Property Owners Take Notice
Every deed in the city of Harrisburg MUST be registered in the City Engineer's Office. Why put yourself to the inconvenience of going to the City Engineer's Office and getting the form, preparing the copy yourself, and possibly have to rewrite it because of a mistake, then take the deed and copy back to the City Engineer's Office and stand in line awaiting your turn to have it registered, when you can simply leave the deed at my office and I will have it registered and see that the deed is returned to you, for the small charge of sixty cents?

CAN YOU BEAT IT?

A BLOCK 120x160 Surrounded With Fine Homes

Away back in 1911 I bought some ground in the Shreiner section of Allison Hill, Harrisburg. I made this investment because I felt certain that this section being so close to the center of the city and having such superb surroundings that people would want to live there, and that therefore my investment would be safe and at the same time probably give me a good interest return.

To prove the correctness of my conclusion, within the following five years over 500 homes were built in the area east of Fifteenth and north of Walnut and the growth was only slackened by the scarcity and high price of building materials. This building activity will certainly be revived at the earliest possible moment after the conclusion of the war, which the events in Europe at this time indicate will not be longer than two years at the latest.

I want to dispose of some of the ground I hold for the very good reason that I have more than I can build unaided as quickly as it should be done.

Now you may have in mind a new home for yourself when conditions again become normal, or you may have saved up a little money that you desire to invest to advantage. In either case, I think I can offer you something that will inter-

est you. It is a well-known fact that the person who secures the best bargains and reaps the quick profits is the fellow who buys in advance of any boom, and a real estate boom in this city as soon as the war is over is as certain as that Germany is going to be beaten.

If you would like to own a corner, 40x100 feet, or a block 110x110 feet, or a lot 20x110 feet or an acre, on some part of Sixteenth, Seventeenth, Eighteenth, Briggs, Forster, Boas, Herr, Cumberland, Verbeke or Calder streets, I can fix you up. It can be had with paved streets, sewered, water, gas and electric facilities, or farm land, at a price that will warrant your holding until improvements are made.

I can give you any kind of terms of payment that will suit you. The ground is mine and I don't need the money immediately.

Come out, look over the ground, compare it and its possibilities with any in or around Harrisburg, consider the class of the neighborhood and the enhancement that will come to this section as the Capitol Park plans are advanced, and, if interested, see me any time, day or evening. Or take it up through your real estate broker.

You will not be using your car tomorrow, but you can enjoy yourself by taking a walk through this section.
