

ALLIES DEFEAT SOVIET ARMY IN HARD FIGHT

Japanese Bear Brunt of Battle; Americans Not in Line

Vladivostok, Monday, Aug. 26.—The enemy in considerable numbers attacked desperately along the Ussuri front last Saturday. All the allied forces participated in the fighting, except the Americans. Upward of 300 of the enemy were killed.

The Japanese bore the brunt of the fighting. They captured two armored trains and several field guns. According to a wounded Czech, the Japanese, infuriated by finding the mutilated corpses on the battlefield, charged and routed the enemy in the face of heavy machine gun and rifle fire.

The Japanese report that the allied troops are advancing steadily. Entente and Czech-Slovak patrols to-day succeeded in disarming all the Russian volunteers who had revolted and had gone over to Lieutenant General Horvath, the anti-Bolshevik leader in Eastern Siberia. After a discussion lasting an hour, the council of commanders presented an ultimatum to the troops in revolt who numbered 400. They were told they could remain in Manchuria or submit to disarmament.

Last night the entente allied and Czech-Slovak patrols appeared in the streets in the vicinity of the barracks and virtually besieged the revolutionary committee. The latter had been warned and they closed their doors to the allied emissaries and refused to treat with them for hours.

Eventually, however, they submitted to disarmament without violence. Thus an intolerable situation promising local disturbances was ended.

General Horvath thus completely falls in his attempt, with the aid of General Pleshkoff, to establish a dictatorship in Siberia.

Lieut. D. Robertson, Veteran, Dies at 87

Brooklyn.—Lieutenant David Robertson, U. S. A., who had been a hospital steward on Governor's Island for sixty-four years, being the oldest enlisted man in the United States Army, both in years and in service, and who numbered among his friends practically every officer from the days of Grant to those of the present day, is dead at Governor's Island. He had been ailing only a week, and the cause of his death was given as infirmities of age, as he was 87 years old.

Although retired on full pay by a special act of Congress in March of 1911, as a reward for his faithful service to the Government, Lieut. Robertson continued to live on Governor's Island and work in the post dispensary until his recent illness. Lieutenant Robertson was born in Scotland and was graduated from the University of Edinburgh. He came to America when he was 21 years old, and in May, 1854, he enlisted on Governor's Island where he was a hospital steward. He could have retired on half pay after thirty years of service, but he preferred to continue in active service. Lieutenant Robertson served under Grant, Sherman, Sheridan, Hancock, and many other famous officers.

A movement started to retire Lieutenant Robertson under a special act of Congress on July 1st was learned of by former President Taft, when he was Secretary of War, and he gave it his endorsement, but drew up the bill, which was passed by Congress while he was President. The bill was endorsed by Senator Elihu Root and nearly every officer who had held a leading position at the post for the twenty-five years prior to that time. The bill provided for his retirement as second lieutenant, his rank previous to that time being that of sergeant.

Lieutenant Robertson made a reputation for himself in his activity and devotion in the care and treatment of wounded and sick soldiers on Governor's Island during the Civil War. There were between 2,000 and 4,000 on the island at one time. He nursed only officers and civilians through three epidemics of cholera and two of yellow fever.

RECRUITING JEWISH BOYS

Maurice Swartz, who enlisted some weeks ago in Harrisburg in the British and Canadian Zion Regiment for duty in Palestine, has been detailed to this city until September 20 for the purpose of recruiting Jewish boys in the Canadian Army for service in Palestine. No American-born or naturalized citizens may recruit in this regiment. This will be the last opportunity which Jewish boys will have to enlist in this regiment, and those desiring to do so should get in touch with recruiting headquarters at 22 North Fourth street, without delay. Recruits will be sent to Canada for initial training, and later to England to finish training preparatory to their departure for service in Palestine.

RECITAL FOR RED CROSS

West Fairview, Pa., Aug. 30.—A recital for the benefit of the Red Cross Auxiliary will be given in Red Man's hall to-night. An entertaining program has been arranged for the affair.

