It is said the large number of young girls who accompany soldiers to the park after midnight decided the police to take the step.
