

### WILSON CALLS NATION TO WORK FOR DEMOCRACY

#### President Denounces Mob Action and Decries Country's Lynchings

Washington, July 26.—President Wilson today in a personal statement, addressed to his fellow countrymen, denouncing mob spirit and mob action, called upon the nation to show the world that while it fights for democracy on foreign fields, it is not destroying democracy at home. The President referred to the pretensions of mob action against those suspected of being enemy aliens or enemy sympathizers. He denounced most emphatically mob action of all sorts, especially lynchings, and while he did not refer specifically to lynchings of negroes in the South, it is known that he included them in his characterization of mob action as a blow at the heart of ordered law and humane justice.

#### Lynching Bad World Example

It is known that the lynchings of negroes, and the attacks upon those suspected of being enemies or sympathizers, have been used by the German propaganda throughout Central and South America as well as in Europe to contend that the pretensions of the United States as a champion of democracy are a sham.

Deeply concerned by the situation, the President decided to address his fellow countrymen, and to declare that "every mob contributes to German lies about the United States what her most gifted liars cannot improve upon by way of calumny."

#### My Fellow Countrymen:

"I take the liberty of addressing you upon a subject which so vitally affects the honor of the nation and the very character and integrity of our institutions that I trust you will think me justified in speaking very plainly about it.

"I allude to the mob spirit which has recently here and there, very frequently showing its head amongst us, not in any single region but in many and widely separated parts of the country. There have been many lynchings, and every one of them has been a blow at the heart of ordered law and humane justice. No man who loves America, no man who really cares for her fame and honor and character, or who is truly loyal to her institutions, can justify mob action while the courts of justice are open and the governments of the states and the nation are ready and able to do their duty.

"We are at this very moment fighting lawless passion. Germany has outlawed herself among the nations because she has disregarded the sacred obligations of law and has made lynchings of her armies. Lynchings emulate her disgraceful example. I, for my part, am anxious to see every community in America rise above that level, with pride and a fixed resolution which no man or set of men can afford to despise.

"We proudly claim to be the champions of democracy. If we really are, in deed and in truth, let us see to it that we do not discredit our own. I say plainly that every American who takes part in the action of a mob or gives any sort of countenance is no true son of this great democracy, but its betrayer, and does more to discredit her by that single disloyalty to her standards of law and right, than the words of her statesmen or the sacrifices of her heroic boys in the trenches can do to make suffering peoples believe her to be their saviour. How shall we commend democracy to the acceptance of other peoples, if we disgrace our own by proving that it is after all, no protection to the weak? Every mob contributor to German lies about the United States, what her most gifted liars cannot improve upon by the way of calumny. They can at least say that such things cannot happen in Germany except in times of revolution, when law is swept away!

"I therefore very earnestly and solemnly beg that the members of all the states, the law officers of every community, and, above all, the men and women of every community in the United States, all who care for America and wish to keep her name without stain or reproach, will cooperate—not passively merely but actively and watchfully—to make an end of this disgraceful era. It cannot live where the community does not countenance it.

"I have called upon the nation to put its great energy into this war and it has responded—responded with a spirit and a genius for action that has thrilled the world. I now call upon it, upon its men and women everywhere to see to it that its laws are kept inviolate, its fame untarnished. Let us show our utter contempt for the things that have made this war hideous among the wars of history by showing how those who love liberty and right and justice and are willing to lay down their lives for them upon foreign fields, stand ready also to illustrate to all mankind their loyalty to all things at home which they wish to see established everywhere as a blessing and protection to the people who have never known the privilege of liberty and self government.

"I can never accept any man as a champion of liberty and self government for ourselves or for the world, who does not reverence and obey the laws of our own beloved land, whose laws we ourselves have made. He has adopted the standards of the enemies of his country, whom he affects to despise."

"WOODROW WILSON."

### Brooklynites See Airplane Make Thrilling Landing

New York.—The engine of a coast guard aeroplane went dead above a densely populated section of Brooklyn, but its two occupants succeeded in effecting a landing in a vacant lot in Fifth street, between Fourth and Fifth avenues. Lieutenant Loren Caskey, the observer, sustained a fracture of the leg and was taken to the Methodist Episcopal Hospital. The pilot, Lieutenant Donald Hinman, escaped injury. They are stationed at Garden City.

"We got lost in the fog and felt our way along until we got inland a bit and discovered where we were," said Lieutenant Hinman.

"Then our machine went dead. We circled around for a while and looked for a good place to land. Some time later we noticed this field."

The lot chosen was not a large one and at times as the plane swooped downward it seemed to the throngs watching as though it must strike a dwelling in the vicinity. It was 9:20 when the landing was made. The police were notified and formed a cordon about the lot, soon being relieved by soldiers. Lieutenant Hinman remained with the aeroplane and made a report of the accident to officers who arrived by motorcar.

White fiber silk seamless hose, with mock seam in back **\$1.00**

Dives, Pomeroy & Stewart, Street Floor.

## Save Coal During the Canning Season

### Use an Oil or Gas Stove

Many canning experts claim that an oil stove for canning purposes is far more satisfactory than a coal range. At this time it is a matter of good judgment and sound economy to can fruits and vegetables without using coal.

Our stock of oil and gas stoves is broad enough to satisfy the requirements of every housewife.

The hot blast wickless oil stove gives an intense evenly balanced heat on low oil consumption.
