Service

If we were asked to give in one word the reason why this store has progressed we would unhesitatingly say "service." And here are our reasons:

OUR SERVICE — offers large assortments of just the things you need most — every article of absolutely dependable quality.

OUR SERVICE — offers lowest possible prices on the best possible merchandise. Our large volume of business and our knowledge of how to buy and how to sell with greatest economy and satisfaction to ourselves and to YOU makes such prices possible.

OUR SERVICE — offers prices that are lower than those of mail order houses quality of goods considered. And some additional advantages are (1) that you don't have to wait for your goods; (2) you pay no mail or express charges and do not burden the railroads or mail service with your shipments when every available car is needed for war shipping; (3) you don't have to write letters; (4) you don't have to wait for the return of your money, and (5) you can deal with human beings face to face—personal service!

To-morrow Offers Savings Too Important to Be Overlooked

To you, the goods we offer are as valuable now as they ever were. To us they are not, for they are taking up room that must be given to new Fall goods.

Odds and ends, broken lots, remnants of goods you need now, for Fall and even next season, have been reduced to bargains that are too important to be overlooked.

We do not believe you need urging to come and buy these specials. Wholesale prices have been going up since most of this merchandise was purchased and even the regular prices represent substantial savings — therefore the special prices represent unusual values when you consider what must be paid to replace this merchandise to-day. We will not attempt to predict what prices will be in the future but simply refer to facts that have transpired. We do not want to urge you to buy any more than you need, but it is prudence to buy all you need.

You Will Need Blankets And These Are Bargains

There'll come a time, some day — when the thermometer does not register 92 in the shade, and coal may not be as plentiful as you would like. Then it will be a pleasure to seek bodily comfort under blankets such as these. Take time by the forelock and feather your nest with these cozy blankets at these conservation prices.

Bed blankets at prices that we cannot duplicate them at to-day. These blankets got soiled in handling and will dispose of them at the following low prices—
