

Plans to Establish Oil Stations in All American Ports

Washington, Jan. 24.—Plans for establishment of oil stations in American ports, to facilitate the

refueling of vessels of the American merchant marine, are under consideration by the Shipping Board. John A. Donald, acting chairman of the board, declares that the lower cost of fuel oil delivered on a ship as compared with coal, would serve to give American shipping an enduring economic advantage in com-

peting with British and other foreign owned ships, and help to offset higher wages and construction costs prevailing in the United States.

BEEF PRICES TUMBLE
Buenos Aires, Jan. 24.—As a result of the strike of marine workers, the packing houses have withdrawn

from the cattle market. Prices for beef are falling.

New York Legislature To Ratify Dry Bill

Albany, N. Y., Jan. 24.—After a de-

bate lasting nearly five hours, which was preceded by a Republican caucus in which it was made a party measure, a resolution to ratify the federal prohibition amendment was adopted by the assembly of the New York legislature late yesterday. The vote was 81 to 66. Eleven Republicans declined to be bound by the

caucus action and joined with the Democratic and Socialist minorities in voting against adoption. Action on the resolution probably will be taken by the Senate early next week.

The eleven Republicans who voted negatively were those who earlier in the day had joined with the minori-

ties in an unsuccessful attempt to pass a bill to carry out Governor Smith's recommendation for a referendum.

SEES SON AFTER 40 YEARS
Berwick, Pa., Jan. 24.—When Lawrence Boyd left Berwick forty

years ago for Seattle, his mother expressed the hope that she would live to see him return. Her wish has been fulfilled, although she had to live to be 86 years of age to see him. He is her on his first visit since he left.

Store Opens Saturday at 8.30 A. M. and Closes at 9.00 P. M.
