

ALIEN TONGUES HERE TO BE MADE SPEAK IN ENGLISH

Representatives of Foreign Races to Meet For Discus- sion of the Plans

Representatives of all foreign races in the city will be requested to attend a meeting to be held this evening at 8 o'clock in the City Council Chamber, when plans for the Americanization work to be done in Harrisburg under the direction of the school district, will be explained. The men who have been invited to be present will be urged to arouse interest among others of their nationality and get them to enroll in the night schools which will be opened November unless the influenza epidemic interferes.

Plans made by Prof. John H. Bickley, supervisor of special activities for the school district, will be explained at the meeting by both Mr. Bickley and R. Ross Seaman, chairman of the Americanization Committee for the State Council of National Defense.

It is planned to have the night schools held on Monday, Tuesday and Thursday evenings at the Central High school, Capital and Forster streets, and the Harris building, Front and Pine streets. Classes will be held for men and women and will be free. All necessary supplies for the men and women will be furnished without cost also.

The Americanization movement here is part of a nation-wide campaign to teach all foreignborn residents to speak the English language entirely. A census which has been almost completed shows that about 4 per cent of the parents of city school children use a language other than English at all times in the home and that in an additional two per cent of the families English and a foreign language are spoken.

In addition to the study of English, Mr. Bickley has announced he has plans under consideration which will provide recreation also for the men and women. The hours for the classes will be from 7.30 o'clock until 9 o'clock. The first part of the evening's work will be a study of language and American customs.

The remainder of the time will be used for other activities which will include debating, chess clubs and probably the formation of a band or an orchestra.

Red Cross to Show Picture of Activities in Wartime

A special film entitled "For All Humanity" visualizing the many activities of the American Red Cross will be shown at the Central High school, Capital and Forster streets, at 8 o'clock this evening. The picture is intended to show the people of the United States what the millions they contribute to the Red Cross do in three, four, five and six months of service they give in France. The story of the picture was filmed in the studios of the Norma Film Corporation, with both stars as Jane Vance, Jack Harland, Clara Goodwin and Betty Clark in the principal roles.

No definite date for the showing of the picture in Harrisburg has yet been set. It will probably be shown near the Christmas season.

Belgian Government Seat to Be Moved to Bruges

HARRISBURG, Oct. 24.—The whole of the province of Western Flanders and part of Eastern Flanders and Hainaut, Belgium, the Belgian government has decided to establish its administrative departments in Bruges.

Instantly! Stomach Feels Fine! No Indigestion, Gases or Acidity

Stomach upset? Belching acids, gases and sour food? Instant relief awaits you.

The moment Pape's Diapepsin reaches the stomach all the indigestion, dyspepsia, gases, heartburn and sourness vanish. No waiting! Magic! Don't suffer!

Costs little, at any drug store. Eat favorite foods without fear.

UPSET? Pape's Diapepsin WILL PUT YOU ON YOUR FEET

IMPROVEMENT IN GRIP EPIDEMIC

[Continued from First Page.]

or two are making those statements without any authority," Dr. Raunick said.

Not Yet Safe
He also explained that there has been a general decrease in new cases of influenza, but that he expects an increase in pneumonia cases and more death from pneumonia than cases reported. The reason for this, according to Dr. Raunick, is that a number of persons recovering from influenza believe they are well and expose themselves, get sick again and pneumonia develops. "Other cities are having that experience again. Harrisburg should profit by the warning. Those who are recovering from influenza should be particularly cautious and do everything possible to prevent a second illness and the danger of contracting pneumonia."

Undertakers in the city report increasing difficulty in securing coffins with the result that many bodies are being held in morgues. In some instances, funerals have been delayed. One undertaker said that coffins to be used to-day as the services were to be held this morning, had not reached the city until last night.

Only 60 in Hospital
At the Emergency Hospital there are only sixty patients now. Four were admitted yesterday. No deaths were reported in the last 24 hours at the institution, but Charles Stees, one of the patients who is being making a hard fight for life, is now in a critical condition. Eight deaths from influenza and none from pneumonia were reported to-day for which burial certificates were issued by the local Bureau of Vital Statistics. Undertakers reported that the delay in getting coffins is one of the reasons for the decrease in applied deaths from the certificates.

