MINOR LEAGUES DECIDE TO PLAY

National Association Takes First Steps Toward Reconstruction

Peoria, Ill., Nov. 13.—With the advent of peace throughout the world the minor baseball leagues began making preparations for a comeback next year.

Despite the heavy hand laid on the minors by the great strife they are ready to return to the diamond next year and this fact was made public by the league heads at today's meeting.

Many reforms are expected to come to the surface during this meeting. Many franchises will undoubtedly change hands and some territorial changes are sure to be made.

The feature of to-day's program was the reading of the annual report by Secretary John H. Farrell. The report shows the condition of the minors, who boasted some thirty leagues two years ago.

Ten leagues, comprising sixty-six cities and towns employing 1,445 players, started the 1918 playing season.

Only eleven players were drafted by the major leagues, eight by the National and three by the American League.

The amount due the minors for drafted players is \$23,450. The National Association clubs paid out \$45,825 between themselves for the purchase of players.

Seventy-nine players were purchased from major league clubs by optional agreements and outright sales, costing the minors \$95,500, as against \$110,050 in 1917.

The Clark Griffith Ball and Ball Fund received a total of \$9,011.66 for the month of November from the American Association and the Eastern League.

MISS WANAMAKER IS STAR DRIVER AT MADISON SQUARE HORSE SHOW

Miss Isabelle Wanamaker, of Philadelphia, swept the vacuum cleaner over Madison Square Garden horse show yesterday, giving a first defeat with her tandem to Judge William H. Moore, who generally wins a bulk of the events.

Miss Isabelle Wanamaker on her bay gelding, Cherrystone, was placed second and the gray gelding, Joseph Sautler, from the Woodin Farm, third.

One of the thrilling features of the day was the drill by the traffic police, which never shows to better advantage before a critical audience.

It took the judges more than the average time to pick the winner in the class for saddle horses over 14.2 and under 15.2. Four of them were of remarkable even quality and there was little to choose even when the blue ribbon fell to Mrs. Charles M. Allaire's chestnut mare, The Minister.

PERSHING'S ARMY AWAITS ORDERS

At eight o'clock, the onslaught was preceded by a tremendous barrage, which was returned in kind by the enemy. For three hours the Americans swept forward, hurling themselves against the wire entanglements.

The German gunfire was devastating. Then, at exactly one minute of eleven, like a final thunder crash at the clearing of a storm, the guns on both sides abruptly ceased.

The American answer to the German message follows: "Received your radio. Orders have been given for the American activities signalled on the Stenay-Beaumont front to cease immediately."

Approximately 8,700 tons of shells were shot in the Hyner Hun district yesterday by one of a party of hunters composed of Representatives Richard S. Quigley, Grant Caldwell, H. C. Trowell, Tim O'Connell and Lewis McGill, this city, and Irvin Bauman, of Queen's Run.

Huns Appeal to Foch Blasting by American engineers in a road-repairing detachment caused the German high command to send a message to the Allied high command on Monday afternoon contending that the Americans had not ceased hostilities on November 11.

The message sent by wireless to the Allied high command was timed 2 p. m. and read: "On the front of Stenay-Beaumont along the Meuse, Americans continue despite conclusion of armistice. Please order the stopping of hostilities."

The issue of the school paper will be late in being distributed to the students. The second issue will be published at the normal time prior to the Christmas holiday.

Dempsey a Real Fighter

It took the humiliating defeat of "Battling" Levinsky, by way of a knockout, to place the final stamp of approval on the fist of Jack Dempsey. If there were those who doubted the genuineness of his amazing clean-cut boxing, the defeat of Levinsky, latest and perhaps his most brilliant ring achievement in knocking out the little, wiry, and speedy rounds, cannot be lightly lapped off as another "one of those things."

Jack Dempsey had never been different, were outwitted every time this smallest of the heavyweights. He was never a great fighter in the sense that he was a knocker-out. He was a fighter in the sense that he was a warrior, as clever a man in that respect in his class as Welsh was in his.

He may have been on the down grade. The fact remains that for nine years he has looked knock-out all opponents. He has never failed to bob up and sneeze.

There wasn't a heavyweight of his time that wouldn't have gloriied in stopping "Battling" Levinsky for the simple reason that it would have been a heavy weight of distinction to have been able to print the magic K. O. before his name. Dempsey is the only man to have accomplished it.

Some of the ancient and honorable names of the ring had it that Levinsky was once knocked out when fighting under the name of Barney Williams. That didn't matter. If it did transpire then it was in the days of his pugilistic infancy. Now Levinsky moved into select fighting with "Dan" Morgan as his mentor, has turned the trick, and with such dispatch and crushing force that the old-time pugilists are ashamed of what have been barking over the fence at him must be experiencing a new dawn.

"We'll allow that if "Jack" isn't a fighter, he is a fighter. He is entitled to all the big things that have been said of him. Even "John" Harber" will have to admit that.

The first remark that Dempsey made in making "Battling" Levinsky away for the evening was that he was going right after the others. He was going to clean up the way of challenges. "Jack" added, with little or no flourish, that he was going to bring the whole bunch of the chances were over his head. He settled that argument by himself. He is entitled to all the big things that have been said of him. Even "John" Harber" will have to admit that.
