Patronage Steadily Increasing With Harrisburg's Newest Bakery

- It might sound like repeating the same old story over and over again when we tell you that our expectations in Harrisburg are fully realized.
There are more people beginning to realize as each day comes along that at last Harrisburg has a bakery with a consistent policy, and that policy is to make the best bread possible.
Some people might think, while reading these little talks, that we ought to get a new subject to talk about.
There are many little things which we could talk about, but the one thing that stands uppermost in our mind is the fact that Harrisburg people know good bread when they get it.
As we told you several times before, we investigated conditions in Harrisburg thoroughly before we opened our new bakery here.
Our new bakery has been open over three weeks and our trade is steadily increasing.
The only new thought that we could bring to you at this time is this—that Harrisburg is a greater field for good bread than we had anticipated.

RATIFIER NOW IN THE SENATE

Senator Marlow Presents Joint Resolution on the Prohibition Action

Senator Marlow, of York, last night introduced into the Senate a joint resolution providing for the ratification of the national prohibition amendment to the constitution of the United States. The resolution is similar in form to the one introduced into the House of Representatives last week.

A joint resolution to amend section 15 of the State Constitution, dealing with local government of towns and boroughs of over 10,000 population, was presented to the Senate during last night's session, by Senator Craig, Beaver.

The resolution, which would effect Stetson, provides that Section 15 of the State Constitution be amended to read that "any town or borough, with a population of over ten thousand, be given the right and power to adopt and frame their own charters, subject to limitations imposed by the legislature."

It also provides "cities or cities of any particular class may be given the right and power to frame and adopt their own charters, and to exercise the powers and authority of local self-government, subject, however, to such restrictions, limitations and regulations as may be imposed by the Legislature. Laws also may be enacted affecting the organization and government of cities and boroughs which shall become effective in any city or borough only when submitted to the electors thereof and approved by a majority of those voting thereon."

Senator Leib, Perry, introduced an act before the Senate last evening providing for the amendment and revision of the fish laws, and carrying with it, several penalties. The act defines at length, the means and apparatus to be used in fishing and provides penalties for any violations.

Other bills presented, include two by Senator Baldwin, Potter, one validating municipal liens and the procedure thereon, and the other relating entirely to the procedure on municipal liens.

Senator Whittepp, Allegheny, fathered a bill providing for the refunding of a proportionate part of the license fees and additional taxes paid for the sale of vinous, spirituous, malted or brewed liquors, or admixtures thereof, in the event that the sale of such liquors under license is forbidden by the law of the United States of the Commonwealth. Thus, if the country should go dry on July 1st, under the wartime prohibition ruling, the vendors of the above-named liquors, would recover the taxes paid by themselves for the period inclusive of July 1st, to December 31st, 1919.

Four bills eliminating the German language from public advertising were introduced by Representative Bolard, Crawford. One of the bills repeals the act of May 3, 1915, which provides that in cities where there are at least 40,000 Germans, Italians or Jews, official advertising shall be published in German, Italian or Yiddish newspapers.

A second bill would abolish the act of July 2, 1895, which provides that all official advertising appearing in English language newspapers shall be published in German language papers.

Another measure eliminates German language newspapers from the act of June 16, 1856, providing for the advertising of sheriff sales of real estate in counties having more than 150,000 population.

Washing Won't Rid Head of Dandruff

The only sure way to get rid of dandruff is to dissolve it then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign or trace of it; no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon in any drug store. It is inexpensive and never fails to do the work.