The exact number of new cases could not be estimated by the authorities, but Health Officer Raunick said the situation has improved greatly. Of the new cases which are appearing he believed that they in the same families, other persons in the house contracting the disease because they came in contact with those who are just recovering.

In addition to closing all stores again on Saturday night, churches and Sunday schools will remain closed, Dr. Raunick stating that the ban on public gatherings must be continued until all danger is past. Seventeen deaths were reported yesterday and nineteen on Tuesday, both records about 25 per cent lower than on the same days last week.

Gain in New Cases Reported Yesterday

New cases of influenza reported yesterday were 1,500 ahead of Tuesday, the total for the day being 5,239, of which Pittsburgh reported over 1,000 alone. The hard and soft coal regions continue to be centers of the disease, according to state authorities.

A statement issued says: "The city of Scranton now reports a total of 6,477 cases and the disease is reported to be spreading rapidly in Carbondale, Taylor and Dunmore. The epidemic is apparently decreasing in Adams county, and Montgomery county and conditions are improving in Delaware county and in Northampton county. Harrisburg and the lower end of Dauphin county continue to show improvement. The total number of deaths from influenza and its complications reported up to 1 o'clock to-day is 14,451. The number of deaths from pneumonia, 5,885. A total of 20,134 deaths since October 1."

In regard to Dr. Charles E. Penrose's charges, Acting Commission-

Epidemic Grows in State's Coal Regions

The State Department of Health issued this statement to-day: "Reports received at the State Department of Health up until noon today indicate the influenza epidemic is extending rather rapidly in the coal towns in Cambria, Westmoreland and Allegheny counties. There is a great need for doctors and nurses in these districts and it is feared conditions will rapidly grow worse and a larger number of cases develop before the peak of the epidemic is reached. The epidemic is also increasing in Luzerne and Lackawanna counties. The disease is apparently abating in the city sections of Chester, Philadelphia, Lancaster, Berks and Schuylkill, but is extending in the rural sections of Berks, Lebanon and Lancaster counties.

Dr. Draper Coming Here to Help in Epidemic

"Dr. B. Franklin Royer, Acting Commissioner of Health, announced to-day that Dr. Draper, past assistant surgeon, of the Public Health Service, who has been active in fighting the influenza epidemic in Massachusetts has been transferred to Penn-

through with separate dealings with the German authorities. The whole situation is before the co-belligerent governments and the future announcements will be of the United States and the Allied governments acting in concert.

Three Deaths of Influenza at Harrisburg Hospital

Three deaths were reported at the Harrisburg Hospital since yesterday as the result of the Spanish influenza epidemic. Eight new patients were admitted. The deaths are: Mrs. Lizzie Schumack, 1201 North Front street, aged 33, died at 1.15 yesterday afternoon.

Mrs. Maude Wilson, 1827 Susquehanna street, aged 22, died at 1.50 this morning.

Francesco Chaves, New Cumberland, aged 34, died at 3.30 this morning.

Miss Katharine Naughton, assistant superintendent at the hospital, is seriously ill with influenza. Miss Naughton worked every day, and late into the night, during the epidemic of influenza. Ignoring the danger of overworking among influenza patients, Miss Naughton kept at her tasks until she herself fell a victim to the disease. She has been ill all week, and it was reported this morning that her condition was no better.

Anarchist Band Is Convicted by U. S.

New York, Oct. 24.—Five of the six Russians who have been on trial in Federal Court on charges of having violated the espionage act were found guilty by the jury after an hour's deliberation last night. The defendants, all avowed anarchists, tried vainly to introduce evidence designed to discredit the Sisson revelations concerning German and Bolshevik duplicity in Russia.

BRITISH IN RAISMES FOREST London, Oct. 24.—The Raismes forest, north of Valenciennes, has been occupied by the British. North of the forest the British have captured the villages of Thiers, Haute Rive and Thun.

House Tax on Distilled Spirits Cut by Senate

Washington, Oct. 24.—The new tax on inheritances, proposed by the Senate Finance Committee in raising war revenues proposes that inheritances received by heirs, instead of estates left by deceased persons, shall be the subjects of federal taxation, after state inheritance taxes are imposed.

