FIERCE HUN ATTACKS RESISTED BY AMERICANS AND FRENCH

ADVANCED LINES HELD BY TROOPS AGAINST PRINCE

Crown Prince's Determined Effort to Check Allied Progress Fails; Big Guns Roar as Both Sides Make Ready For New Battles

YANKEES BRING UP ARTILLERY

Paris, Aug. 6.—North of the Vesle the Germans have been repulsed in efforts to dislodge French and American units which crossed from the south bank. The official statement from the War Office to-day also reports a French advance to the west of the Avre between Braches and Morisel, north of Montdidier. Prisoners were taken by the French in the repulse of a German raid southeast of Montdidier.

The determined attacks which the Germans have been delivering against the allied advanced guards north of the Vesle have failed to disturb the temporary stabilization of the Vesle front. The allied command is retaining the initiative in these operations. Much importance is attached to-day to the operations reported farther north along the line between Braches and Morisel, north of Montdidier. These are pointed to as a direct menace to the junction point of the armies of General Von Hutier and Crown Prince Rupprecht.

Military critics agree that the Germans will not be able to remain long in the region between the Vesle and the Aisne.

On the Rheims-Soissons front the situation has been stabilized for the moment while the opposing forces prepare for further movements and the British he has given up territory along the La Basse canal in the apex of the Lys salient. Meanwhile, the French and British are organizing the territory evacuated north and south of the Somme in Picardy. Heavy Artillery Duels Heavy artillery duels and patrol actions are in progress along the Vesle. French and American troops

JAPAN TO STAND BY SOVIET FOES IN THE FAR EAST

Plans For Putting Move Into Force Are Seen at Vladivostok

Tokio, Saturday, Aug. 3.—Premier Count Terauchi, in a statement concerning allied action in Siberia, said the Japanese government would take further military measures in case the position of the Czecho-Slovaks demand it. The premier also indicated that if the chaotic situation in Siberia continued the government might find it necessary to adopt suitable military measures to combat the Austro-German menace in the far east.

Count Terauchi said the present step had been taken in perfect accord with all the allies. He hoped, he said, that it would mark the beginning of a new era of peace and order in Siberia.

It is understood that the Selkai majority party in the House is willing to adopt a wait-and-see policy. Consequently the Kenseikai minority, which had hoped to effect an opposition combination, is powerless for the present. There seems every reason to believe that the tension of the situation has been relieved and that the plans for the protection of Czecho-Slovaks and of the allied interests against German and Austrian influence in Siberia would be carried out without excitement. As far as Japan is concerned every detail for putting the plan into execution already has been arranged. A red cross base hospital with a full equipment and complete staff has been organized at Vladivostok and additional supplies, nurses and doctors are leaving weekly.

IT'S HOTTER IN CLARINDA Des Moines, Iowa, Aug. 6.—Great damage to corn, especially in the southern part of the state, is resulting from Iowa's most intense heat wave in forty years, according to the Weather Bureau. Clarinda, with a temperature of 113 degrees, was the hottest point in the state.

TOLL OF BATTLE REACHES 16,409 FOR AMERICANS

Lists Received Today Amount to 498; 1,213 Since First Victory Casualties Arrived

333 SEVERELY HURT IN FIGHTING HUNS

Death and Burial of Lieut. Quentin Roosevelt, of Aviation Corps, Is Reported

Washington, Aug. 6.—Army and Marine Corps casualties in the fighting on the Marne-Aisne salient made public to-day by the War Department numbered 498—358 soldiers and 140 marines. This brought the total since the toll of victory began to arrive yesterday to 1,213 and the number of all casualties since American forces first landed in France to 16,409.

Three Army and two Marine Corps lists were given out early to-day. A recapitulation of them shows:

Table with columns: Army Marine, Killed in action, Died of Wounds, Wounded severely, Wounded, degree undetermined, Wounded slightly, Prisoner, Totals.

HOTTEST AUGUST DAY REAPS TOLL IN BIG CITIES

Thousands Throughout Country Prostrated by Wave of Heat; 4 Die in New York

Philadelphia, Aug. 6.—Intense heat cooled with a high percentage of humidity caused more than one hundred prostrations up to noon among the Hog Island shipyard workers who are compelled to work in a broiling sun. About one-quarter of the cases were classed as serious.

One thousand shipyard workers at the Pusey and Jones yard at Gloucester, N. J., stopped work because of the heat.

It was the hottest day of the summer in Philadelphia, the temperature reaching 96 at 1 p. m. There was one death and many prostrations reported.

New York, Aug. 6.—Four deaths and a score of prostrations resulted to-day from a continuation of the heat wave which last night drove thousands of tenement dwellers to the parks and the beaches for relief.