Divinity Schools Warmly Defended

Philadelphia.—Are the theological schools turning out scholars, not ministers? Dr. George G. Bartlett, dean of the Protestant Episcopal Divinity School, says they are. The Rev. Dr. William H. Roberts, stated clerk of the Presbyterian General Assembly, speaking for the Presbyterian Church, does not agree with him. Dr. Bartlett's attack on the divinity schools of the country was made in an address at a conference of theological professors and administrators of the United States and Canada at Harvard University. "Professor Bartlett is entitled to his opinion," said Dr. Roberts, when asked for his view, "but I think it is limited to the churches of which he has special knowledge. So far as the Presbyterian theological seminaries are concerned, beginning with Princeton, the oldest of them, the effort is to turn out competent ministers who

have an education which fits them for their high calling. Presbyterians have always believed in an educated ministry.

In his address at Harvard, Dean Bartlett said the schools are trying to turn out scholars instead of practical ministers, and that as a result of the lack of enthusiasm on the part of the students themselves has become a real tragedy. He advocated a radical readjustment of the whole range of theological training.

"The existing curricula of divinity schools," he said, "are inadequate to make prospective ministers competent to meet the demands of human nature."

"The primary, though not the noblest duty of the seminary, is not to breed scholars but to train men for the ministry."

"In this country there are fewer niches and livings for scholars. We should have some system corresponding to the fellowships of Oxford and

Cambridge, to serve God by scholarship. There are too many third and fourth rate men crowding into the ministry. The causes of the present inadequacy arise from the development of the theological field. Theology is now a composite of all human knowledge."

BURGLAR HELPS SELF TO JEWELS AND A BATH

Burlingame.—On the ground that cleanliness is next to Godliness, Chief of Police Lewis A. Vavaler, of this city, has instructed his officers to keep a sharp lookout for a clean burglar, who entered the home of Miss M. E. Maffery, school teacher, while she was on vacation, and after helping himself to some of her jewels, took a bath. That entrance had been forced was learned when Miss Maffery returned to-day. After the burglar had stuffed his pockets with pearl pins, gold bracelets

and a gold thimble and watch, he feasted on canned peaches and cookies that he found in the cupboard. He failed to wash the dishes, although a bath towel and a cake of soap in the tub indicated that he had bathed himself.

PATRIOTIC BURGLARS LEAVE 35¢ FOR WAR RELIEF

New York.—A burglary in the post office at Mongaup village, Orange county, was reported to the police at Otisville to-day. The burglars, who also deposited 35 cents in a war relief collection box as evidence of their "patriotism" out of the cash stolen from Postmaster West's till. They carried away stamps, but did not disturb War Savings Stamps.

MAN HIRES 20 MILES TO RESTORE SUGAR

San Francisco.—With a story of how one sheep herder in an isolated district in northern California walked twenty miles to return some sugar which he found he had overdrawn in his allotment, Ralph P. Merritt, Federal food administrator for California, returned to his office here, after a month's inspection of the food resources of the state. He said: "The spirit of self-sacrifice is evident everywhere and the state as a whole is prepared to do even more than it has done in the past in food conservation."

Fortna Holds Lead in Sale of War Stamps

R. K. Fortna continues to lead the Harrisburg post office mail carriers

force in the number of war stamps sold up to date. His record is \$16,310.88. The following is the report for sales ending August 24:

Fashion and Conservation in Men's New Fall Clothes

THE two essentials that have been strictly observed by master-tailors for Fall and Winter. When we conserve, we save, and it's a patriotic duty to save on clothing. It means more wool for soldiers and those doing war-work. It means better clothing for you. Finer fabrics and better tailoring, with prices that have been made as low as good quality will permit.

NEW FALL SUITS are fashioned of fine unfinished worsteds, flannels, velours, storm cloth and serges.

THE NEW PATTERNS featured are fancy shadow stripes, checks and solid shades of browns, greens, greys and blues.

The coats have military trimness in the fit of the waist, giving them a naturalness and a smartness that is most distinctive. These essentials coupled with finest tailoring mark the new Autumn suits as the preference of well-dressed men and young men.
