

PRESIDENT PAYS \$24,000 INCOME TAX UNDER BILL

Framers Also Include Judiciary and State Officers; Supreme Court Decides

Washington, Aug. 8.—President Wilson will have to pay a tax of a little more than \$24,000 next year on his salary of \$75,000.

The ways and means committee of the House yesterday decided to extend the income tax to include the President, the Justices of the Supreme court, all the judiciary throughout the country, and State officials. Under the existing law they are exempt from the income tax. The committee also retained the provision in the present law taxing the incomes of senators and representatives.

The Supreme Court Justices soon will be placed in the peculiar position of having to decide whether their own salaries shall be taxed. Chairman Kitchin, of the ways and means committee, in announcing that it today decided to include a provision in the new \$8,000,000,000 war revenue bill taxing the salaries of judges and State officials, said the committee does not believe such a tax would be constitutional and that it will have to be tested in the Supreme court.

The Federal constitution, he said, provides that the salaries of judges shall not be increased or diminished during their terms of office and taxation has been construed in minor court decisions as including salaries.

In the case of State officials, including the State Justices, he said, courts have held that the Federal government has no right to tax their salaries, as such a form of taxation tends to disturb the dual system of government in the United States, placing a weapon in the hands of the Federal government that might be used to the disadvantage of the States.

The ways and means committee also decided today to include the interest from State, county and municipal bonds, heretofore exempt, those issued to meet existing indebtedness, in individual and corporation incomes subject to taxation.

The committee also decided to include, as part of the gross estate, the proceeds of insurance policies in excess of \$40,000, in levying the inheritance tax. This was done, said Mr. Kitchin, to prevent persons from converting their salaries into large insurance policies and thus escaping the inheritance tax.

The committee has not yet completed its new schedule of surtaxes on incomes, said Mr. Kitchin, in estimating the tax President Wilson will have to pay, however, the increased surtax was included, he said. The committee included the President, the judges and State officials in the new income tax provision, he announced, because the members of the committee do not believe that any one should be exempt from the income tax during the war.

Angry Crowd Threatens Admiral Von Tirpitz

New York.—Grand Admiral von Tirpitz, leader of the Fatherland party, and one of the most rabid of Pan-Germans, had a narrow escape from being handled roughly by an angry crowd at the railroad station at Friesenwalde, Brandenburg, recently according to a letter published in "Vorwaerts," of Berlin, a copy of which has been received here. A passenger train was crowded and excited passengers were struggling to get on when one saw a compartment in which sat one man by himself.

A rush was made for the compartment, but the door was not opened. Force was about to be used when the conductor opened the compartment. The lone passenger looked at the intruders, removed his hat to show his bald head and stroke his beard. It was Admiral von Tirpitz. He maintained a studied silence even, when some one stepped up to him and cried out:

"Yes, that's the way the Fatherland people are. They reserve for themselves the comfortable compartments and don't care if the people next door are crushed to death."

No reply was vouchsafed and no passenger dared take a seat in the Admiral's compartment.

Warned by Dream Gets Insured in Time

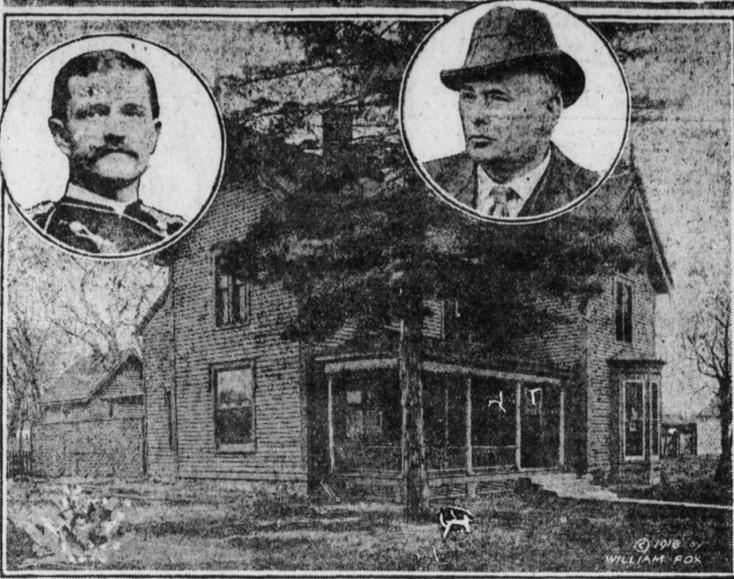

Kansas City, Mo.—A dream may have been a good "hunch" for Dr. T. E. Purcell, a dentist on the fifth floor of the Altman building.