The revenue of the government probably would be half of the \$110,000,000 levy on estates proposed in the House bill. Returns from life insurance policies under \$25,000 would not be taxed under the committee's plan.

Reduction of the rate on non-beverage distilled spirits and alcohol ordered to-day by the committee, was said to be in response to interests urging it in order to stimulate production of spirits needed for munitions and also to reduce the cost of medicines. The House had fixed the tax at \$4.40 a gallon. Recently the original House draft was reduced to \$3.20 and to-day to \$2.20 a gallon, which is the rate under present law.

Bandit Flees Holdup Scene; Leaving \$20,000 Booty

Hamilton, Ont., Oct. 24.—A lone bandit held up an express messenger and his assistant in the express car of a Grand Trunk Railway train as it was leaving Sunnyside yesterday, obtained a sealed bag containing \$20,000 and leaped from the train. The greater part of the stolen money was recovered in the afternoon in a house near the scene of the holdup. The bandit is still at large.

12 HUN MACHINES DOWNED By Associated Press

With the American Army Northwest of Verdun, Oct. 24.—Reports of American air victories yesterday continued to reach the officials until after dark, and it is known that at least twelve German machines have been brought down, while confirmation of the destruction of several others is asked.

FRENCH HEROES HELPED SAVE CIVILIZATION

These French heroes, hopelessy crippled in the war for freedom, got their wounds in helping to save civilization from the Hun. They are cheerful despite their incapacity. It is going to be one of the problems of reconstruction to find places in which men like this may continue to earn the living of themselves and their families.

YANKEE SOLDIERS' SHOES ARE TO FIT IN TEN CITIES

SUICIDES FEWER IN TEN CITIES

New System Adopted at Camp Pacific Slope Leads, San Diego

Dix Is to Be Used Generally

Having 43.2 Per Cent; 1917 Lowest

San Diego, Oct. 24.—The new system of fitting shoes for the army is to be used generally at Camp Dix, Wrightstown, N. J.

"The soldiers with the best feet are the best fighters!" is a slogan of the American armies. Uncle Sam already has the best-shod army in the field, but under the new plans of the War Department, adopted at Camp Dix and soon to be extended to every post in the United States and its possessions, foot comfort will be a guaranteed factor in every American soldier's field experience. Not only is the War Department determined that only the very best of materials shall go into Army shoes, but the shoes of each fighter will be fitted with as great care as military uses in choosing his gloves.

Recruits soon to report at Camp Dix for training will be introduced to this new system. They will learn that literally as well as figuratively "Uncle Sam builds his armies 'from the ground up.'" The foot measurements of each soldier hereafter will be personally responsible for the accuracy of these measurements. The measurements of his civilian foot will be taken when he comes to camp and this will be changed until it indicates the measurements of his military foot, developed by weeks of marching.

There will be no guesswork about fitting the shoes. The Quartermaster Corps is prepared to furnish foot-measuring machines to organizations throughout the camp for the use of supply officers. Experience has shown the supply officers that many recruits do not know the size of the shoes that will fit their feet. Often they think they know, when, from vanity's sake, they have been cramping a No. 6 foot in a No. 7 shoe and wondering why they continually suffer from corns and bunions. Dame Fashion had no part in creating the Army shoe, and for the first time in many years these recruits will learn the meaning of real foot comfort.

Under the new system the foot-measuring machines to be used at their work. Both feet of each soldier will be measured. If the feet require shoes specially mated, they will have them. If there is an irregular corn or bunion, the proper stretching of the leather to cover it will be arranged.

As the soldier will want his shoes to fit snugly on the march, the final measurements will be taken when the soldier with a forty-pound pack on his back puts his feet into the shoes of the size indicated by the measurements. Experts will examine the fitted shoe to see whether it is suited to the wearer. All Army shoes must allow for sufficient room in the space in the front to prevent toe injury. Under no circumstances must the vacant space in front of the foot be less than two-thirds of an inch, or the width of the wearer's thumb.

