Pennell, of Duncannon, was the week-end guest of Mrs. William H. B. Pennell, of 503 Muench street.

Science has perfected a wonderful preparation that stops Seborrhea (the medical term for dandruff) by killing the dandruff microbe. Its name is FAMO and it is a product of one of the famous pharmaceutical houses of Detroit. The ingredients have never been used on the scalp before but they are well known to physicians. As fast as nature grows new hair the Seborrhea germ kills it off. Unless you destroy the germ with FAMO, the new hair will grow weaker and weaker and boldness finally will result. FAMO destroys the dandruff bacilli and makes new, luxuriant hair grow. FAMO actually retards grayness. It contains no alcohol. It stops all itching of the scalp. FAMO should be used daily by every member of the family, even by those who have no dandruff. It keeps the hair healthy and beautiful and prevents Seborrhea. FAMO is sold at all toilet goods counters, also applied at the better barber shops. It comes in two sizes—a small size at 25 cents and an extra large bottle for \$1. Seborrhea is the medical name for a morbidly increased flow from the sebaceous glands of the scalp. The seborrhean excretion forms in scales or flakes and is commonly known as dandruff. Mfg. by The Famo Co., Detroit. Croll Keller, C. M. Forney, special Famo agents.

Seborrhea is the medical name for a morbidly increased flow from the sebaceous glands of the scalp. The seborrhean excretion forms in scales or flakes and is commonly known as dandruff. Mfg. by The Famo Co., Detroit. Croll Keller, C. M. Forney, special Famo agents.

Science has perfected a wonderful preparation that stops Seborrhea (the medical term for dandruff) by killing the dandruff microbe. Its name is FAMO and it is a product of one of the famous pharmaceutical houses of Detroit. The ingredients have never been used on the scalp before but they are well known to physicians. As fast as nature grows new hair the Seborrhea germ kills it off. Unless you destroy the germ with FAMO, the new hair will grow weaker and weaker and boldness finally will result. FAMO destroys the dandruff bacilli and makes new, luxuriant hair grow. FAMO actually retards grayness. It contains no alcohol. It stops all itching of the scalp. FAMO should be used daily by every member of the family, even by those who have no dandruff. It keeps the hair healthy and beautiful and prevents Seborrhea. FAMO is sold at all toilet goods counters, also applied at the better barber shops. It comes in two sizes—a small size at 25 cents and an extra large bottle for \$1.