Dr. Purcell said that the other night he dreamed the Altman building burned and his office and fixtures were a total loss. The next morning early he called his insurance agent and raised his policy from \$500 to \$1,000. His office was damaged slightly by fire two days later.

BIG GUNS ACTIVE TO-DAY

Paris, Aug. 8.—There was a further bombardment of the Paris region by the German long range cannon to-day.

Home Where General Pershing Was Raised, and an Old Schoolmate

GEN. JOHN J. PERSHING, GEN. PERSHING'S SECOND HOME IN LA CLEDE, MO. C. C. BIGGERS

This is the home into which the Pershing family moved in LaCledé, Mo., after they became prosperous. The house is standing yet, and since the general has become the commander of all the American forces in France it has attracted much attention. C. C. Biggers, schoolmate and intimate friend of Gen. Pershing still lives in LaCledé. He knows the hero of America perhaps better than any except members of his family.

Steelton News Items

Harry J. Coder Arrives With Boys "Overseas"

HARRY J. CODER

Harry J. Coder, son of Mrs. Sarah A. Coder, 101 South Front street, has arrived with the forces "overseas." The local boy, who is a member of Company A, Three Hundred Sixteenth Infantry, was in the first draft quota called September 20.

WEEKLY DRILL Men subject to draft in this district are requested to take part in the weekly drill of Company B, of the Steelton Reserves, to be held on Cottage Hill this evening.

JOSEPH CORIL DIES Joseph Coril, 221 Main street, died at the Harrisburg Hospital this morning after a brief illness.

AT FRONT AGAIN In a letter written late in July received in the borough yesterday, it is stated that Ray and Carl Shelley and Douglas Beidel, three local boys driving ambulances in France, are again at the front. The boys were on leaves of absence for several weeks.

PLANT BENEFITS BY HEAT RELIEF

Many Workmen Report For Duty Today; Expect to Operate Normal Soon

Operation of the local steel plant will likely be normal in the next twenty-four hours if the present weather prevails, it was announced at the offices of the Bethlehem Steel Company. The intense heat of the last two days crippled operation of the plant to a great extent and yesterday many of the departments were practically idle.

More men reported for work this morning and in all likelihood the remainder of the employees will be on the job to-morrow, officials said. The men were instructed to work under conditions where they are not likely to be victims of the intense heat.

Two departments of the local plant remained closed this morning while others were crippled by the shortage of employees. No. 14-inch mill was closed this morning when a furnace broke down and the squad of employees in this department was so small that repairs could not be made. No. 20-inch mill which was closed down on Tuesday when the men were unable to report for duty on account of the heat, remained idle to-day.

There is much interest among employees of the local plant in regard to the outcome of the controversy between machinists of the Bethlehem plant and officials. The war labor board handed down a decision in favor of the machinists which is encouraging to local machinists. Officials of the plant here this morning said at the present time the ruling did not effect any change here and were unable to say if it would at any time in the near future.

The Iron Age in to-day's issue is commenting on the award says: "The award of the war labor board to the machinists of the Bethlehem Steel Company, involving an eight-hour day, collective bargaining and the revision or discontinuance of the bonus system, is the most important event of the week to the steel trade. It brings up the whole question of the use of war exigencies to unionize open shops and of the extent to which the carrying out of the plans of militant unionism is to be put before united effort to hasten the ending of the war. That grave consequences are involved in the handling of the labor question as related to the steel industry is now more evident than ever."

Talking of other topics of interest to steel trade the Iron Age says further:

In respect to steel supply and demand, the outcome of the week has been, first, a decision by the war industries board averse to creating the additional reservoir of ship steel asked for by Director General Schwab; second, the gathering of data showing that the 33,000,000 tons of finished rolled steel which has been taken as the present annual capacity of the country, is considerably too low. In one stretch of five weeks, chiefly in May, it is shown that the rate was close to 38,000,000 tons of finished products per year.

"It appears that the ship steel in process or in stock at shipyards and fabricating plants amounts to about 1,000,000 tons. While the war industries board did not consent to increase the present shipments of 50,000 tons a week of ship plates by 20,000 tons a week through the next quarter, or even by the 10,000 tons a week later asked for, its members are confident there will be no break in the shipbuilding program for lack of steel.

"August humidity may bring down production, and probably will, but an increased rate would otherwise result from the blowing in of additional furnaces. The active list shows a net gain of eight in July. The number in blast August 1, was 364, with an estimated daily capacity of 112,000 tons against 356 on July 1 with a daily capacity of 111,130 tons."

