

War Department Not Favorable to Low Fares For Soldiers and Sailors

Washington, Oct. 18.—Reduced railroad fare for soldiers and sailors is opposed by the War Department. In a letter to Chairman Chamberlain of the Senate military committee, opposing a bill by Senator Clayton of New York, proposing a cent a mile rate, Acting Secretary Crowell wrote:

"While it is recognized that such legislation would be very acceptable to the officers and enlisted men of the Army, it is felt that it would result in an increase of travel over our already much congested railroads incommensurate with any advantage gained."

Advance in Fares Allowed For War

The Public Service Commission in an extended opinion by Commissioner James A. LeCompte, dismissed complaints against the increased fares, including an advance to six cents, inaugurated last June by the Indiana County Street Railway Company, but in so doing says: "As the increased cost of operation due to the abnormal conditions now existing is the ground for supporting an increase in the rates of fare it would be only proper that when these conditions cease the old rate should be restored or the company be required to show that it is still entitled to the additional revenue." The rates are approved until January 1, 1919. The opinion also commends to the notice of the company statements by witnesses that cars are operated irregularly and condition of cars and directs that service be improved. Complaints against the Shamokin and Mount Carmel Transit Company by Francis Trovinger and John V. Carroll are dismissed by Chairman W. D. B. Alney in an opinion which says that proper notice was given and directs that the cases against the reasonableness of an advance in fares be listed for hearing.

HEALTH BOARD GIVES WARNING OF INFLUENZA DANGER

Ask People to Be Careful and Take Proper Treatment Promptly. Many Pneumonia Cases Follow Influenza. What to Do.

To be prepared for the serious outbreaks of influenza and pneumonia that are now sweeping over the entire country and that have seized on this community, Public Health Boards everywhere are issuing cautions and instructions to the public not to neglect treatment at the first symptom of a cold and to co-operate with the board and physicians in stamping out the spread of the disease. No disease develops so quickly or spreads so rapidly. The first symptom usually is a sharp rise in temperature to 103 or 104 degrees, headache, pain in the back, throat feeling dry or sore. Unless promptly checked by proper treatment, the best plan is to go to bed and stay there for at least a week, keep warm to avoid pneumonia, and let the minor ailment run its course and also prevent the spread of the disease to others. Most of us, in these busy days, cannot afford, if it can be avoided, to lose a week or more of work, so it is all the more necessary that at the very first sign of grip or influenza a counter-acting treatment should be taken. Probably no better or more effective treatment could be followed at such a time than to get from the nearest drug store a complete Hyomei outfit, consisting of a bottle of the pure Oil of Hyomei and a little vest-pocket, hard rubber inhaling device into which a few drops of the oil are poured. This is all you will need. Put the Inhaler in your mouth and breathe its air deep into the passages of your nose, throat and lungs. Every particle of air that enters your breathing organs will be saturated with an antiseptic, germ-killing balsam that will absolutely destroy the germs of influenza that have found lodgment there. You can't do this too often. The Hyomei Inhaler is small and can be conveniently carried in a handbag or in your vest pocket. Every half hour or so throughout the day take it out and draw a few breaths of its pure, healing air into your nose and throat. Relief comes almost instantly. The Grip or influenza symptoms subside. Congestion ceases, fever disappears, throat conditions become normal and you soon are feeling fine. The outfit is not at all expensive, for the rubber inhaler will last a lifetime, while the Oil of Hyomei can be obtained at little cost from any reliable drugist. Lots of people already have a Hyomei Inhaler. Take it out, charge it and use it without delay. If you haven't one, get it to-day. A few cents spent now may easily prevent serious illness and save you many dollars and help stamp out the spread of the disease.

Women of America Are Urged to Fight "Compromise Peace"

New York.—An appeal urging the women of the United States to demand unconditional surrender as the only price of peace has been sent by Elizabeth Marbury, honorary president of the Women's National Committee of the American Defense Society, to the local branches of the organization throughout the country. Her appeal reads:

HELP THE ORPHANS

Scores of children in Harrisburg are being made orphans through the agency of the dreaded influenza. The Red Cross has started a fund, the object of which is 100 contributors giving \$25 each, to support these destitute children! It is urgently requested that contributions be made at once. They should be forwarded to the headquarters of the Harrisburg Chapter, American Red Cross, in the basement of the Public Library.

Factors in Kansas Election Campaign

Topeka, Kan.—As a typical agricultural state, the political reaction of the war here is the subject of much discussion. Kansas in the 1916 campaign gave Wilson a majority of 36,900, and at the same time elected Arthur Capper, Republican. Governor by 182,000 and the Republican state ticket otherwise by 80,000 to 100,000. Five Democratic Congressmen were elected by from 2,000 to 10,000 majorities and three Republican Congressmen by 2,000 to 8,000. This year all the Congressmen are candidates for re-election; Capper is a candidate for United States Senator. On the face of it, Kansas ought by all precedent to be heated to fever temperature over the campaign. The truth is that politics is so quiet that one would scarcely be aware that an election is nearly due.

Escapes Hun Prison, Too; News Gladdens Turkey Run

Shenandoah, Pa., Oct. 18.—The Slovick family of Turkey Run, a suburb, are happy over a message from the government stating that Frank Slovick, reported missing in action July 18, again is back on the firing line in France. The message states the young soldier was taken prisoner and was in a German prison camp, when he managed to evade his guards and by traveling at night and hiding in the daytime, succeeded in reaching Switzerland. There he reported to the Red Cross and was sent back to duty. Slovick was one of the men on the transport Tuscania, which was torpedoed off the north coast of Ireland, but escaped.

QUESTIONNAIRES TO GO OUT

Every registrant of September 12 who has not been sent a questionnaire is to be sent one within a few days. According to present voting regulations this means that every registrant is to be classified, but that only those included in the original order are to be inducted for the draft. Many thousands of men between 18 and 46 will be sent the questionnaire, as well as those between 18 and 21 who did not receive the blanks this fall.