Fitted With Great Care
As great care is now taken in fitting socks as in adjusting shoes. The fitted socks of early war days, if soldiers were allowed to wear them, might have carried many a boy to defeat. Home folks who send socks to the recruits will be interested in an abstract from the new orders which reads:

City and County to Join on Memorial Roll For Dauphin's Men in Field

City and county commissioners will hold a joint meeting to-morrow morning at 11 o'clock in the Council Chamber to decide on erecting a memorial honor roll for the men from Harrisburg and Dauphin county who are now in service.

A few weeks ago plans for the erection of such a memorial were discussed in Council and it was decided by the city officials to discuss the question at a conference with the county commissioners so that the memorial could be represented.

One of the honor rolls which has been suggested would provide sufficient space to include all the names of men from the city and county who are in war service. A system of notation also is arranged so that when a soldier is killed, wounded or missing it can be shown on the honor roll.

Big Deficiency Bill Reaches the Senate; Speed Shown in Program

Washington, Oct. 24.—The military deficiency bill, carrying \$9,345,523,688, only a slight decrease from the original House draft, was reported to the Senate to-day by the appropriations committee.

Anticipating speedy passage of the bill by the Senate, the House to-day interrupted its three-day recess program and adjourned until to-morrow so that no delay might result in sending the measure to conference. Among the increases needed to be reported to the Senate to-day by the appropriations committee was an appropriation of \$500,000 for interstate quarantine service by the Public Health Service and an additional \$800,000 for contingencies of the army.

A section amending the trading with the enemy act to give the alien property custodian authority to take over property held by an enemy or an ally of an enemy not holding a license with the United States was inserted.

British Take Villages as Battle Continues

London, Oct. 24.—Sharp fighting continued up to a late hour yesterday evening on the battle front south of Valenciennes, where the British attacked yesterday morning, says to-day's official announcement. The British have crossed the Escaillon river and have captured the villages of Neuville, Salesches and Beaudignies. German counterattacks late yesterday were repulsed. This morning the attack was resumed all along the front between the Sambre-et-Oise canal and the Scheldt.

French Hold All Gains Despite Counterattacks

Paris, Oct. 24.—Southeast of Le Cateau French troops have crossed the Sambre canal east of Grand Verly, says the official statement to-day. The French maintained their gains east of the canal in spite of strong German counterattacks. Fighting east of Montcornet further to the east, the French have increased their gains north of Nizy-le-Comte. Along the Serre there was lively fighting north of Mesbrecourt.

RUMANIANS CLOSE PORTS

London, Oct. 24.—The British admiralty reports that German wireless dispatches picked up at Moscow are to the effect that the Rumanian government has declared all Rumanian ports on the Black Sea and on the Danube closed.

COLDS

Head or chest— are best treated "externally,"

VICKS VAPORUB

NEW PRICES—30c, 60c, \$1.20

CAMPHOROLE AT ONCE RELIEVES COLDS

Easily Loosens Congestion and Drives out that Cold in the Head, Throat or Chest

If you have a sore, tight chest, cold in the head or a raw, sore throat, get a jar of CAMPHOROLE from the nearest drug store, and watch how it will loosen up that cough, cold and congestion in chest.

Do not treat your colds lightly; this is pneumonia season. The remarkable success of CAMPHOROLE is entirely due to Wintergreen, Menthol and Camphor, prepared in a synthetic way to give results. Physicians recommend CAMPHOROLE for Bronchitis, Sore Throat, Croup, Whooping Cough, Tonsillitis, Pleurisy, Neuralgia, Stomachic, Stiff Neck, Uterine Broncho-Pneumonia. At all druggists. Manufactured in Atlantic City, N. J.

Camphorole

Tells How to Stop a Bad Cough

Surprising results from this famous old home-made syrup. Easily prepared and costs little.

If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness, or difficult breathing, or if you cough wakes up during the night with croup and you want quick help, try this reliable old home-made cough remedy. Any druggist can supply you with 2½ ounces of Pinex. Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This recipe makes a pint of really remarkable cough remedy. It tastes good, and in spite of its low cost, it can be depended upon to give quick and lasting relief.

You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle and soothes and heals the irritated membrane that lines the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds.

There are many worthless imitations of this mixture. To avoid disappointment, ask for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.