Steelworker Is Victim of Yesterday's Intense Heat

Tony Cullie, aged 36, employed at the local steel plant, is the first victim in Steelton of the intense heat wave. A large number of persons have been overcome by the heat, but Cullie is the first to be reported to die from the effects. Cullie, who resides at 215 South Front street, was seized by the heat about 6 o'clock and died shortly afterward, before medical aid could be summoned.

Steelton Band to Give Weekly Concert Friday

The Steelton Band will give the third of a series of weekly concerts at the Lawn Playground to-morrow evening. Director Zala, who has been arranging programs of patriotic selections, announced the program yesterday, which will include high-class numbers. The program is as follows: "America"; march, "Anthes"; melodies from "Kalinka"; overture, "Fest"; mazurka characteristic, "Amorosa"; march, "Rajah's Sunshine"; excerpts from "Robin Hood"; waltz, "Tres Jolie"; "Star Spangled Banner."

MANY SWIM IN RIVER Hundreds of Steelton residents last evening enjoyed a dip in the Susquehanna river along the West Shore near New Cumberland. The local bathers went to the swimming hole on the ferry boat, in rowboats and canoes.

FISHERMAN KEEPS ALIVE 10 DAYS ON QUART OF WATER Boston, Aug. 8.—A quart of water kept a Gloucester fisherman alive ten days as he drifted at sea in an open boat. His only other sustenance was a bit of fish left in the bottom of his dory. For the last four days he was without either food or drink. Such, briefly, is the story brought to this port yesterday by Carlos Mocho, a Portuguese, when the fishing schooner Genesta landed him here.

EMBARGO ON ANTHRACITE Philadelphia, Aug. 8.—Shipments of all domestic sizes of anthracite coal was yesterday ordered discontinued by the anthracite committee of the United States fuel administration to 12 points in New Hampshire and forty-four in Connecticut. Most of the places are small towns and villages.

GIVES CHATEAU TO RED CROSS New York, Aug. 8.—Mrs. William E. Corey has given her French home, the Chateau Villegentise, near Paris, to the American Red Cross as a convalescent home for wounded American aviators. It was announced here to-day by Lawrence Harris, aid to Major James H. Perkins, Red Cross Commissioner to Europe.

DETROIT FARES JUMP Detroit, Mich., Aug. 8.—An increase in street car fares here was announced yesterday by the Detroit United Railway. Effective to-day the new rates will be six cents cash, or ten tickets for fifty-five cents in advance to the American Red Cross. It was also announced that the eight-for-a-quarter tickets, good during the rush hours, morning and evening, will be withdrawn.

DESPONDENT WOMEN Nature intends every woman to be cheerful, light-hearted and happy, but when dragged down with pain and suffering from female ills, will power alone cannot overcome a nervous, despondent condition. Multitudes of American women, however, have found that there is one tried and true remedy to restore health under such circumstances, and that is Lydia E. Pinkham's Vegetable Compound, made from herbs and roots. This old-fashioned medicine is now considered the standard American remedy for such conditions.

TRY MAGNESIA FOR STOMACH TROUBLE It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Acid Indigestion. Doubtless if you are a sufferer from indigestion you have already tried peppin bismuth, soda, chloroform and various digestive aids and you know the results will not cure your trouble—in some cases do not even give relief. But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little bisurated magnesia, not the ordinary commercial carbonate, citrate, oxide or milk, but the pure bisurated magnesia which you can obtain practically any drugist in either powdered or tablet form. Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous acid which you can obtain in your stomach, which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the ordinary or heavy, lumpy feeling that seems to follow most everything you eat. You will find that if you take a little bisurated magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow, and moreover, the continued use of the bisurated magnesia cannot injure the stomach in any way before medical aid could be summoned.

Police Send Boys Home Who Ran Away Tuesday

Blain Laird and Raymond Wertz, aged 10 and 14, respectively, who were reported lost Tuesday when they went on a fishing trip, were brought to this city this morning by a former living near Rutherford, and sent to their homes by the police department.

Police said the boys ran away from their homes. Both were barefooted and had no money. They left their boat where they were fishing near York Haven and did not return. Blain Laird is the son of M. L. Laird, employed at Marsh Run and Wertz is the son of Adam Wertz. Their homes are at Alpine, York county.

Wiconisco Man Severely Wounded in July Drive

Wiconisco, Pa., Aug. 8.—Word was received here to-day by Clayton Keen, that his son, Lieutenant C. LeRoy Keen, was severely wounded in action on July 15. Lieutenant Keen is a member of Company I, Thirtieth Infantry. He is a member of the Dauphin county bar and was a law student at Columbia University, New York. He was commissioned at Fort Oglethorpe.
