PALMER SAYS HE WELCOMES PROBE

Replies to Congressmen Offered in Reports Ready For President

Washington, Feb. 27.—A. Mitchell Palmer, the alien property custodian, said in a formal statement last night that the resolution of Senator Calder, of New York, Republican, calling for information covering the operations of the custodian's office was fully answered in his report, now ready for submission to President Wilson. He said the President doubtless would promptly transmit the report to Congress and added that he welcomed the fullest investigation of his office.

Senator Calder's resolution, which was adopted Monday by the Senate, called for a report on the complete information relative to the operation of the office of the alien property custodian. Senator Frelinghuysen, of New Jersey, Republican, introduced a resolution yesterday proposing a congressional investigation of the work of the custodian.

In his statement Mr. Palmer said his report contained, as required by law, the names of all persons employed or employed, with the salary or compensation paid to each and a statement of the different kinds of property taken into custody and the disposition made of it. Mr. Palmer said he published a statement that "some New York lawyer has received a fee of \$50,000 is absurd." No such fee had been paid by his office, he declared, and none anywhere approaching that sum had been paid by any corporation, in which the alien property custodian has an interest.

Cases of Soldiers Court-Martialed to Be Reviewed

Washington, Feb. 27.—Major General Crowder, judge advocate general of the army, appeared before the Senate Military Committee yesterday at a resumption of hearings on the court-martial situation, and that all imprisonment sentences imposed on men of the army during the war and found upon review to be too severe would be mitigated through the President's power of remission.

General Crowder said that within sixty days the 5,000 sentences imposed since the beginning of hostilities, would be reviewed by a special board headed by Brigadier General Samuel T. Amey, who was acting judge advocate general during the war.

Steps toward mitigating the sentences were begun, General Crowder said, prior to the investigation by the Senate committee. Practically all of the men sentenced to dishonorable discharge and imprisonment, he added, already have had the dishonorable discharge provision revoked.

FACE RUIN IF PRICES TUMBLE

Farmers Must Hope For Wage Decrease, Says Rasmussen

State College, Pa., Feb. 27.—Farmers face virtual ruin if present food prices are permitted to go down without a corresponding decrease in the wages of all industries, according to Fred Rasmussen, secretary of the Department of Agriculture in Pennsylvania.

Professor Rasmussen spoke last night before 1,000 farmers assembled here for farmers' week. Hundreds of students of the Pennsylvania State College agricultural school were also among the audience and cheered Mr. Rasmussen, who was head of the dairy husbandry department of the college before assuming his State duties several weeks ago.

The affair brought to an end the second day of farmers' week activities. From early morning the visiting farmers and their wives attended classes at which practical instruction in every conceivable branch of farm production was given. So popular has this educational work become that it was unanimously agreed to hold another farmers' week this year in June.

Mr. Rasmussen pledged his department to whole-hearted support of the farmers of this State. He outlined a comprehensive educational policy his department will pursue in rural communities. He urged that unless existing organizations perfect better methods in bringing farm products from the farm to the consumer the State will have to develop new agencies to provide economical distribution.

CURIOSITY COSTS \$3

Chambersburg, Pa., Feb. 27.—After paying \$8.15, fine and costs, to Magistrate Haulman for breaking an incandescent light on the streets of the borough, Paul Warner, 18-year-old boy of this place, demanded a hearing on the charge for the purpose of ascertaining who the person or persons were who reported his offense to the police. He was given a hearing and it cost him \$3 additional, but he failed to find out who informed on him. He had told Chief of Police Byers and Patrolman Umberhocker after paying his fine that he was guilty of breaking the globe and the two officers so testified at the hearing. Magistrate Haulman deemed this sufficient evidence to convict the boy and the persons who saw Warner break the globe were not called to give testimony.

"NO BEER; NO WORK"

Waynesboro, Pa., Feb. 27.—The local labor unions, like their brethren all over the country, are debating the "no beer, no work" program proposed to be made effective July 1, should the executive order making the county bone dry on that date be enforced. They have as yet reached no decision, but sentiment is strong for the plan which has been affirmatively adopted by many labor organizations throughout the country, notably the iron workers, ship builders, longshoremen and other unions in New York last Saturday.

Likewise, the beer hoister has got to lay down a dime instead of a nickel for a single glass of "suds," and a 25-cent tariff for "suds" in bottle form. In package quantities the price of whisky jumped from \$1 to \$2 a pint and \$2 to \$4 a quart.
