Annual Pre-Inventory Clearance Sale

A 2-Day Event Tomorrow & Saturday

Dominating Values in Every Department

You know what house-cleaning means at home---every nook and corner is gone into. It seems that the whole house is "topsy turvy," with more innumerable things than one house could hold.

So it is with a big store. Every article, no matter how small, must be checked and value appraised. The result is we find so many things in the various departments that can be reduced in price to clear the way for other incoming merchandise.

Summer is advancing and shelf room and storage space must be cleared for next season's stock.

No better time of year can be selected for choosing desirable spring and summer merchandise. Other articles suitable for all seasons are also included in this two-day sale.

Come in Friday or Saturday and note the values specially marked "Pre-Inventory Sale."