Washington, Aug. 6.—A shower area in the Far North, that is increasing in size, offers the only promise of relief from the excessive hot wave which to-day overspread the entire eastern half of the country, the lower Mississippi Valley to the Atlantic coast. Relief from that source, however, is not in immediate prospect for the sweltering eastern districts, since at least from 36 to 48 hours must pass before the showers travel eastward far enough to make their influence felt.

Chicago, Aug. 6.—The Weather Bureau predicted that the records of yesterday, 102 degrees, the hottest since any day ever known in Chicago, would be reached. It was the second hottest day the city has known since the establishment of the Weather Bureau. There were many prostrations.

Thousands slept in the parks last night and to-day droves of people were at lake beaches where it is estimated more than 100,000 sought relief yesterday.

Mercury Climbs To-day's temperature is also the highest of the summer, easily breaking yesterday's high mark. The temperatures of yesterday and to-day are:

Table with columns: Monday, To-day, 8 a. m., 9 a. m., 10 a. m., 11 a. m., 12 a. m., 1 p. m., 1:30 p. m., 2 p. m., 3 p. m., 4 p. m., 5 p. m., 6 p. m., 7 p. m., 8 p. m., 9 p. m.

With temperatures to-day averaging almost ten degrees higher than yesterday, it is difficult to estimate what heights will be attained by the mercury on the weather bureau tower on the Federal building before the day is over.

No Relief The highest record made in the city since the installation of the Harrisburg Weather Bureau in 1888 was 101 degrees, attained on July 3, 1898. Only two other days have attained higher temperatures than to-day. On July 3, 1911 and on July 31, 1917, readings showed 100 degrees as the maximum temperature.

MERCURY HOVERS AT 100 DEGREES ON HOTTEST DAY

One Death and Much Suffering as Thermometer Climbs Steadily

NO RELIEF IS IN SIGHT

Warmest August Day Since Weather Bureau Was Established in City

A new maximum temperature record for all time was made in Harrisburg to-day when the mercury registered 102 degrees at 2:45 o'clock. Prospects are that it will go several degrees higher before the afternoon is over.

Blistered Harrisburg is to-day sweltering through what is expected to be the hottest day experienced by the city during the history of the Harrisburg weather bureau, established in 1888. One death from the heat was reported together with much suffering.

Whether a new high temperature record is recorded or not, a new heat record for August will be hung up. Temperature readings at the Harrisburg Weather Bureau at 1:30 o'clock this afternoon showed the mercury standing at 99.2 degrees Fahrenheit, the highest ever recorded in Harrisburg during August and only 1.8 degrees below the highest ever reached in Harrisburg. Forecaster Dainin would not be surprised to see a new record made, he says. The comparatively low humidity to-day is aiding Harrisburg to bear the heat.

Mercury Climbs To-day's temperature is also the highest of the summer, easily breaking yesterday's high mark. The temperatures of yesterday and to-day are:

Table with columns: Monday, To-day, 8 a. m., 9 a. m., 10 a. m., 11 a. m., 12 a. m., 1 p. m., 1:30 p. m., 2 p. m., 3 p. m., 4 p. m., 5 p. m., 6 p. m., 7 p. m., 8 p. m., 9 p. m.

With temperatures to-day averaging almost ten degrees higher than yesterday, it is difficult to estimate what heights will be attained by the mercury on the weather bureau tower on the Federal building before the day is over.

No Relief The highest record made in the city since the installation of the Harrisburg Weather Bureau in 1888 was 101 degrees, attained on July 3, 1898. Only two other days have attained higher temperatures than to-day. On July 3, 1911 and on July 31, 1917, readings showed 100 degrees as the maximum temperature.

High temperatures this summer have not been so many. Previous high temperatures this year were those of yesterday and of July 21. Ninety-six degrees was recorded on Monday.

AMERICAN LINES HOLD WELL DESPITE HEAVY ATTACK BY ARTILLERY

Yankee and French Guns Brought Up to Advanced Positions and Salvo After Salvo of Shells Are Thrown Into Enemy Lines Across the Vesle

With the American Army on the Vesle, Aug. 6.—The Germans opposite the Americans west of Fismes used their guns freely yesterday afternoon in an apparent attempt to discourage the Americans and their French allies from further aggressive efforts.

Later they began an ineffective gas attack. Meanwhile the American and French heavy guns to the south were sending in repeated salvoes and the Germans were supplementing their gas shelling with their mine throwers and machine guns north of the Vesle. These smaller weapons were kept working full time in the hope of keeping clear the south banks of the river.

