

Governor Martin G. Brumbaugh's Final Message Read Before General Assembly at Opening Session

EARLY COMPLETION OF THE CAPITOL PARK EXTENSION IS URGED BY CHIEF EXECUTIVE

Wants Legislature to Thank Able Commission

PROHIBITION IS ENDORSED

Free Education of Returned Soldiers Recommended

Governor Brumbaugh, in his farewell message to the Legislature, read today, after recommending the early passage of the national prohibition amendment, the modification of the direct inheritance tax law and the free education of returned soldiers who desire to complete their college courses, takes up at some length the subject of the Capitol Park extension and urges early action on it.

"The work of securing the property in the Capitol Park Extension, begun under Governor Tener, has been continued," says the message. "The commission named by my predecessor has at a cost within the appropriations made, completed its labors and filed its final report. It has recommended that the State purchase the property in the Capitol Park Extension, involving over five hundred separate titles and many corporate interests, have passed in fee simple to the Commonwealth. This commission has performed a most difficult task in a most capable manner. Because of the importance of the labor performed, the absence of compensation to the members, the wholly commendable character of the work and the fact that I urge you to pass an appropriate resolution of appreciation for this service. The commission of grounds and buildings has proceeded with the plans for the development of this zone and has approved the plans made under its direction for a general long expansion of space for the business of the Commonwealth. The project includes a great memorial bridge to the sailors and soldiers of Pennsylvania in the great world war. This bridge is to extend eastward on State street to the hills of the city. I urge you, in cooperation with the Pennsylvania Railroad Company and the City of Harrisburg, to make provision for the immediate erection of this bridge. Its value both as a utility and as a memorial is manifest. Delay is fraught with many menaces.

Quick Relief for All Rheumatisms

So Crippled You Can't Use Arms or Legs, Rheuma Will Help You

If you want relief in two days, with certain, gratifying relief, take a small dose of Sloan's Liniment every day. You want to dissolve every particle of uric acid poison in your body and drive it out through the natural channels so that you will be forever free from rheumatism, get a little of Sloan's Liniment, and you will be free from rheumatism at once. It must give the joyful relief expected or money refunded.

Who Should Take Nuxated Iron and Why They Should Take It

Physician Explains—gives Practical Advice on What to Do to Help Build Up Your Strength, Power and Endurance and Increase the Red Blood Corpuscles.

Commenting on the use of Nuxated Iron as a tonic, and blood builder, Dr. James Francis McManis, formerly physician of Bellevue Hospital (Out-door Dept.) New York, and the Westchester Hospital, says: "I urge the use of Nuxated Iron in the blood of American men and women that I have often remarked at the large number of people who lack iron in the blood and who never suspect the cause of their weakness, run-down state. Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, easily fatigued, but it utterly ruins him of that virile force, that stamina and strength of will which are necessary to success and power in every walk of life. It may also transform your beautiful, sweet tempered woman into one who is cross, nervous and irritable. I have strongly emphasized the great necessity of physicians making blood examinations of their patients, run-down patients. Thousands of persons are run-down because of a deficiency of iron in their blood corpuscles. Without iron in the blood, the real and true cause of their trouble. With iron in your blood your food nearly passes through the body, something like corn through an old mill with rollers so wide apart that it will not grind. "For want of iron you may be an old man at fifty, dull of intellect, run-down in memory, nervous, irritable, all run-down, while at fifty or sixty, with plenty of iron in your blood, you may still be young in feeling, full of life, and your young being brimming over with vim and energy. "As proof of this take the case of former United States Senator and Vice-President Nontruffe Charles A. Rowe, who at past 58 is still a veritable mountain of iron. He says: "I have found Nuxated Iron of the greatest benefit as a tonic and restorative. Henceforth, I shall not be without it. I am in a position to testify for the benefit of those to the remarkable and immediate helpfulness of this remedy, and I unhesitatingly recommend Nuxated Iron to all who feel the need of renewed energy and the regularity of bodily functions. "Then there is former Health Commissioner William R. Kerr, of Chicago, who is past the three score year mark, but still vigorous, active, full of vim and energy. Former Health Commissioner Kerr says he believes in his own personal activity; today is entirely due to his use of Nuxated Iron and that he believes it ought to be prescribed by every physician and used in every hospital in the country.

THE ELDERLY INACTIVE MAN THE TIRED NEUROtic HOUSEWIFE THE "RUN-DOWN" WOMAN THE EXHAUSTED BUSINESSMAN

will be necessarily dependent upon your action in the premises.

Appropriations

"The amount of money appropriated by the Assembly is always greatly in excess of the revenue of the Commonwealth. At the last session an earnest effort was made by the chairman of the appropriations committee of the House and Senate in cooperation with the Governor to put an end to this wholly reprehensible procedure. Notwithstanding the many conferences held, the Governor has given the matter the full cooperation of all executive officers the appropriations, as heretofore, were far in excess of the available funds. The Commonwealth cannot afford to incur indebtedness without the consent of the people by proper and constituted procedure. The Governor is given the thankless task of reducing these appropriations to the amount available in part many items that possess merit and some that are purely meritorious. The Governor should not be obliged to bear the criticism that properly belongs to others. The thirty days following the adjournment of the Legislature are days of ceaseless worry and concern. Upward of 700 bills are laid before him. They carry appropriations of many millions of money for which the assembly provided no funds. Reductions to bring the expenditures within the means available are imperative. It is a situation no Governor should be obliged to meet. I earnestly appeal to you to correct this condition and to keep the appropriations within the available income of the Commonwealth.

The State Board of Charities and Correction

"The State Board of Charities and Correction, after a careful study of the comparative needs of the many institutions under its supervision, recommends the sum which in its experienced judgment, the Assembly should appropriate to each institution. Their counsel should be adopted as well as the charitable and correctional institutions is constantly increasing. The demands upon the treasury mount steadily. Some new method of state aid is needed to carry a larger share of the support of these institutions should fall upon the local communities. It is my judgment that a gradual reduction of state aid is needed over a period of ten years, would greatly stimulate local interest and reveal the weakness of those institutions that have no compelling reason for their existence.

Regulation and Suppression of Social Evils

"The lessons of the late war ought not to be lost. Much has been learned in the past few years of Army and Navy that may well be made permanent in the procedure of a people in times of peace. The man power and the moral power of the country is its most precious asset. Venereal diseases, once the curse of society and still its deadly menace, should be suppressed by joint legislative action on the part of the State and the Nation. These diseases are associated with sin and shame and crime—all deadly enemies to society. Their effects pass from the guilty to the innocent. They make men and women sterile. They destroy young and unborn infants. They are a potent cause of blindness. They furnish inmates for the insane asylums. They sow a harvest of idleness and feeble-mindedness. They destroy individuals, homes, communities and defeat armies.

Public Education

"Under the provisions of the School Code of 1911 the public schools of Pennsylvania are greatly improved and a procedure set up that will steadily enhance the service of the schools for many years. Experience in its enforcement has developed

Should Make A Million For Him

Cincinnati man discovers drug that loosens corns so they lift out

Local druggists are having a tremendous sale of the drug, which is said to shrivel corns, root and all, without any pain. A few drops of frezone applied directly upon a tender, aching corn relieves the soreness at once, and shortly the entire corn, root and all, lifts right out with the fingers. This new drug is being dispensed at small cost from one bottle, and shortly the entire corn, root and all, lifts right out with the fingers. It is a sticky substance which dries at once, and does not inflame or even irritate the surrounding skin or flesh. There is no excuse for anyone inviting death by infection or lockjaw from cutting their corns

Points From Message of Governor Brumbaugh

The subjects of future legislation left in the main to the "councils of my successor."

New Direct Inheritance Tax Law

"I earnestly appeal to the Legislature not to pass appropriation bills without providing for the funds with which to meet them. Some new method of state aid for charities should be found and a larger share of the support of these institutions should fall upon the local communities.

Danger of Social Diseases

"The danger of social diseases is pointed out and stringent restrictive measures recommended. Urges the early approval of the national prohibition amendment.

Recites Administration's Accomplishment

"Recites administration's accomplishment in the way of childhood legislation, continuation schools and the general improvement of the school system of the State. Urges that the state give each returning soldier opportunity, tuition free, to finish his college course. Employ 5,000 men in cutting and caring for state forests. Pleds for Americanization through education along practical lines.

Workers' Compensation

"Workers' compensation, department of municipal statistics, child labor law, woman's law, bureau of employment and other welfare enactment agencies and acts praised for efficiency. Praises Commissioner John Price Jackson's self-sacrifice in accepting majorship in the Army. Repeats request for codification of banking laws of the state. Capitol Park improvement earnestly advocated. Increased compensation and increase of numbers for State Police force. Death of Health Commissioner Samuel G. Dixon a great loss to the state.

Mine-Save Legislation

"Mine-save legislation and conservation of natural gas recommended. Work of State Forestry Department, State Library, public printing, fire marshal, moving picture censors and highways outlined. Heavy trucks should be assessed a larger fee for use of state roads and the money set aside for interest and sinking fund on state road loans.

Urges \$25,000,000 for Educational Purposes

"Urges that world's fair in Philadelphia in 1925 to commemorate the signing of the Declaration of Independence 100th anniversary. Farmers should be assisted in every way to produce a better and more profitable crop, grapes urged as a crop that could be made to yield much in Juniata Valley.

Urges that World's Fair in Philadelphia

"Urges that world's fair in Philadelphia in 1925 to commemorate the signing of the Declaration of Independence 100th anniversary. Farmers should be assisted in every way to produce a better and more profitable crop, grapes urged as a crop that could be made to yield much in Juniata Valley.