With the American Army on the Vesle, Monday, Aug. 5.—American troops held on to Fismes and all other gains, notwithstanding terrific artillery action by the Germans and in the face of every opposition threw patrols across the Vesle at several places. French troops to their

ONE ZEPPELIN BROUGHT DOWN OVER ENGLAND

London, Aug. 6.—The attempted raid by German Zeppelins on the East Anglian coast last night proved to be a complete fiasco, according to reports thus far received. British fliers met them well out at sea, bringing down one in flames,

THE WEATHER

For Harrisburg and vicinity: Fair and continued warm to-night and probably Wednesday. For Eastern Pennsylvania: Fair and continued warm to-night and probably Wednesday; gentle variable winds, mostly south. Temperature at 8 a. m., 75. Sun: Rises: 6:02 a. m.; sets, 7:58 p. m. Moon: New moon, August 6. River Stage: at 8 a. m., 3.4 feet above low-water mark.

SPEED ORDINANCE IS PASSED DESPITE MAYOR'S PROTEST

New Traffic Regulation Becomes Law by a Four to One Vote

By a vote of 4 to 1 Council to-day passed the traffic ordinance fixing the speed limit in the city a twenty-four miles an hour, prohibiting any reckless or careless driving and including all other rules and regulations in force in the past in one measure.

Mayor Daniel L. Keister, who introduced the ordinance weeks ago and later objected to the change in the speed limit from fifteen to twenty-four miles an hour, voted against the measure, and in doing so made a statement similar to the ones he used in debating the speed question at previous meetings. Commissioner E. Z. Gross after the rollcall had been taken, and before the vote was announced by City Clerk R. Ross Seaman, took the floor to make an explanation of his stand on the ordinance. He read a part of one section in which the terms of the state traffic law were included and which

Five Accepted Here For Y. M. C. A. Work in France

Five men were accepted and passed by the local Y. M. C. A. recruiting committee at the weekly luncheon in the assembly room of the Central Y. M. C. A. building at noon to-day. The names of the men were not made public. The applications bearing the approval of the local committee, will be sent to New York headquarters of the National War Work Council and if they are satisfactory the men will be called. At that time the names will be divulged.

Have You Thought, Mr. RAILROADER, what you cash in WAR STAMPS for in 1923? Phone Mr. Denehey About It.

GET READY FOR REGISTRATION OF MEN 18 TO 45

Registration Booth Is to Be Placed in Every Voting Precinct

Immediate preparations for the registration of men within the draft age limits proposed in the bills now before Congress have been ordered by the War Department in telegrams sent to State Draft Headquarters and arrangements will be made for the establishment of a registration place in each of the voting precincts in Pennsylvania.

The telegram received at the state headquarters to-day is to be sent in substance to local boards so that they can begin their preparations and the state authorities will get into touch within a day with such authorities whose co-operation will be required.

The date for registration will depend upon the progress on the bill, but the telegram indicates that everything is to be put in readiness.

All local draft boards have been called upon to telegraph the number of white and colored men remaining in Class 1 after calls to filled by August 15 are completed.

Pershing Grateful For Grand Cross of Legion of Honor From France

Paris, Aug. 6.—General John J. Pershing, commander-in-chief of the American Expeditionary Forces in France, has acknowledged a letter to Premier Clemenceau the honor award to him of the Grand Cross of the Legion of Honor by the French Government.

HARRISBURG BOY KILLS FOUR HUNS, CAPTURES A GUN

Men of Keystone Division Go Over the Top With Great Success

How one Harrisburg youth, Paul Chrisemer, a member of Company D, 112th Infantry, is distinguishing himself in France is related in a letter just received by the Telegraph from "Bob" Branyan, 1728 Logan street, a member of the same company. Recently Chrisemer gained some notoriety among his comrades by killing four Germans and taking a machine gun singlehanded.

Branyan writes: "Just received a box of tobacco and a large bundle of papers from the Telegraph and we were all very glad to get them. The boys from the entire regiment came flocking to our company street when the papers

[Continued on Page 12.]

Two Girls Arrested For Robbing War Gardens

Shirley B. Watts, superintendent of the city war gardens which have been conducted for the past two years under the auspices of the Harrisburg Chamber of Commerce, has issued warrants for two girls, 14 and 15 years of age, respectively, on a charge of stealing vegetables from the school children's war gardens at Bellevue Park.

The hearing will be held to-morrow evening at 7 o'clock at the office of Alderman George A. Hoover.

BRITISH OFFICERS ESCAPE PRISON AT HOLZMINDEN Amsterdam, Aug. 6.—Twenty-nine British officers recently escape from a prison camp at Holzminden, and still are at large, according to the Osnaabrueck Tageblatt. They made their escape through a subterranean passage which it took the officers nine months to dig. A large reward has been offered by the commanding general in Hanover for their recapture.

LATE NEWS

MARKET'S CLOSE IRREGULAR New York—Conflicting price movements occurred in the final hour, leaders again reacting while specialties made further gains. The closing was irregular. Standard stocks were subordinated to speculative issues into to-day's restricted market. Sales approximated 275,000 shares.
